

KALDEWEI

**EASY
FLAT
FLEXIBLE**

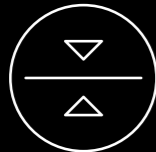

FLOOR-LEVEL SHOWERS BY KALDEWEI.

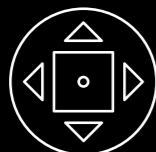

EASY

Floor-level showers are easier to install than you think. We offer the right installation solution for almost any situation: quick to install and optimally matched to the KALDEWEI shower surfaces.

FLAT

High in standards but flat in height – that's what the combination of floor-level shower surfaces and innovative waste fittings stands for.

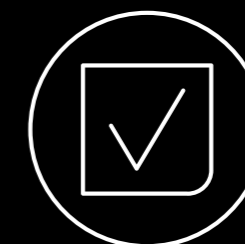

FLEXIBLE

A large selection of colours, surfaces, sizes and installation products ensures that KALDEWEI always has the right solution for any customer – and for the relevant installation situation.

THE ULTIMATE IN SHOWERING: WALK-IN.

The standards of modern bathroom design are high: Shower solutions today should preferably be floor-level, easily to install, and integrate flexibly in different room situations. This is a trend which KALDEWEI has helped to shape and continues to advance. It is for this purpose

that we have developed completely integrated systems. These innovative combinations of shower surfaces, waste fittings and installation systems do not just meet standards – they set them: with excellent design, durability and straightforward installation.

EASY INSTALLATION

FASTER THAN YOU THINK, EASIER THAN YOU EXPECT.

Strong product solutions effectively make the decision quick and easy for the customer and installer. KALDEWEI installation solutions offer sophistication in every detail,

with intuitive installation steps and clear instructions that guarantee easy and secure installation. Developed by KALDEWEI with installers for installers.

SERIOUSLY IMPRESSIVE – THE EASY INSTALLATION.

How to get a floor-level shower in quick and straightforward steps: The KALDEWEI installation systems make light work of most installation situations. Be it under-structure, shower surface or sealing: all components

are perfectly matched – making the installation clear and straightforward. Fitting a shower is convenient and effortless.

INSTALLATION SYSTEM

We offer you the right system for almost any installation situation. Everything from one source – everything perfectly matched.

SHOWER SURFACE

The shower surface in the required size is placed onto the assembled installation system. Its integrated slope ensures perfect drainage – reducing complex screed work and tiling.

SEALING, SOUND INSULATION & MORE

The KALDEWEI PROFESSIONAL range lets you customise the installation of the shower surface to suit the client's requirements. The special waste fittings, SILENCE PLUS sound insulation solutions, sealing systems and more offer complete peace of mind.

FOR ALMOST EVERY INSTALLATION SITUATION, THERE'S A SOLUTION: OURS.

INSTALLATION SYSTEMS FOR SHOWER TRAYS AND ENAMELLED SHOWER SURFACES.

GET THE BEST IDEAS UNDER THE SHOWER.

ESR II INSTALLATION SYSTEM – THE RELIABLE SYSTEM.

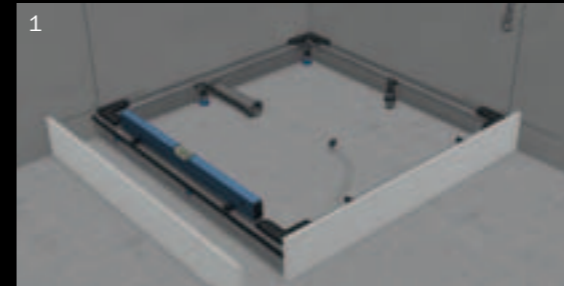

The installation system frame is an all-in-one solution for floor-level installation. Each full pack contains all relevant components and installation aids. Select the right waste fitting to suit your installation situation.

- Maximum protection against moisture penetration through integrated sealing system incl. leakproof connection
- The KALDEWEI 3D flex foot system adapts to any floor situation
- Shower can be adjusted

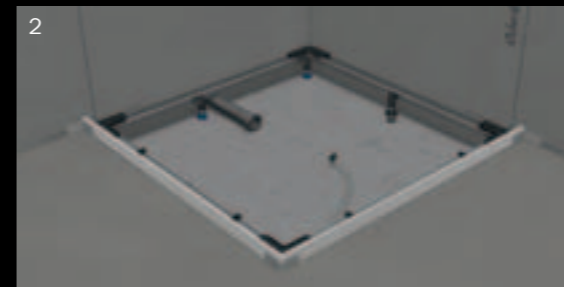

Installation system frame ESR II 100 x 100cm

THREE STEPS AND DONE.

