New hygienical innovation 

MYWAYNew hygenical innovation 

**TRATTAMENTO ANTIBATTERICO**

100% di igiene grazie al nuovo trattamento antibatterico delle parti in polipropilene. La sostanza igienizzante viene inserita direttamente nella materia prima garantendo l'eterna durata del trattamento.

ANTIBACTERIAL TREATMENT

100% hygienical thanks to the new antibacterial treatments of the polypropylene parts. The substance is placed directly into the basic material ensuring the eternal duration of treatment.

**FUNZIONALITÀ**

Innovativo sistema autocentrante: la forma conica del coperchio facilita l'inserimento dello scovolo e assicura la corretta chiusura dello scopino.

FUNCTIONALITY

Innovative self-centering-system: the conical shape of the cover simplifies the insertion of the brush and ensures proper closing of the toilet brush.

**VERSATILITÀ**

Lo stesso prodotto può essere utilizzato in appoggio o installato a parete poichè la placca per il fissaggio è sempre compresa nella confezione.

VERSATILITY

The same product is suitable for free-standing or wall mounted because the wall mounting plate is always included in the package.

**RICARICABILE**

Sostituisci lo scovolo senza toccare le parti non igieniche: impugnare il coperchio e ruotare il manico. La parte intercambiabile si sgancia automaticamente consentendone la sostituzione.

RECHARGEABLE

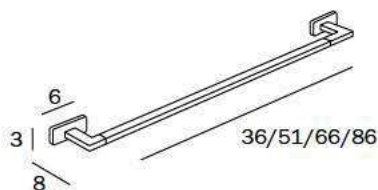

Replace the brush without touching any unsanitary part: holding the cover and turning the handle. The interchangeable part will be released automatically allowing the substitution.
