BETTE

**Bathroom elements
made of glazed
titanium steel**

We love trying things, experimenting and thinking outside the box.

Titanium steel and glass are not only our materials, but are often also the source of our ideas. We always develop new forms and products in a dialogue with the natural properties of our material. We think in extremes and sound them out. From the radical minimisation of the bath rim to the maximum radius of a circular bath, we redefine the limits of what is possible.

The results are sensuous objects with history and character. They turn bathrooms into living rooms, and naturally integrate bathing, showering and washing in the home. As well as perfect functionality and reliability, they also give the people who use them freedom, relaxation and safety. Along with luxury, opulence and the joy of colour or lightness. Every day. For at least 30 years. We guarantee you this.

We want our Lookbook to inspire you, and to encourage and tempt you to try more things that are possible. Because we believe in your bathroom.

Thilo C. Pahl
Managing Partner

A statement of purism—The baths and washbasins in the **BetteArt** collection bring a sculptural effect to the room. The shapes of the inner and outer walls have been skilfully fused together to create a seamless design with extremely narrow sides. This results in highly symmetrical designs with soft lines, creating a special ambience in any bathroom.

BetteArt Design: Tesseraux + Partner

Special waste and overflow system, with integrated filling on request.

As though shaped by water—The BetteLux collection is characterised by a flowing, natural design that is formed from an organic basic shape, with extremely delicate outer rims. This elegant line looks wonderfully at home anywhere. The voluminous interiors of these baths and washbasins appear effortless in their perfection. Minimalism with perfect craftsmanship.

BetteLux Design: Tesseraux + Partner

Almost floating—Powder-coated steel frames support the BetteLux Shape baths and washbasins as though they are weightless. The frames emphasise the full beauty of the organic bath design. A specially designed overflow, together with other sophisticated details—such as the precise corners of the bath forming a flush finish with the edge of the frame—reinforce the idea of perfect minimalism.

The essence of the oval bath—The **BetteLux Oval** has a natural flow, despite the distinct, concise design. The outer design cleverly accentuates the soft lines of the bath. The basic, organic design, featuring an extremely delicate rim, is an elegant addition to any bathroom. The voluminous interiors of these baths and washbasins appear effortless in their perfection. Minimalism with perfect craftsmanship.

BetteLux Oval Couture Design: Tesseraux+Partner

Steel can wear anything—The BetteLux Oval Couture line elevates the bathroom fitting to a lifestyle object. The first fabric-coated baths and washbasins bring comfort into the bathroom and bathroom comfort into your home. The body of these baths and washbasins is manufactured conventionally from enamelled titanium steel, yet the surround is made from woven waterproof and climateresistant fabric. The unique advantages of enamelled titanium steel are elegantly fused with the feel of fabric and a cosy look.

BetteLoft Design: Tesseraux+Partner

Expressive geometric lines—The BetteLoft collection is based on the fundamental design of four tapered surfaces that meet up together. Precise contours form the perfect frame for the voluminous interiors of these baths and washbasins. Perfect craftsmanship and an extremely small corner radius underline the expressive character of this minimalistic design.

BetteLoft Ornament Design: Tesseraux + Partner

Comfort with a distinctive design—The BetteLoft Ornament line of baths and washbasins is the perfect expression of titanium steel's outstanding versatility. Its expressive outer design accentuates the straight lines of the inner well, which are echoed in the geometric pattern. The fascinating interaction between light and shadow lends this bathroom collection outstanding luminosity and vibrancy.

Relaxed symmetry—The **BetteComodo** line combines geometric design with smart ergonomics and exceptional comfort. This collection is recognised for its perfect, oval design and generous depth.

BetteComodo Design: Tesseraux+Partner

A collection for distinct bathroom designs—BetteOne is a bathroom concept that incorporates glazed titanium-steel baths and washbasins. The key features of this collection include the wide circumferential rim and geometric interior lines. With a distinct design language, BetteOne is available in a diverse range of dimensions and models. Timeless, universal and simply beautiful.