- Define the position of the waste siphon
- Adjust the feet of the ESR II both horizontally and vertically
- Use spirit level and fitting aids to precisely align the ESR II with the meter line
- Put the recess aids in place

- Lay screed
- Shorten the formwork panels and remove the recess aids

- Connect the waste siphon
- Attach the fleece butyl sealing tape
- Stick to the walls and the screed floor
- Use fitting aids before tilling the wall and the floor
- Connect the waste siphon
- Insert shower tray
- Seal joint edges with silicone

DONE

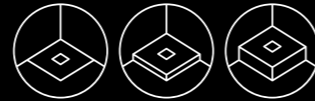

Go to film: Installation of ESR II

You can find the relevant installation and mounting instructions on the Internet at www.kaldewei.com

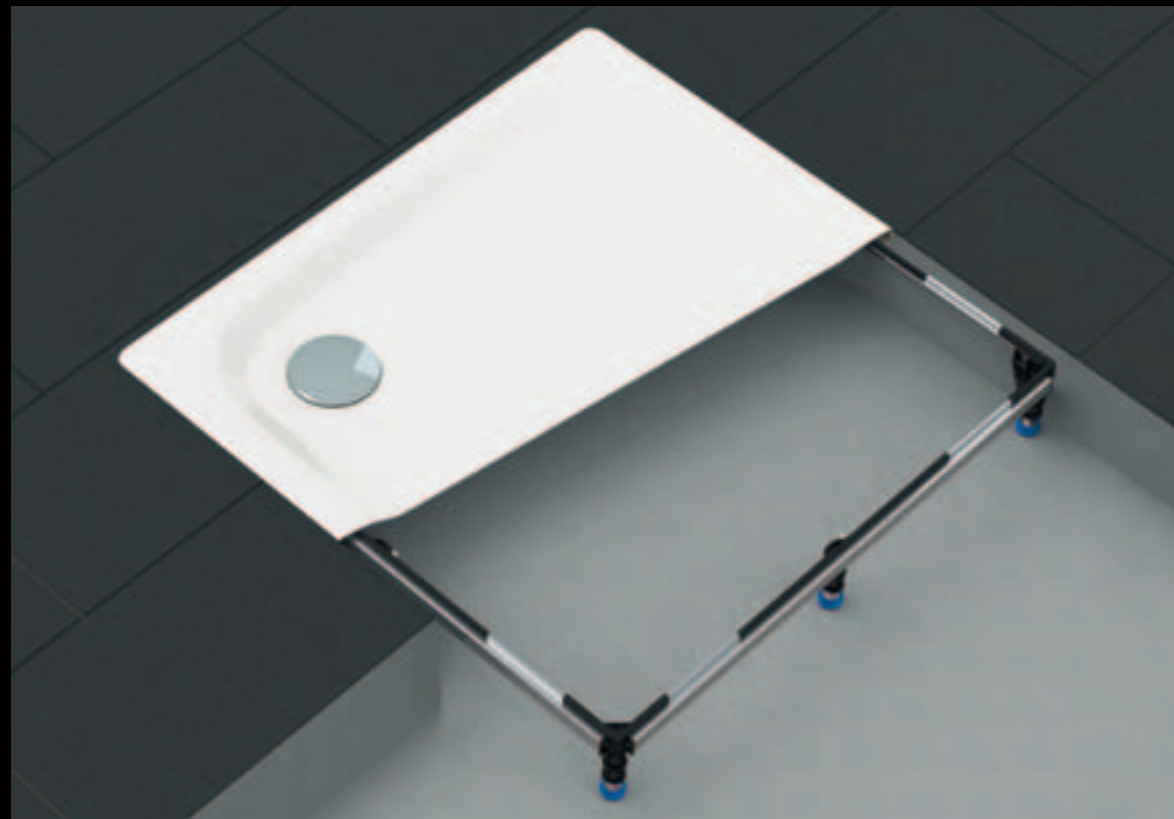

PERFECTLY FLEXIBLE. PERFECTLY EASY.

FOOT FRAME FR 5300 –
THE FLEXIBLE SYSTEM.

Only three sizes for the diversity of dimensions of enamelled shower surfaces from KALDEWEI. How is this possible? The frames are simply cut to the required size.

- Suitable for different types of installation
- Available in sizes 90 x 90cm, 120 x 120cm, and 150 x 180cm
- Adjustable to any size of shower surface
- The KALDEWEI 3D flex foot system adapts to any floor situation

Shower tray foot frame FR 5300

THREE STEPS AND DONE.

- If necessary, cut the connecting rods to the right size
- Debur the cut edges
- Slip the preassembled slot nuts of the corner joints into the profile and screw in tight

- Assemble the foot units to the required installation height and screw into the slot nuts and corner joints
- Attach rubber supporting pads and the rubber holding profiles

- Position and align the shower tray foot frame
- Adjust to the required height
- Place the shower tray in position and align it parallel to the tiles with a gap of approx. 2mm
- Seal the joint edges (maintenance joint) using suitable flexible sealant

