

The Bathroom Furniture Co.
BY BURBIDGE

The Bathroom Furniture Co.

B Y B U R B I D G E

HENRY BURBIDGE ESTABLISHED HIS
WOODWORKING COMPANY IN 1867.
EVOLVING OVER THE DECADES IT
NOW HAS THE FIFTH GENERATION
AT THE HELM.

We are still family owned; still manufacturing in the UK and still drawing on a rich woodworking heritage with a collection of bathroom furniture that spans timeless classic timber styles, to those that boast the latest contemporary designs and finishes.

Thanks to this legacy of working with wood, we boast unrivalled expertise when it comes to crafting your furniture; a talented team of designers operate from our manufacturing site in Coventry, working alongside long-serving, highly-skilled craftsmen with an intimate knowledge of production methods.

Whether producing high quality timber doors, hand-spraying to reveal the subtle beauty of wood graining or using premium technology to create cleverly-engineered laminate finishes, you can rest assured that specialists are at work.

Of course, don't just take our word for it – we are proud to be awarded the prestigious Manufacturing

Guild Mark by the Worshipful Company of Furniture Makers, the mark of excellence for furniture manufacturers, demonstrating the high level of craftsmanship that goes into producing our kitchens.

At Burbidge, we are also proud of our commitment to producing such innovative, premium quality bathroom furniture with due care and respect for our environment. Our timbers and timber products

are sourced from well managed forestry in Europe and North America and we use paints that guarantee colour-fastness whilst having a low environmental impact.

But above all, it is our passionate understanding of what makes great bathroom furniture that puts you in safe hands, as managing director Ben Burbidge concludes:

“ I LOOK AT THE BURBIDGE OF TODAY WITH GREAT PRIDE; WE ARE A SKILLED TEAM WITH A PASSION FOR DESIGN AND A COMMITMENT TO LEADING THE WAY IN BATHROOM FURNITURE MANUFACTURING. ”

LANGTON

LANGTON

Elegance shines through with this beautifully crafted in-frame range of freestanding washstands, designed and manufactured in the UK from premium quality solid timbers to stand the test of time.

Langton is available in three widths – with a choice of either a solid surface or veneered timber top – a neat 800mm, larger 1200mm plus a new 1464mm option allowing for two sit-on basins; the ideal solution to combat the morning bathroom rush or create his and hers zones.

A simple slab style drawer with a beaded frame reinforces the elegance of this timeless piece, whilst practical internal storage is taken care of with solid timber dovetail drawer boxes to keep all those lotions and potions neatly out of sight. A timber slatted storage shelf in a Natural Oak finish is the perfect platform for those products you do want to keep to hand. Or why not use the space as an opportunity to create a display feature, setting luxury candles and decorative baskets out on show against vibrant hand towels or textured glassware.

Choose from a strong selection of handles, knobs and solid surface finishes – including Natural Oak – to create a washstand that is unique to your tastes and why not team with a co-ordinating mirror, available in varying sizes including a double basin-friendly large landscape option.

TETBURY

TETBURY 2030MM CURVED VANITY UNIT AND MIRROR - PAINTED TAUPE / T-BAR (K166) / HINGE (H5) / 25MM COPPER FLECK TOP WITH INTEGRATED BASINS

TETBURY

TETBURY

All of the Tetbury pieces are available in Natural Oak or can be personalised using our stunning palette of 30 Painted finishes to subtly reveal the furniture's appealing woodgrain patterning. Whether being used as mono colour, in co-ordinating accents or mixed with natural oak finishes, your furniture is hand-sprayed with these on-trend shades in our UK factory.

Creating a chic vanity unit is easily and stylishly achievable thanks to the variety of base unit sizes and configurations, blending door and drawer combinations along with a new super-length curved unit to suit a double basin preference. Sleek solid surface finishes are available for all units with or without an integral washbasin.

Those who want to create a more modern feel or who are working with a smaller space can maximise the neat base units and modular, wall hung options of the Tetbury range.

Cleverly designed, hard-working bathroom storage helps free up floor space and minimise clutter. Solid timber dovetail drawer boxes and spacious multi-door units hide away as much as possible, but why not stand proud and supersize your storage with a fabulous co-ordinating tallboy or feature natural oak open units to display spa-influenced scents and homely wicker baskets.

Immerse yourself in the co-ordinated comfort of Tetbury with accessories such as mirrors, mirrored cabinets, WC unit and bath panels, available in Natural Oak and Painted Finishes, to complete your soothing space.

