A FASCINATION FOR THE BATHROOM

Hartmut Dalheimer, Managing Director

Engelbert Himrich, Managing Partner

Sensuousness and sensibility – KEUCO’s passion for the bathroom runs through its veins, and this is evident in our products. A KEUCO bathroom awakens the emotions. It is an intimate place of well-being. It conveys elegance and luxury, and it combines aesthetics, ergonomics and functionality.

In no other room is this challenge more exciting and demanding than the bathroom. That is why this fascination still drives us forward. Since its founding in the year 1953, our company, which is still family-run today, has undergone a rapid and sustained transformation. From market leader for high quality bathroom accessories, KEUCO has evolved into the brand for the bathroom, with a wide assortment of furniture, fittings, accessories and mirror cabinets and from our early days we focused on offering concepts of complete bathroom furnishings.

Important factors contributing to our success are the contemporary, technically innovative products, the highest standard of quality, a clear orientation towards design, and state-of-the-art manufacturing facilities. Today, KEUCO products are sold around the world, and are market leaders in many areas. They are the result of intensive development work, the use of the best materials, and the most careful workmanship. We combine high-tech manufacturing and involved hand craftsmanship to achieve optimum results. KEUCO quality sets standards: Our products will convince you by their immaculate surfaces, maximum longevity, and perfect functionality. Each article is examined individually before being shipped out.

At KEUCO, the subject of design already played a pivotal role long before it even became a general topic of conversation. Our understanding of design involves striving to achieve classic-modern aesthetics that retain their contemporary feel, even after many years of use. Whether designed in-house or in cooperation with internationally recognized designers – KEUCO products are regularly distinguished by renowned awards.

But timeless design and long-lasting product quality are only two aspects of our sustainability philosophy. Equally important are responsible company management, and resource-saving production – with the help of our own water conditioning system for our electroplating plant, for example. We view the label “Made in Germany” as commitment to the kind of company management that aims to secure jobs in the long term.

KEUCO products are made in our own production plants in Hemer, Gütersloh and Bünde. Inland production provides us with a close proximity that is essential, so that we can develop and utilize the know-how of our employees on a long term basis, and so achieve seamless quality management. And that makes “Made in Germany” a promise of quality.

MIRROR CABINETS

BEAUTIFUL OUTSIDE, SMART INSIDE

THE MULTIFUNCTIONAL SPACE SAVER

Our passion for mirror cabinets has many causes. One of them is the fact they are veritable space savers. They create room for a large quantity of bathroom accessories, without robbing you of any precious space in the bathroom. This is where KEUCO has always had an eye for optimum convenience at the washbasin. Various height and width formats, various methods of opening – upwards or with one or several doors – vertical or horizontal lighting, mirrors inside and out, flexible interior features with numerous glass or aluminium shelves, and optionally with drawers and the ability to mount the mirror cabinet on or in the wall. With such an enormous range of possibilities, every wish can be granted.

STORAGE SPACE MEETS LIGHT TECHNOLOGY

The EDITION 400 mirror cabinet impresses both due to its beauty and its function. The continuous setting of light intensity and light temperature, a consistent reflection of the back and insides of the door, the clear internal lighting, as well as lots of space with an extra storage compartment and integrated electrical sockets make the mirror cabinet a useful and sensual part of your bathroom.

Available in three widths ranging from 700 to 1400 mm, EDITION 400 mirror cabinets open up individual design possibilities for bathrooms large and small. The many surface and in-wall mounting variations allow a generous amount of planning freedom for modern bathroom architecture.

Please note: All switches and sockets pictured in this brochure are continental fittings.

INTELLIGENT USE OF ROOM IN THE WALL

A clear case of aesthetics: The built in mirror cabinet is discreetly fixed into the wall and blends with the room. The external, delicate silhouette does not immediately point to the generous depth of its interior.

Both light intensity and light temperature from daylight to warming light can be gently and continuously controlled, so that you will happily spend a little longer in front of this mirror.

Please note: All switches and sockets pictured in this brochure are continental fittings.

FUNCTIONALITY FOR ALL THE SENSES

The EDITION 11 mirror cabinet also offers high quality and functional features inside, with a slidable interior cosmetic mirror in addition to the rear wall mirror. In tune with the times, Bluetooth and loudspeakers offer a sound system for your favourite music.

In the mirror cabinets that have upwardly-opening doors, not only do the integrated light boxes produce a distinctive overall setting, but also perfect, glare-free vision. Inside, the freely-positionable glass shelves also provide space for tall bathroom utensils. The interior mirror can be slid freely in front of the shelves, so it can always be positioned where it is needed.

Please note: All switches and sockets pictured in this brochure are continental fittings.

Speaking of mirror cabinets, the ROYAL 60 furnishing range has a lot to offer too. For example the fitted mirror cabinet with lateral lighting, with a design that is just as clear as it is minimalist. Installed flush with the wall, it has that certain "je ne sais quoi" of noble interior furnishing. Naturally inside it is furnished with the KEUCO-typical comfort. For example with complete rear-wall mirroring, electric sockets and much more.