DONE

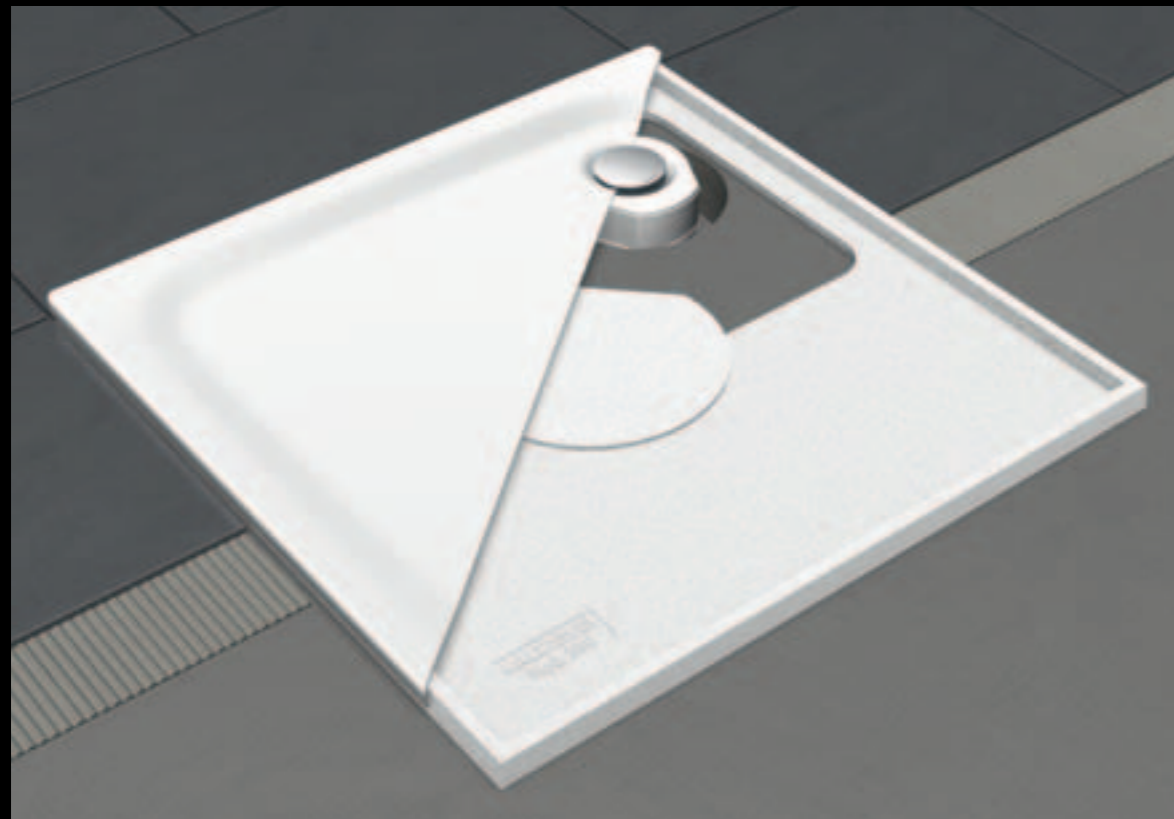

MAKES FITTING LESS OF AN EFFORT.

LOW PROFILE SUPPORT – THE FAST SYSTEM.

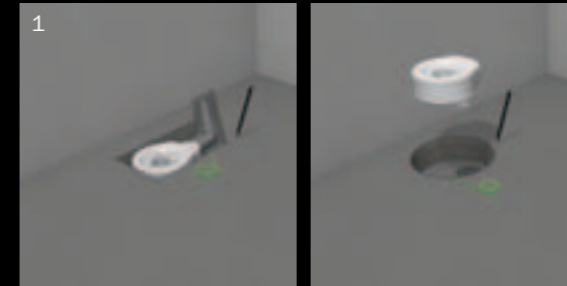

The low profile support lets you install a KALDEWEI shower on the floor quickly and without fuss. The support stabilises the whole shower surface. Shower and low profile support are supplied as a unit. Perfectly matched and easy to handle on site.

- Complete system for flat installation
- Easy and fast to install on the floor
- Especially suitable for renovations

Cross section of SUPERPLAN with low profile support

THREE STEPS AND DONE.

- Position shower surface and support
- Mark the siphon position
- Prepare cut-out and allow access to the drainage system

- Secure the support to the floor using a “solvent free” contact/grab adhesive, applied to the underside of the support

- Turn the polystyrene support right side up and fit into the required installation position
- Adjust the support and apply silicone to the supporting surfaces
- Place the shower surface onto the support
- Tile the wall and floor
- Weigh down the shower tray and seal the joints connecting the tray to the wall and floor with silicone

DONE

Go to film: Installation of polystyrene support

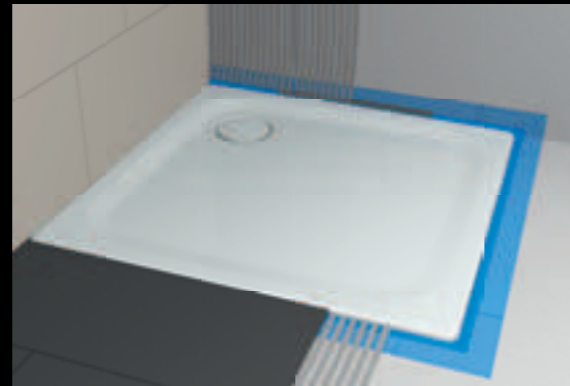

You can find the relevant installation and mounting instructions on the Internet at www.kaldewei.com

WE HAVE THOUGHT OF EVERYTHING.

SPECIAL SOLUTIONS FOR SPECIAL INSTALLATION SITUATIONS.

The KALDEWEI PROFESSIONAL range offers you additional products for sound insulation, sealing and installation. You will find these products to be of our

customary high quality standards and they are specifically made for use with KALDEWEI shower surfaces.