TETBURY

TETBURY

The beautifully strong lines of our classic Tetbury range draw on traditional cabinetry, being expertly produced to form a bespoke in-frame look with an intricate beaded panel which oozes statement luxury.

The concept of a dream bathroom space is unique to the individual so perhaps this range's real beauty lies in the fact that it can be flexed in line with your specific style, thanks to an array of freestanding and floating options, with a variety of door and drawer configurations.

Thanks to the glamorous allure of roll-top baths, ornate radiators and vintage wall coverings, the elegance of a heritage style bathroom or en-suite remains hugely covetable. Easily adapt the styling of the versatile Tetbury range by choosing from the different plinth options available. Dial up the heritage styling to suit your taste with either plain or beautifully decorative plinths or go without a plinth altogether, for a more simple and freestanding take on bathroom design.

Choose what's right for you from a strong selection of knobs, handles and decorative hinges in a range of materials, such as smart stainless steel, chrome and blackened copper effect finishes.

HARROW

HARROW 1510MM BASE UNIT, TALL BOY UNIT AND MIRROR -
PAINTED GOOSEBERRY / T-BAR (K166)

HARROW

With our Harrow range, we've used an iconic shaker style as the starting point, but thanks to a wealth of unit sizes and formats along with co-ordinating accessories, there is an exciting creative scope to work with. This is a versatile scheme that flows extremely well across family bathrooms and en-suites in a range of property types.

Space-saving, floating modular units come in both door and drawer options, in multiples of two and four; with or without a solid surface top or integral washbasin. Harrow's freestanding variations are super-flexible, with a wide choice of simple base units supplied with or without a plinth. Throw in add-ons such as a stylish tall boy and a mirrored cabinet and the possibilities are endless, satisfying the growing need for homeowners to replicate hotel luxury and showcase their personality through a look that is unique to them.

The fact that every component can be personalised with our 30-strong palette of painted shades helps you to play with colour too. Confidently pick out bold painted Pale Navy to create a statement piece against a feature wallcovering or opt for a sophisticated and harmonious soft neutral across your scheme. Further hone your preferred look by choosing from a strong selection of handles, knobs and solid surface finishes.

We know that storage space is a big consideration, especially when working with a busy family bathroom. Touches such as roomy dovetail timber drawer boxes and attractive natural oak open units more than take care of your clutter whilst ensuring the look of luxury is permeated throughout.

The opportunity to introduce a matching framed mirror, W.C. unit or bath panels helps to unify your overall look and inject a crisp finish, which you can accentuate with co-ordinating tiles and paintwork, or contrast with an in vogue mix and match selection of wallcoverings and coloured accessories.

CLASSIC FINISHES

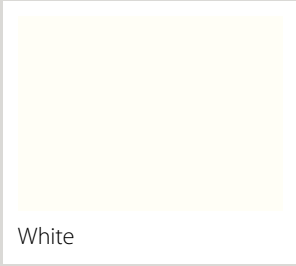

We have carefully-curated a palette of thirty on-trend shades to create statements and beautiful contrasts against Natural Oak, plus colours that work hard in your bathroom; that affect mood, respect natural light and enhance this important space.

The Bathroom Furniture Co furniture can be personalised from our stunning palette of painted finishes. Our furniture is expertly painted by skilled technicians in our UK workshop using paints that guarantee colour-fastness whilst having a low environmental impact. This quality commitment achieves perfect results, highlighting the subtle beauty of the woodgrain beneath your colour.

Our latest additions are shining examples of colours that are taking centre stage in interior schemes. The new shades of green – Thyme, Willow and Fjord Green – continue to support the popular botanical trend, creating a sense of order and calm to your interior. Grey remains as the hottest hue in interior design; helping to define architectural lines and is naturally suited to minimal, contemporary layouts. Anthracite and Pale Smoke, our two new add-ons offer options at either end of the grey colour spectrum.

OTTO 746MM MODULAR UNITS - BLEACHED WALNUT /
TOP FITTING HANDLE (K153) / 12MM AMAZONIA BROWN TOP

OTTO

OTTO

Modern geometric styling and unobtrusive top-fitting handles come together in this popular minimalist design. Take a closer look and you'll see it is the stunning finishes of Otto that can really give your bathroom contemporary appeal.