DESIGN PLUS

BetteOne Design: Tesseraux+Partner

Pure form and size – Immerse yourself and relax completely. The circular **BettePond** is spectacular in form and size. Its exceptional diameter of 1500 mm is made possible by the high stability of glazed titanium steel.

BettePond Design: Tesseraux+Partner

Flexibility and charisma – The **BetteSpace** combines desire and reality. Its modular trapezoid shape has a wide back angle, and tapers towards the foot end. Thus it introduces linearity and maximum comfort into any size of bathroom. The puristic space-saving bath is available in three versions: as the single bath – BetteSpace S, as the BetteSpace M – shower/bath with a comfortable standing area, and as the duo bath BetteSpace L, with room for two bathers to sit side by side.

BetteSpace Design: Tesseraux+Partner

Flawless hygienic,
jointless beautiful

BetteFloor Side Design: Tesseraux+ Partner

Variety and dimensional freedom – Bette shower trays are comfortable, beautifully shaped, and simply perfect in every detail. Its tremendous variety of dimensions and the range of designs and colours open up freedom for any bathroom design. Whether ultra-flat or generously deep, Bette shower trays are the perfectly hygienic solution with reliable connections to the building shell.

BetteOne Design: Tesseraux+Partner

BetteLoft Design: Tesseraux+Partner

BetteComodo Design: Tesseraux+Partner

BetteAqua Design: schmidem design

As soft as porcelain, as hard as steel – The combination of clear design language and filigree materiality gives the **BetteCraft** washbasin an elegant self-evidence. Every shell is hand-made individually from titanium steel in an extensive process, first shaped and then glazed on both the inside and outside. The thin side walls that taper towards the top give the generous shape a delicate and organic effect.

We combine high-tech and craftsmanship in the production of our bathroom elements. All our products are made in Delbrück in Germany from natural materials. The glazed surface is exceptionally glossy, extremely easy to clean, and completely hygienic. Premium quality we guarantee for 30 years.

Made in
Germany

Glazed titanium-steel—We achieve the special evenness of our bathtubs, shower surfaces and washbasins using a wet-in-wet enamelling technique we've been perfecting for decades. The procedure permanently binds three ultra-thin layers of our special enamelling formula to the titanium-steel car-cass in two firing steps at 850 °Celsius. The purely natural material created thereby unites the freedom of form granted by steel with the optical, haptic and hygienic properties of glass. Its vast internal flexibility ensures the reliability and durability of Bette products.

Flawless and
harder than marble.

DIN 51097 Group B**

BetteGlaze® Plus

Special-Size

BetteGlaze® Plus—An extra touch of sophistication for the surface, applied after the final firing. Baths, basins, shower areas and shower trays are coated with a transparent polymer film. The film is water-repellent, allowing droplets to roll off more easily and reducing deposits, which makes cleaning easier. Simply wipe with a damp cloth. No need for strong cleaning agents, saving time and helping our environment.

Special-Size—A few centimetres sometimes make the world of difference in bathroom design, especially when space is tight or an existing property is being renovated. We make planning easier with made-to-measure baths and shower trays. The titanium steel cast is precisely

Spring tap

BetteSplash

Spring tap—Upon request, Bette baths can also be fitted with a quiet, discreet spring tap. The bath is filled via a tap integrated in the base of the bath.

BetteSplash—Many Bette baths can be fitted with the impressive waterfall tap BetteSplash at our works. The 191-mm-wide and 39-mm-high tap is turning a simple bath into something very special.

Silicone-free wall connection—BetteUpstand lets you do away with silicone as a wall sealant around baths and shower trays. The 35-mm-high upward lip on the rim is fixed to the wall when the product is installed and covered over of tile. This 100% maintenance-free connection to the wall not only looks fantastic, but is extremely hygienic, too. BetteUpstand is an optional extra that can be ordered for a large number of baths and shower trays as well as for BetteFloor Side showers.