WATERPROOF

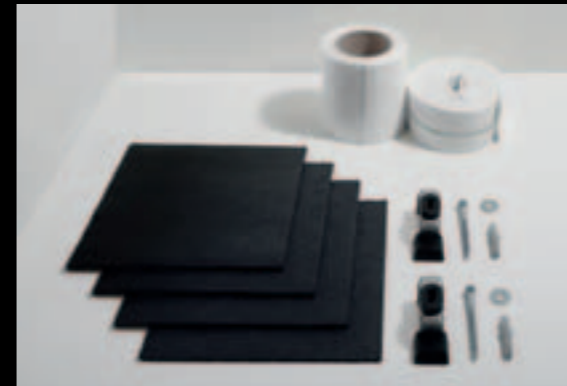

Both types of KALDEWEI sealing solution effectively seal silicone joints to prevent moisture migration. The tapes are applied between the shower rim and the wall, and then integrated with the bathroom sealing.

SHOWER TRAY SEALING SYSTEM WDS

- Circumferential sealing system for floor-level installation
- Available in lengths of 3.8m, 5.0m, and 7.6m
- Pre-fitted corner elements facilitate installation
- Also available for pentagonal and quadrant showers

SEALING TAPE WDB 95

- System for wall-side sealing
- Available in lengths of 3.8m and 5.0m

SILENCE PLUS

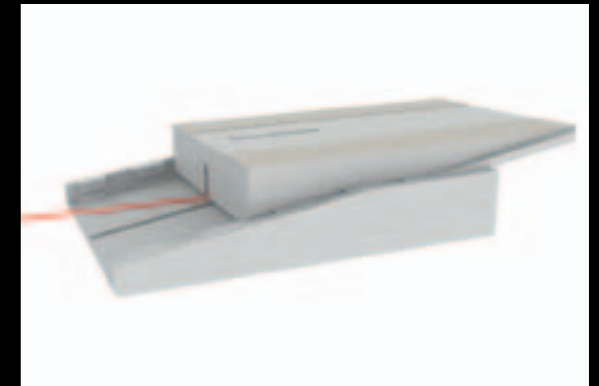

KALDEWEI solutions offer peace of mind when it comes to sound insulation. All our installation systems are available with DIN 4109 and VDI 4100 sound insulation certificates. Obviously, we can also offer you all the products you need for them.

SHOWER TRAY SOUND-ABSORBING SET DWS

- Complete set consisting of sound insulating strips (WES 130 and WAS 70) and four sound-absorbing pads

SHOWER TRAY SOUND-ABSORBING SET DW-ADS

- Four sound-absorbing pads 250 x 250mm
- Adhere to back of the shower surface

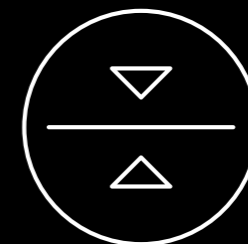

INSTALLATION

KALDEWEI installation products perfectly complement the installation frames – with central support systems, where needed.

CENTRAL SUPPORT SYSTEMS 5305 AND 5315

- Support for shower surfaces larger than 90cm
- Flexible wedge system with adapter panels
- MAS 5305 for XETIS, SUPERPLAN, SUPERPLAN PLUS, SUPERPLAN XXL, DUSCHPLAN, DUSCHPLAN XXL, FONTANA, ARRONDO, CORNEZZA, ZIRKON
- MAS 5315 for CONOFLAT

FLAT INSTALLATION

MAXIMUM EFFICIENCY IN SMALL SPACES.

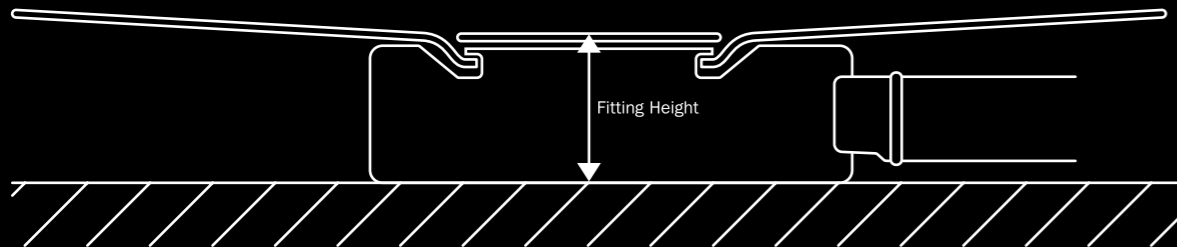

Flat is in. There is a high demand for a floor-level showering solution in renovations and new build developments. KALDEWEI system solutions come with an extra

flat enamelled shower surface and an innovative waste fitting that provide a good and reliable solution even for renovations with shallow screed.

KA 90 – FLAT SYSTEM – IMPRESSIVE PERFORMANCE.

KALDEWEI has developed a new generation of patented waste fittings. Four different models give you a choice of drainage capacity and total height – for unbeatable performance in combination with any KALDEWEI shower surface with a waste diameter of 90mm. Fitting heights range from as little as 62mm (incl. cover).