Otto's beautifully-engineered laminate materials are available in three distinct finishes that have been specified to create wonderfully-realistic timber that add texture and woodgrain warmth.

The Dark Walnut injects intensity into your interior scheme which blends beautifully with smoky flooring and walls. This luxurious finish can often help smaller bathroom spaces appear larger, allowing the white ceramics to better stand out against the furniture pieces.

If a lighter, relaxed Scandi-retreat is more your dream; then Bleached Walnut delivers calm sleekness, especially when paired with Sparkling White solid surfaces. And the grain detailing of the vintage-inspired Rose Walnut option provides the perfect backdrop for the growing trend of more glamorous materials such as gold, copper and brass being used across bathroom ceramics, brassware and accessories.

The same premium technology has been used to develop the fourth laminate in a clever Concrete finish. Dark grey tones and a coarse texture combine to inject an industrial luxe quality.

Uniformity is key to creating the free-flowing, clutter-free minimal layout that this range is designed to deliver. This is why we have created a fully co-ordinating assortment of solid surfaces and co-ordinating accessories such as a wall storage unit and bath panels to deliver a truly seamless finish.

ISALA

ISALA 596MM FREE STANDING BASE UNIT
AND TALL WALL UNIT - DARK ELM

ISALA

Homeowners are turning to the natural world for interiors inspiration, blending tactile textures, peaceful palettes and plant life into bathroom spaces to create a haven of wellbeing. The tactile timber effect of our crisp handle-less Isala design offers a striking contemporary simplicity, whilst introducing a smart and desirable textural finish.

Constructed from durable timber effect laminate in two distinct finishes; bold Dark Elm or soft Warm Grey Oak, these are bathroom furniture pieces that can more than hold their own against the bumps and splashes of everyday domestic living.

Specific to the Isala range, is the option to expertly overpaint the wood effect laminate, opening up further design opportunities as our palette of 30 shades has been chosen for its easy-going and easy-toning attributes.

With Isala, we have created a number of different vanity and wall units, along with freestanding units in a variety of drawer configurations – available with or without a solid surface and integral basin – so that you can build a design exactly round the needs of your space and family.

MALMÖ

ALL IMAGES MALMÖ 556MM MODULAR UNIT - GLOSS GRAPHITE

MALMÖ

MALMÖ 746MM MODULAR UNIT -
MATT PORCELAIN / 12MM WHITE TOP WITH INTEGRATED BASIN

MALMÖ

Decades of design expertise and the award of the prestigious Manufacturing Guild Mark - the mark of excellence for furniture manufacturers - means that you are in reassuringly expert hands when it comes to shaping your dream bathroom space.

For many, this dream lies with the serene simplicity of the handle-less Malmö with its choice of gloss and matt finishes providing an inspiringly tactile canvas to create your preferred bathroom mood.

The cool appeal of handle-less shines through when specified in a sleek gloss finish which is especially great for smaller bathrooms as it reflects light. The lacquered variants in this range are smooth to the touch and boast a pigment-rich flawless finish. There are four on-trend gloss hues to pick from; Gloss White for the ultimate in contemporary calm or deepen your palette with the sophisticated Gloss Graphite.

And in family bathrooms where practicality is the top priority, matt is popular because it is less likely to show up soapy fingermarks. We think the muted Matt Porcelain tone beautifully befriends natural flooring and tiling materials such as wood and stone. And when it comes to family-friendly storage, add-ons like the spacious but tall and slim, wall-mounted unit effortlessly tackles clutter.

When working with such a minimalist design, the smaller details can play a crucial role on the overall feel of a space – particular to Malmö are angled end panels on each unit, creating a clean edge and neat fit, enhancing the overall contemporary design.

CONTEMPORARY FINISHES

We have captured the latest interiors trends to present a palette of colours and finishes that work perfectly in bathrooms of all sizes.

As our pages showcase, the Contemporary Collection's range of finishes are designed to work together adventurously and creatively. This gives you the freedom to mix any shade and any texture, but the comfort that we have expertly chosen possibilities that work impeccably together.