Beyond that ROYAL 60 also offers an attractive assortment of slender furniture for contemporary bathroom furnishing.

Basin mixer and accessories COLLECTION MOLL

Please note: All switches and sockets pictured in this brochure are continental fittings.

Basin mixer and accessories EDITION 11

ROYAL REFLEX offers mirror cabinets in KEUCO's usual outstanding quality – suitable for all ROYAL REFLEX washbasin sizes, from double washbasins to a narrow version for guest bathrooms. Glass shelves provide plenty of storage space behind the mirrored doors on both sides of the cabinet. Two internal sockets and the external light switch ensure perfect functionality.

Please note: All switches and sockets pictured in this brochure are continental fittings.

Basin mixer and lotion dispenser ELEGANCE

The particularly slim design of the ROYAL UNIVERSE lights was made possible by the use of space-saving LED technology. Modern semiconductor technology provides high light output with significantly reduced energy use – and emits a pleasant, warm white light. Thanks to the freely positionable glass shelves, the storage space inside can be adjusted to suit personal use.

ROYAL UNIVERSE can be combined with any kind of bathroom furniture and style. Behind the revolving doors, which have mirrors on both sides, there is ample space for care and cosmetic utensils. At the same time it provides a luxuriant panorama view.

Basin mixer PLAN blue

ROYAL MIRROR CABINETS

FOR EVERYONE
WHO PREFERS
TO LOOK AHEAD

OF SPACE AND LIGHT

The wall above and beside the washbasin can be so much more than mere utility space. ROYAL mirror cabinets are compelling evidence of this.

Harmonious form, soft luminance and flexible storage space: Unite the practical with the timelessly beautiful. Regardless how much you need to store, there's room for everything inside the high quality body, behind the elegant mirror doors.

HIGHLIGHT AND MIRACLE OF ORGANISATION

The intelligent lighting concept, individually organisable storage space, and attractive design make ROYAL MATCH the universal mirror cabinet for every bathroom.

The classy design is accentuated by high quality aluminium edges. With its modern and rectangular design, which harmonizes with virtually any style, the ROYAL MATCH mirror cabinet – in widths of 650 mm, 800 mm, 1000 mm, 1200 mm or 1300 mm – is a visual highlight in any bathroom. The special thing about the lateral LED illumination is that it can be dimmed continuously with the electronic sensor switch, and as indirect source of light, ROYAL MATCH always creates a pleasant atmosphere in the bathroom.

Also the interior of the ROYAL MATCH mirror cabinet speaks for itself: Here, you can experience the comfort which is typical of KEUCO, such as an elegant glass rear wall, internal lighting, once you open the cupboard and sensibly placed electrical sockets. The central divider of the glass shelves allows one to adjust the heights of the glass shelves differently for the left and right sides, so one can organize things individually. The revolving mirror doors on both sides also offer a generous panorama-like view.

ROYAL INTEGRAL mirror cabinets are designed for recessed installation. The vertical light boxes that underline the sleek elegance of ROYAL INTEGRAL are a characteristic feature.

The high level of quality and the excellent workmanship of ROYAL INTEGRAL make it remarkable in every detail – for example the softly closing doors. ROYAL INTEGRAL is framed by a surrounding chrome strip which is available in two widths to adapt to different installation situations.

On the inside of its aluminium body ROYAL INTEGRAL offers an amazing amount of flexibility. Thanks to innovative technology, the glass shelves can be flexibly arranged on the slotted rear wall to make room for larger objects.

With its side lights, ROYAL METROPOL is a real eye-catcher on the wall. The upward-opening door reveals the likewise mirrored cabinet interior. Simply closer up: A laterally movable inside mirror is also mounted in front of the glass shelves and can be moved to in front of the face if need be.

ROYAL MODULAR offers an enormous range of combinations. Choose between different sizes or a custom-made product. Put together a personal lighting solution. Combine two, three or more cabinet modules. Get creative, because genuine dream bathrooms don't come off the peg.

Basin mixer and accessories PLAN

With the versatile modular system from ROYAL MODULAR, you can create your own perfect mirror cabinet – on the right, for example, an ensemble consisting of centre module, two side basis modules and two T5 lighting modules. The modules are available in various widths and with a height of 700 or 1000 mm as desired. They are suitable for non-recessed and recessed wall mounting.

Please note: All switches and sockets pictured in this brochure are continental fittings.

Basin mixer and accessories EDITION 300

The characteristic full mirroring makes it unmistakable: The KEUCO design classic, ROYAL 30. The mirror cabinets come in various widths and with up to four doors, so they are suitable for every wash area. That gives you the freedom to get on with your planning. And if you would like even more mirrors in the bathroom: The ROYAL 30 range also offers tall units with heights up to 1600 mm.

Basin mixer and accessories PLAN

The ROYAL 35 mirror cabinet from KEUCO makes its appearance like a flexible jewel in the bathroom. With its noble appearance, silver-anodized aluminium body and individual features it provides optimal lighting simultaneously for face and room. Because, the intelligent lighting concept also incorporates a ceiling floodlight.