- Minimum height provides maximum drainage capacity
- A variety of different fittings provide the right solution for almost all installation situations
- Unique design incorporating a waste cover flush with the shower surface
- Also available with anti-seepage connection for the ESR II
- Easy to clean
- Optionally with hair catcher

Schematic diagram of the SCONA with KA 90

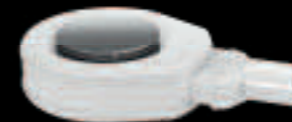

KA 90

- Fitting height of only 81mm incl. waste cover
- Horizontal connection
- Drainage capacity 0.9l/s
- Connection diameter of 50mm
- Conforms to DIN EN 274 with 50mm water seal
- Total height with SCONA of only 103mm

KA 90 EXTRA FLAT

- Fitting height of only 70mm incl. waste cover
- Horizontal connection
- Drainage capacity 0.8l/s
- Connection diameter of 50mm
- Does not conform to DIN EN 274 with 30mm water seal
- Total height with SCONA of only 92mm

KA 90 ULTRA FLAT

- Fitting height of only 61mm incl. waste cover
- Horizontal connection
- Drainage capacity 0.8l/s
- Connection diameter of 40mm
- Does not conform to DIN EN 274 with 30mm water seal
- Total height with SCONA of only 83mm

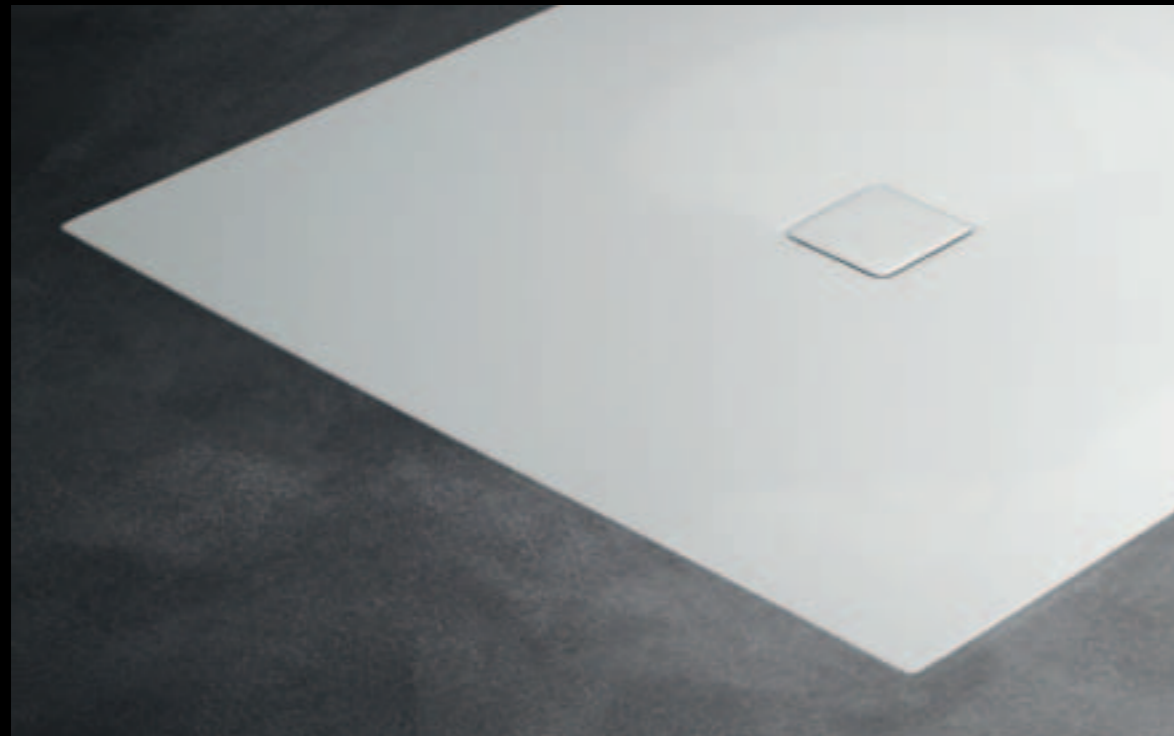

KA 90 VERTICAL

- Fitting height of only 81mm incl. waste cover
- Vertical connection
- Drainage capacity 1.4l/s
- Connection diameter of 50mm
- Conforms to DIN EN 274 with 50mm water seal
- Total height vertically (with floor-level waste fitting) of only 49mm

MEETS SPECIFIC DESIGN STANDARDS:
THE KA 120/KA 125 WITH ENAMELLED COVER.
FOR CONOFLAT AND SUPERPLAN PLUS.

The patented waste fittings KA 120 and KA 125 captivate with looks and performance. With a fitting height of just 83mm (incl. cover), they offer yet another highlight: the enamelled waste cover flush with the shower surface. For a distinctive design and a high level of comfort.

- Minimum heights provide maximum drainage capacities
- Also available with anti-seepage connection for the ESR II
- Enamelled waste cover made of KALDEWEI steel enamel for stability and maximum comfort underfoot
- Also available in vertical design
- Easy to clean
- Optionally with hair catcher

Integrates harmoniously: the KA 120

**KA 120
FOR CONOFLAT**

- Fitting height of only 83mm
- Drainage capacity 0.85l/s
- Enamelled waste cover
- Conforms to DIN EN 274
- Easy to clean
- Total height of only 107mm

**KA 120 VERTICAL
FOR CONOFLAT**

- Fitting height of only 83mm
- Drainage capacity 1.4l/s
- Enamelled waste cover
- Conforms to DIN EN 274
- Easy to clean
- Total height vertically (with floor-level waste fitting) of only 49mm

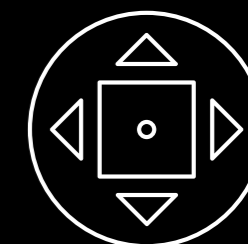

**KA 125
FOR SUPERPLAN PLUS**

- Fitting height of only 83mm
- Drainage capacity 0.85l/s
- Enamelled waste cover
- Conforms to DIN EN 274
- Easy to clean
- Total height of only 109mm

**KA 125 VERTICAL
FOR SUPERPLAN PLUS**

- Fitting height of only 83mm
- Drainage capacity 1.4l/s
- Enamelled waste cover
- Conforms to DIN EN 274
- Easy to clean
- Total height vertically (with floor-level waste fitting) of only 49mm

FLEXIBLE BATHROOM DESIGN

THE RIGHT SHOWER SOLUTION FOR ALMOST ANY ROOM SITUATION

Deciding on a shower surface made by KALDEWEI keeps you on the safe side. A wide range of sizes, different designs, surface finishes and technical solutions

leave very little to be desired. 10 ranges, 5 surfaces finishes, 34 colours, 57 different sizes combine to result in more than 50,000 exciting product versions.