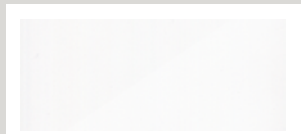

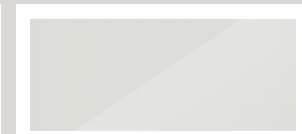

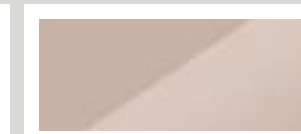

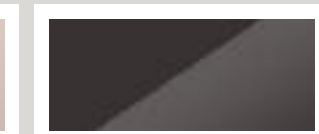

The palette is heavily steered to neutrals for example because we know that their easy-going and easy-toning attributes are so user-friendly and popular with homeowners. We also know that the super-smooth matts and luxurious glosses in the collection can beautifully showcase dramatic tones, such as the new breed of sultry dark hues that are so well-suited to the linear lines of contemporary styles.

However it is through technology that we have injected real contemporary distinction creating cleverly realistic woodgrain and concrete effects that can be used as eye-catching focal points and striking design statements

STORAGE

As the bathroom increasingly becomes a space of sanctuary in the busy home, it is vital that it offers an ordered environment to fulfil this sense of serenity, as well as ensuring that the usability of your square footage is truly maximised.

Whatever size of room you are working with and whether your vision is boutique hotel chic, or clutter-free family living, it is about building a scheme that is cleverly streamlined with high-quality storage solutions to keep everyday toiletries and linens discreetly out of sight.

Our Classic collection ranges all feature solid timber dovetail drawer boxes which operate on soft close Blum runner systems. By blending our high-quality timber crafting with premium engineering that provides a guarantee for the lifetime of your furniture, the units retain design excellence even when out of sight. Luxury is granted on every level; from the timeless beauty of timber, to the wonderfully deep and spacious drawers, taking care of your collection of lotions and potions, however vast it may be.

With our Contemporary ranges, well-considered design features such as an anti-slip, easy clean mat, glass dividers and sensor-operated LED drawer illuminators similarly create an uncluttered bathroom that is beautiful both inside and out.

HANDLES

HANDLES

As a room built around maximising moments of me-time, why not dial up the personalisation by crafting your bathroom around your own tastes and needs.

Take the time to consider your choice of handle or knob, because this small design element can have a big impact on the overall feel of a scheme and is something that you'll be looking at and touching every single day.

Our carefully-specified choice of premium quality knobs and handles are selected to work right across the range of bathroom pieces, so you can take your pick from a variety of shapes such as simple knobs and classic T-bars, to modern grip handles. We've also taken a leaf out of our well-thumbed kitchen design book, to incorporate several sleek top fitting handle options. These provide an unobtrusive and discreetly stylish alternative way of injecting a linear look to your bathroom space, helping to achieve a calm minimalism.

A wide choice of materials and finishes, including brushed chrome and aluminium, along with blackened copper and antique grey effect, have been selected to suit both traditional and contemporary designs - whether adorning an elegant timber piece or helping to create a cool, modular look.

See how we've enhanced the heritage, in-frame styling of our Tetbury furniture with the option of decorative hinges available in co-ordinating finishes.

Whatever option you decide on, rest assured that your choice of handle boasts the hard-working durability that a busy bathroom demands.

Mix and match patterns, bold colour experimentation and the use of stand-out materials are just some of the trends taking centre stage in the bathroom.

Our carefully selected palette of 14 finishes guides you through a choice of hues from sparkling whites and cool crystal greys, through to dramatic dark tones. They can create beautiful contrasts against the many materials in a bathroom, such as timber and vinyl flooring, marble and stone wall coverings and porcelains, as well of course as being carefully selected to co-ordinate with the Burbidge furniture collections.

And alongside these colour and design credentials, the solid surfaces have been specified for high quality, premium strength and thickness criteria too, after all this is a busy room exposed to the likes of moisture, dust, oils and creams.

Choose from two different thicknesses: 25mm designed to co-ordinate with our Classic collection or the super-slim 12mm suited to our Contemporary ranges*. For those looking to incorporate the timeless warmth and beauty of a Natural Oak finish, a 25mm real wood veneer surface is available with our Langton and Tetbury ranges.

In keeping with your specific space needs and bathroom fittings requirements, the surfaces are available to order either with or without an integral white basin, so you can easily build a design around you.

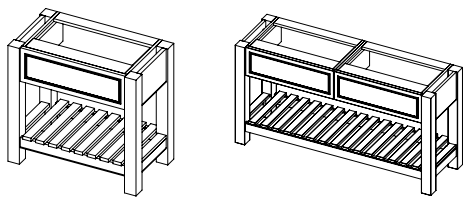

**They are available to order either with or without an integral basin.*
