

Artweger
TWIN:LINE

"I like showers!"

"I prefer baths!"

TWINLINE

THE ONE-TWO PUNCH
FOR YOUR BATHROOM

Shower or bath? Not a question!

The bathtub of the future - the TWINLINE from Artweger.

Comfort and well-being are the most important features nowadays when it comes to bathrooms. Personal wishes and preferences would like to be taken into consideration. The question which many people have to answer is - shower or bathtub?

The TWINLINE from Artweger does away with this decision because it is both – a bathtub and a shower at the same time! Due to its integrated glass door you get into the shower and the bathtub practically flush-to-floor. That is why the TWINLINE is the trend-setting alternative to conventional bathtub or shower answers to this question. It is pure comfort!

The bathtub of the future.

Comfortable access

Shower or bath? Many of you will know this situation: space in the bathroom is simply not enough for both. However to go without one of the two options is not the answer for everybody. The TWINLINE now creates space to have both, without having to enlarge your bathroom! The Artweger TWINLINE is the all-Inclusive solution whether for singles or a large family, for large and small bathrooms.

You have never experienced such a comfortable bathtub. You open the door of the Twinline and simply walk in! In doing so the integrated door opens inwards to save space and provides you with comfortable, practically flush-to-floor access to the bathtub and shower. There is no side of the bathtub which is too high. Simply walk in and walk out. Nothing could be more convenient than that.

“For me it has to be quick”

“I like to take my time.”

Models

"I rather prefer curves."

TWINLINE 1

- *Curvy bathtub with an extra generous shower area*
- *Rounded glass door for a lot of space when showering*
- *Integrated seat in the shower*
- *Comfortable neck rest when reclining*
- *Electronic safety lock system*
- *Access height 18 cm which can be reduced to 7 cm*
- *Integrated guide track with shower head holder*

"I like the angular types."

TWINLINE 2

- *Straight bathtub with widened shower zone*
- *Straight glass door for reduced space requirements in the bathroom*
- *Backrest and shower seat are optional*
- *Extra deep tub for lots of space to bathe*
- *Mechanical locking system, no power connection necessary*
- *Access height 18 cm which can be reduced to 5.5 cm*
- *Ideal for rapid partial renovation (tub exchange)*

TWINLINE 1

Bathtub or shower? Many of you know this question: You do not want to do without the one or the other. The TWINLINE 1 is the first bathtub in the world that makes the decision for you because it makes room for both.

The TWINLINE 1 in detail.

With the TWINLINE 1 from Artweger your bathroom becomes your zone for individual comfort. The sophisticated design of the door makes it possible: Easy access and egress just like in a shower. More freedom of movement due to the rounded form of the bathtub. The integrated shower door made of safety glass provides protection from splashes and reliable sealing.

The electronic safety lock guarantees that the door cannot be opened unintentionally while having a bath. In addition the TWINLINE 1 offers a great amount of comfort. Thanks to the integrated neck rest you can lie back fully relaxed when taking a bath. A seat which is integrated into the side of the bath enables you to carry out personal hygiene in a most comfortable way.

- 1 *Take a seat! An integrated seat encourages you to carry out your personal hygiene most comfortably.*
- 2 *Shower seat. The wide, comfortable seat fits into the curve of the tub and can be removed for cleaning purposes.*
- 3 *Ideal for relaxation. A soft neck rest is integrated in the bathtub.*
- 4 *Everything under control. As long as the key is lit the safety lock on the door cannot be opened.*
- 5 *Fully sealed. The continuous, long-life seal makes the TWINLINE 100% watertight (washing machine principle).*

TWINLINE 2

The TWINLINE 2 has a very special advantage: It fits into very small bathrooms. With its straight shape it takes up exactly as much space as a normal bathtub. Because of this you can exchange your old bathtub for a new TWINLINE 2 with a minimum of effort.

The TWINLINE 2 in detail.

The TWINLINE 2 has a very special feature: It is especially compact. With its rectangular bathtub and straight glass door it is the perfect solution for small bathrooms and rapid partial renovation. Its mechanical safety lock reliably prevents unintentional opening of the bathtub door while you are bathing. The extra deep bathtub also encourages protracted bathing even in a small bathroom.

Not only bathing but also showering is a pleasure in the TWINLINE 2: this is provided for by a special widening of the tub in the shower zone and the comfortable access. In the case of installation by a sanitary expert the access height can be reduced to 5.5 cm. With this feature the TWINLINE 2 offers full comfort in the shower and the bathtub.