DESIGN

Made of superior KALDEWEI steel enamel using state-of-the-art technology the shower creates a unique feel-good atmosphere in the bathroom. Its geometric shape with square radii follows modern lines. Round details and the slight sloping of the shower surface stand in striking contrast. Its sensuous design flows harmoniously into a round waste cover positioned in the centre.

- Floor-level shower
- No visible inner contour
- Wide range of sizes
- Flush-fit central waste cover
- Chrome waste cover (alternatively in the shades of the Coordinated Colours Collection)

SUPERPLAN PLUS: from 80 x 80cm to 150 x 150cm

AS UNIQUE AS OUR CUSTOMERS: OUR COLOUR OPTIONS.

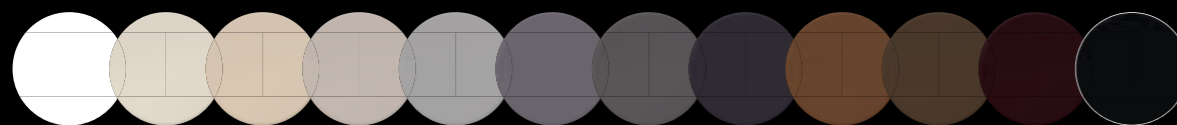

The collection of matt colours underlines the special character of our shower surfaces, setting new standards in sensory awareness and quality. In keeping with the

current trends in tiling, the colours of the flush-fit showers in the Coordinated Colours Collection are perfectly coordinated to the tile colours available in the shops.

The perfect bathroom means different things to different people. Our colour palette therefore offers great freedom of design. This allows you to design the bathroom based

entirely on your customer's ideas. Creating for them a place of pure comfort and wellbeing.

COORDINATED COLOURS COLLECTION

Covers for waste fitting KA 90 are available in matching colours

OTHER COLOURS

BEST CHOICE FOR YOUR CUSTOMERS: KALDEWEI PERFECTION.

SLIP RESISTANT: KALDEWEI SECURE PLUS

KALDEWEI offers diversity that extends to the choice of anti-slip finishes – delivering ideal properties to every single customer. Be it anti-slip, full anti-slip or KALDEWEI

SECURE PLUS, each finish is permanently fired into the shower surface for optimised safety underfoot.

The KALDEWEI SECURE PLUS enamel, which covers the entire surface of the product, is virtually invisible, but slip-resistant nonetheless. KALDEWEI SECURE PLUS therefore meets various anti-slip standards including Quality Class B according to DIN 51097 and Quality Class R 10 according to DIN 51130. The surface itself has a subtle feel to it and comes in the refined look of the Coordinated Colours Collection.

SECURE⁺

CLEAN: KALDEWEI EASY-CLEAN FINISH

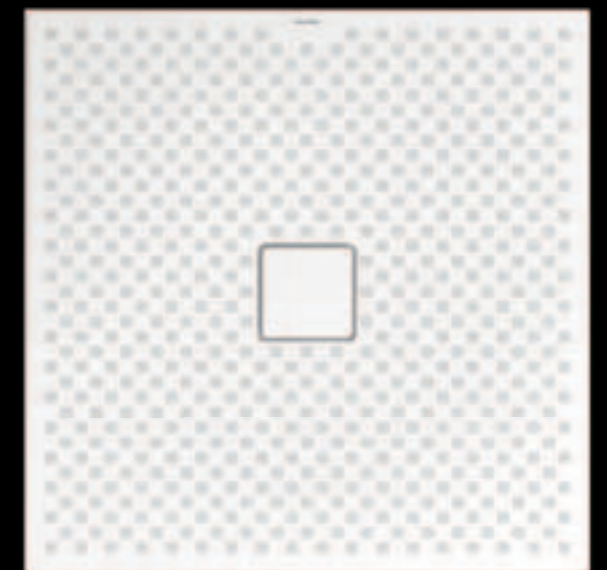

With the optional easy-clean finish designed by KALDEWEI, the water simply rolls off the shower surface taking virtually all dirt and lime particles with it. Even dried-on water spots and lime deposits can be easily removed. And because you only need a soft, wet cloth instead of aggressive cleaners, the easy-clean finish is a clean affair for the environment, too. Easy-clean finish

is a surface finish that is permanently fired into the KALDEWEI steel enamel. It is characterised by unique durability and long life. Its non-stick properties are guaranteed to remain virtually intact for 30 years even when wiped once or twice a day. Easy-clean finish is available for all KALDEWEI shower surfaces.

SAFE: ANTI-SLIP/FULL ANTI-SLIP

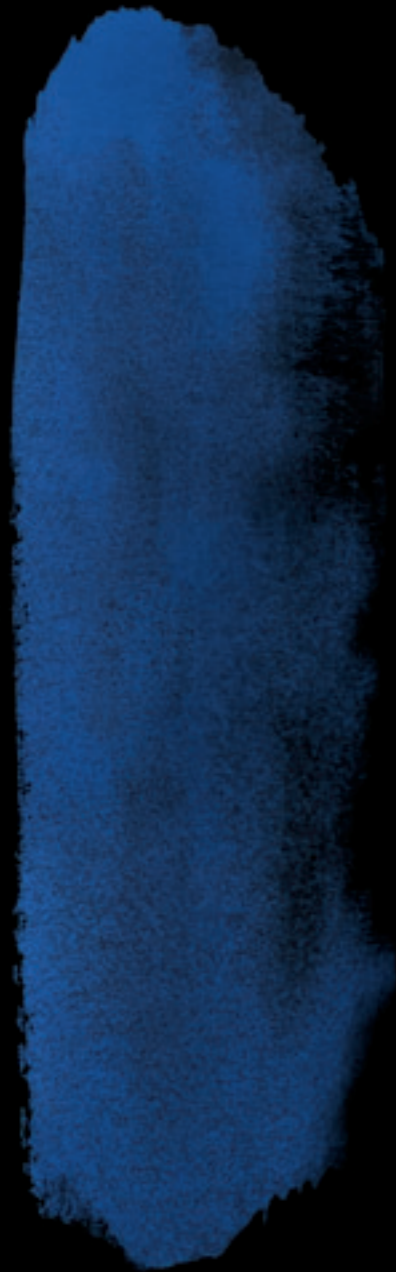

Anti-slip and full anti-slip ensure maximum safety when entering the shower. The anti-slip finish is permanently fired into the KALDEWEI steel enamel. Both finishes additionally meet barrier-free and anti-slip standards. The Rhineland TÜV organisation (German Technical Inspection Association) has certified the KALDEWEI anti-slip and

full anti-slip systems as having anti-slip properties compliant with Quality Class B for barefoot wet areas (DIN 51097) and Quality Class R 10 for anti-slip characteristics in work spaces and working areas with an increased slip risk (DIN 51130).

SUPERPLAN with anti-slip

CONOFLAT with full anti-slip

THERE'S NOTHING LIKE KALDEWEI

Enamelled shower surfaces by KALDEWEI add individuality and elegance to your bathroom. They also stand for quality that lasts and timeless value. It is the unique qualities of KALDEWEI steel enamel that combine to make KALDEWEI shower surfaces exceptionally robust

and supremely hygienic. Perfectly matched components further enhance the synergy of a system that will require no compromise in their installation. KALDEWEI shower surfaces vouch for German quality that is recognised and installed the world over.

OUR STRENGTH: KALDEWEI STEEL ENAMEL.

A UNIQUE MATERIAL
WITH A 30 YEAR GUARANTEE.

The perfect material for perfect design has a name: KALDEWEI steel enamel. Steel and glass – two entirely authentic and natural materials, used for centuries, and each with its own inherent material properties.

Steel signifies strength, toughness, robustness and optimum ductility. Glass is highly resistant to chemical or thermal stress and has an excellent appearance. KALDEWEI steel enamel combines robust steel and

tough glass to form an inseparable bond harnessing the strengths of each material in perfect symbiosis. As a pioneer consistently pushing the boundaries to make the good even better, KALDEWEI has been steadily developing, refining and optimising the special formula and manufacturing processes of KALDEWEI steel enamel for almost a century now. KALDEWEI steel enamel guarantees lasting quality that remains visible, tangible and treasured day after day.

HEAT RESISTANT

Burning and smouldering objects such as cigarettes or candles do not leave marks on the surface.

SCRATCH AND IMPACT RESISTANT

KALDEWEI steel enamel is much harder than acrylic and highly resistant to mechanical stress.

UV RESISTANT

Lightfast, resistant to UV light and does not fade: KALDEWEI steel enamel ensures that shower surfaces look as good as new even after 30 years.

SUSTAINABLE

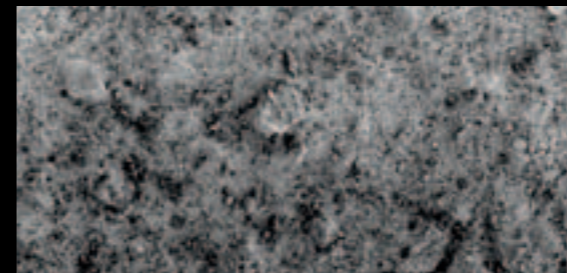

KALDEWEI manufactures its shower surfaces using only natural materials that can be fully recycled.

TYPICAL KALDEWEI STEEL ENAMEL: EXCELLENT HYGIENE WITH MINIMUM EFFORT.

A bathroom should be a place where people thrive – not bacteria. Constantly changing temperatures and humidity levels in the bathroom create an environment with critical hygiene requirements that frequently offers the ideal breeding ground for microorganisms. KALDEWEI steel

enamel prevents even microscopically tiny scratches where bacteria can settle. All it takes is a damp cloth to clean the surface for exceptional hygiene with minimum effort. General dirt particles and limescale are easily washed away when taking a shower.