- 1 *Convenient Access: The door handle is coated with anti-slip rubber and can be easily opened and shut when standing.*
- 2 *The shower door opens inwards to save space and provides almost flush-to-floor access to the bath and the shower.*
- 3 *The optional water inlet is elegantly integrated into the tub. The water bubbles into the tub just like from a spring.*
- 4 *The mechanical safety lock is coupled with the drain. Filling of the bathtub is only possible when the door is locked.*
- 5 *Elegant and at the same time comfortable is the soft backrest made of easy to clean plastic (optional).*

Bath or Shower?

One or the other? In small bathrooms one always had to make unsatisfactory compromises up until now. In the bathroom the crucial question was always: Shower or Bath? Some people are “shower fans“ more than others and they often want their personal hygiene to be carried out quickly but hardly anyone wants to completely do without a bathtub. “Bath fans“ view their bathtub as their own personal spa

Bathing benefits

- *has a relaxing effect*
- *supports suppleness*
- *can relieve joint problems*
- *stimulates circulation*
- *can relieve nervousness*
- *can help to ease rheumatic pain*
- *helps prevent and relieve common colds*
- *can relieve back pain*
- *prevention of muscle pain*
- *can guard against cellulite*
- *for healthy skin*
- *for medical care in the case of skin problems*
- *with the addition of essential oils as Immunotherapy*

“Mom sings under the shower!”

“Dad snores in the bathtub.”

which they need to keep their world on track. In addition taking a bath has been proven to be therapeutic and provides a whole range of positive aspects for one's health. With the TWINLINE design both types get what they want as the TWINLINE is both a fully-fledged bathtub and a spacious shower all-in-one.

Showering benefits

- *for daily personal hygiene*
- *saves on water*
- *saves time*
- *vitalizing*
- *in summer for a quick cool down*
- *in winter for simple warming up*
- *stimulates circulation*
- *Kneipp treatments with cold water*

Full comfort down to the smallest detail.

Whoever plans a new bathroom or renovates their old one should also think about the future. Will I remain as mobile as I am now when I get older? How can I equip my bathroom as practically and comfortably as possible? Not only for me, what about my partner? Have we provided in the best way for our future in the bathroom?

With the ARTWEGER TWINLINE you have already installed the future. That is because it provides a great amount of comfort and functionality - for instance in the case of easy access: when installing into the floor the access height of the TWINLINE can be reduced to 5.5 cm. The best thing to do is ask your sanitary specialist.

Both TWINLINE models can be recessed into the floor in which case the access height is reduced to 5.5 cm (TWINLINE 2). In addition the shower door opens inwards. Because of this the TWINLINE provides space-saving, almost flush-to-floor access and egress.

TWINLINE 2 180 cm, recessed into the floor with glass skirting in Bordeaux

*"I also want to be able to sit
in the shower."*

*"I would like a maximum of
comfort when taking a bath."*

*The door handle which has been set higher
can be easily used from a standing position.*

*In both models the space for showering
is very generous.*

*Seat padding and neck rest help you to relax
and also aid in comfortable washing.*

*Even more comfort is provided by the ARTLIFT:
See more on the back of the brochure!*

Gentle luxury.
Whisper jets & colored

TWINLINE AIR

Suitable for all TWINLINE 1 and TWINLINE 2 models!

The whirlpool of a **slightly different** kind

In the TWINLINE more than 24 gentle whisper jets were built into the tub. The air bubbles rise like sparkling champagne bubbles and gently massage your body. The jets are ergonomically distributed so that your whole body can enjoy their soft caress. With the two colored LEDs you can turn your TWINLINE into a sea of color.

24 whisper air jets

2 colored LEDs

"Classic is always good."

The advantages of the TWINLINE AIR

Relaxing - due to the very low amount of noise.

Hygienic – due to the air system the disinfection normally required for whirlpools is not necessary.

Convenient - the jets are automatically blown out after bathing and showering.

Comfortable - ergonomic placement of the jets provides an equal effect throughout the whole bathtub.

Practical - the fine jets are integrated in the bottom of the tub and are not disturbing when showering or bathing.

The colored lighting

7 colors: white, yellow, red, light blue, green, blue and violet.
Automatic or manual cycle with stop function.

"I enjoy trying out something new."

TWINLINE: The Space-saver in the Bathroom!

How to make your bathroom larger!