Grout in the tiled area
rough, porous

REM image of a cement joint

KALDEWEI steel enamel
closed, pore deep

REM image of KALDEWEI steel enamel

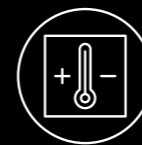

EASY TO CLEAN AND HYGIENIC

Without even the tiniest scratches, bacteria have nowhere to settle. Simply wipe with a damp cloth.

CHEMICAL RESISTANT

Perfume, bath additives or common household detergents will not harm the KALDEWEI steel enamel.

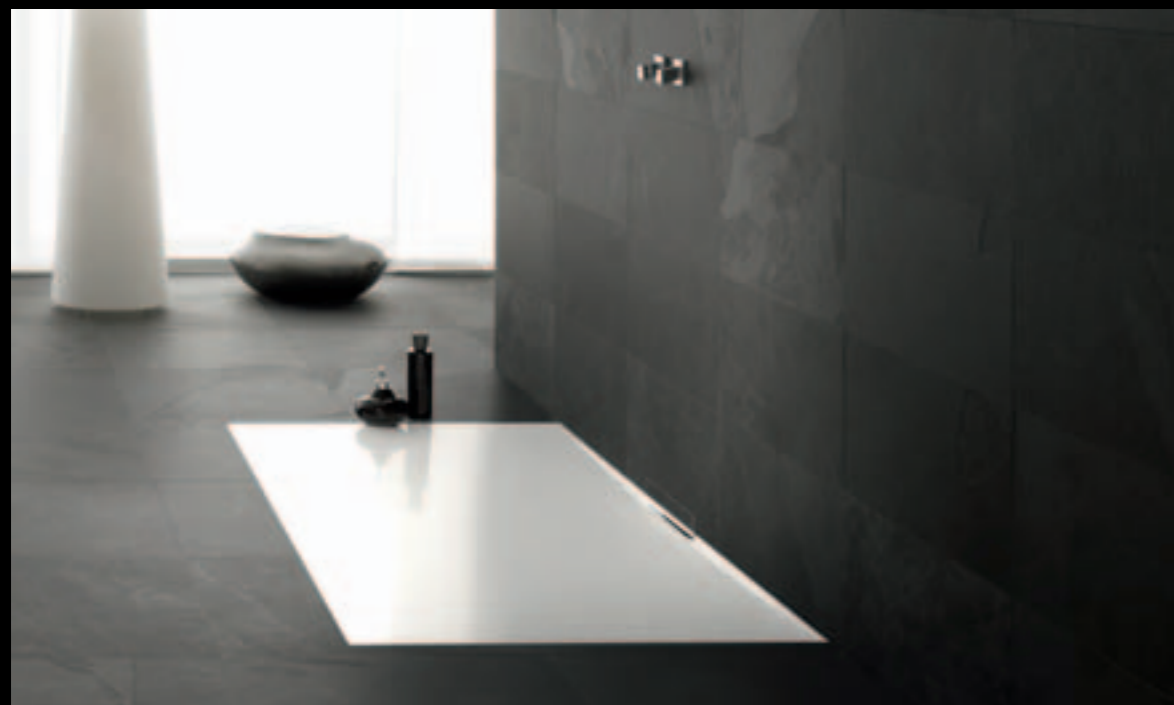

DIMENSIONALLY STABLE

KALDEWEI baths and shower surfaces hardly expand at all in temperature fluctuations, thereby reducing the risk of cracked joints or structural damage through moisture penetration.

EXCELLENT MATERIAL IS THE BEST GUARANTEE.

Seamless surfaces look appealing, but are also superior in structural aspects. Whereas tiled shower floors were still considered stylish up until a few years ago, today's aesthetic and innovative product solutions have come to set entirely new standards. Produced with state-of-the-

art technology using high-quality materials, enamelled shower surfaces clearly outperform tiles in wet areas. An objective comparison that goes into detail clearly shows the differences.

Consistently hygienic: KALDEWEI shower surfaces

Often unhygienic: Grouted shower surface

PERFECTION CANNOT BE IMPROVED.
BUT IT CAN BE EXTENDED.

Thanks to KALDEWEI steel enamel, floor-level shower surfaces appeal with exceptional longevity – as do all our design products for the bathroom. But KALDEWEI steel enamel recommends itself not only for its material properties; its aesthetic qualities deliver equally strong arguments. Designed to let your customers enjoy the

advantages of bathroom furniture made completely of the same material, the floor-level shower surfaces complement our baths and now also our new washbasins in the most optimal way. So impress your customers with individual perfect objects that combine into a perfect unison: a bathroom in one style, one quality and one class.

MADE IN GERMANY. FITTED ACROSS THE WORLD.

KALDEWEI design products appeal where superior quality is valued. Small wonder then that you will find our products in excellent grand hotels, upmarket private residences and even exclusive cruise ship suites – anywhere around the globe. As a worldwide partner, we meet even the most ambitious requests of the world’s leading architects and clients. From the planning to the finished project: bathroom solutions from KALDEWEI appeal with innovative ideas and exquisite designs. But that’s not all:

because of its superior properties KALDEWEI steel enamel scores equally at global level – especially in places such as care facilities. The reason being, our unique material guarantees absolute hygiene. Even the smallest dirt particles are easily wiped away with just a damp cloth. We set the bar high with standards based primarily on one aspect: our customers and their ideas – wherever they are in the world.