Do you have a small bathroom but want full comfort? Not a problem. With the various models and equipping of the TWINLINE family you can now realize your personal bathroom plans. That is because the TWINLINE has suitable solutions even for small bathrooms or ones with unusual angles without having to go without a bath or a shower. You can see some examples from professional bathroom designers here.

Small bathroom with lots of storage space? The TWINLINE 2 with its compact shape fits into bathrooms with unusual angles and makes room for additional furnishings.

Four square meters of bathroom – smaller is hardly possible. Nevertheless full comfort is also possible here! That is because before the question was always bath or shower whereas nowadays with the TWINLINE 2 both are possible - a true space-saver.

Further tips from pros that make a small bathroom feel larger: light, cheerful colors, large tiles, clever use of mirrors and indirect lighting to mention only a few.

TWINLINE 1 with a rear wall of ARTWALL deco concrete.

The innovative solution for small bathrooms is called TWINLINE because it provides the advantages of a bath AND a shower even in a very limited space. That leaves more space for you in your bathroom and provides freedom of movement. The TWINLINE can be partially recessed into the floor (see photo above) and in this way it provides fast, barrier-free access.

New bath – made easy:

Bathtub exchange in 24 hours* , Shower included!

* Time required depends on the individual situation

Exchange your old bathtub for a new TWINLINE 2 quickly and easily. The outstanding feature: Your new TWINLINE will stand on the same surface area in the future as you old tub did before. That means: Shower AND bathtub all-in-one on the same surface area without taking up any more additional space! Simply ask your sanitary specialist whether, and how, that will work out in your particular case.

Redecorate your bathroom - with ARTWALL!

ARTWALL from Artweger is an especially practical solution for rapid bathroom renovation. ARTWALL is available in various colors and designs and can be integrated into your existing bathroom elegantly. The best thing about it: ARTWALL saves time and costs as time consuming tiling is not necessary. ARTWALL is simply adhered to existing substrates. Your bathroom is functional again after a very short

time. ARTWALL is a wall system for bathroom renovation which was especially developed for wet rooms. That is why it is ideally suited to rapid and simple beautification of your bathroom. The jointless panels are especially durable, resistant to spotting and to common cleaning substances and therefore very easy to care for.

ARTWALL can also be used as tub skirting for the TWINLINE.

"I prefer colorful"

AFTER

TWINLINE 2 with rear walls and tub skirting of ARTWALL deco in rust.

Details

TWINLINE 2: The mechanical lock is coupled with the drain. In the position "Shower" the drain and the lock are open.

TWINLINE 2: If moved to the position "Bath" the drain closes and the door is locked. Filling of the bathtub is only possible when the door is locked.

TWINLINE 1: Everything under control. As long as the button is lit, the safety lock on the door cannot be opened.

The hinges on the TWINLINE are adhered to the outside of the glass which leaves the inside of the glass completely smooth and particularly easy to clean.

TWINLINE 1: The wide, comfortable seat in the shower is integrated into the bathtub and can be removed for cleaning.

Tub Skirting

Tub skirt in white plastic

Tub skirt with glass in White

Tub skirt with glass in Anthracite

Tub skirt with glass in Bordeaux

Material

Highly stable and durable composite material with glossy GELCOAT surface. The advantages: Warm surface, pleasant to the touch. Very smooth and easy to clean. Particularly durable and resistant to wear. Also resistant against chemicals and solvents. Can be repaired.

Tub material TWINLINE 1

New bathtub technology from Artweiger with acrylic surface and sandwich construction = built up in several layers. **The advantages:** Optimum heat insulation, highly stable, especially effective sound proofing, pleasant surface, environmentally friendly and suitable for recycling because it is free of solvents.

Tub material TWINLINE 2

Different versions

This version is with a side wall of genuine glass which is possible for all models.

This version is with glass wings on the shower door for additional splash protection. They can be folded out or in. Only for the TWINLINE 2. Can also be retro-fitted.

Accessories

ARTGRIP, the special anti-slip coating for the shower makes the surface non-skid and provides for safe standing in the tub.

Practical foldaway seat for the TWINLINE 2 with softened mechanism, high quality surface which is easy to clean.

The elegant backrest of the TWINLINE 2 also provides you with additional comfort when bathing. To clean it and the bath simply remove it.

Single-pane safety glass (ESG).
 In TWINLINE, special heat-treated safety glass (EN 12150) is used that is more impact-, shock- and temperature-resistant. If the glass breaks, glass granules form, reducing the danger of injury considerably.