Order is provided by exclusive interior features, optionally with drawers including fully openable drawer on ball-bearing runners, and cosmetic mirror. ROYAL 35 is also available as two-door model.

Please note: All switches and sockets pictured in this brochure are continental fittings.

Basin mixer and accessories PLAN

The attractiveness of ROYAL T1 mirror cabinet models comes not only from their elegant shape, but also their intelligent lighting concept. Throwing gentle light into the room through satin light-holes in the mirror, the interior lighting produces a cosy atmosphere. With the cabinet opened, your face is ideally illuminated. And thanks to the two double mirror doors, one can see oneself from behind. In addition to a practical electric socket, the interior features include three height-adjustable glass shelves for orderliness. The ROYAL T1 is spray-water protected so it is suitable for moist rooms in compliance with protection class IP44.

Please note: All switches and sockets pictured in this brochure are continental fittings.

With its innovative and intelligent lighting concept the ROYAL T2 unites design and functionality in an extraordinary way. The special thing about it is the fluorescent tubes mounted on the sides, which radiate a pleasant and uniform light while the doors are both opened and closed. Because, the doors move around the fluorescent tubes when they open. Moreover, opening the doors reveals an illuminated interior, which offers a variety of features and intelligent storage solutions for bathroom utensils.

LIGHT AND MIRROR

BEAUTY HAS TWO ALLIES: LIGHT AND MIRROR

PUT YOU AND YOUR BATHROOM ON CENTRE STAGE

Pleasing to the eye: KEUCO's mirrors and lighting in the bathroom always put you in the best light, diffusing the light rather than dazzling. Our thought through designs create a relaxing ambience, leaving you with a feeling of well being.

Basin mixer and towel holder EDITION 11

PURE DESIGN – THE LATEST TECHNOLOGY

The innovative illuminated mirrors are a special highlight. The EDITION 400 illuminated mirror presents itself with remarkably elegant slenderness and a surrounding aluminium edge. Customized dimensions are available on request. Its secret: A special light-conducting material conducts the light of the LED to the surface and provides the ideal lighting for the room or face at all times. With unobtrusive and intelligent sensor controls the light can be dimmed and the light colour altered in an infinite number of steps: From bright-white daylight for ideal, day-to-day beauty care, right to a warm-white light, ideal for perfect evening make-up or an atmospheric bathing ambience. Moreover in every light situation the LED lighting is glare-free and long lasting, and it also saves energy and is maintenance free.

But the EDITION 400 light mirror can do much more: It is optionally available with mirror heater, which is a practical feature that prevents the mirror from misting up after taking a shower. Of the highest technical standard, the sensor-controlled mirror heater switches off again automatically 20 minutes after being switched on.

PERFECTION FROM EVERY ANGLE

One special feature of the light mirrors of the EDITION 11 range are their lateral lights that can be freely positioned so that diffused light always shines on the face at the desired angle. At the same time, the intelligent lighting concept always provides individually adjustable, optimal illumination for your face.

The light mirror for the guest bathroom not only presents a handy, but also elegant innovation: Two LED illuminated panels, which at the same time serve the function as a shelf.

The light mirrors perpetuate the clear and geometrical style of EDITION 300. Their various formats and lighting solutions satisfy individual requirements.

The light mirrors from the EDITION 300 range illuminate the face from all angles without any glare. The four fluorescent tubes hidden under the frame make sure of this. EDITION 300 also offers the appropriate sizes for guest bathrooms. The vertical illumination ensures a pleasant light.

With their wide variety of sizes, ELEGANCE light mirrors can be adapted to every kind of furnishing concept – from guest WC to family bathroom with double washbasin. Their rounded corners harmoniously reflect the soft lines of ELEGANCE. Illumination for your face and the room can be switched separately.

Basin mixer and accessories EDITION 11

The ROYAL 60 furnishing concept offers you an array of aesthetically pleasing light mirrors. The light radiating out of the vertical light strips can be switched separately as mirror or room light.

Accessories EDITION 11

ROYAL REFLEX light mirrors are framed by lateral light modules which illuminate the face evenly. They are available in widths up to 1300 mm.

Basin mixer and lotion dispenser ELEGANCE

COSMETIC MIRRORS

PERSONALITY IN FOCUS

ELEGANT HELPERS

Indispensable for everyone who likes to take a closer look: The wide selection of cosmetic mirrors from KEUCO. Whether with or without light, as floor model or for wall mounting, KEUCO offers the right high-quality and beautifully shaped solution for every preference.

Now that's an eye-catcher: Cosmetic mirrors of every kind and with many kinds of adjustment options. After all, not only should your bathroom look good, but you should too.

As a practical utensil for your daily beauty routine, KEUCO's cosmetic mirror iLook_move is particularly impressive thanks to its high quality mirror surface and the slim, elegant design – either round or rectangular, with or without light. But also the innovative unusually refined and durable hinge technology leaves nothing to be desired. With only one grip you can adjust the height of the mirror, the distance to your face, turn it to the side and tilt it for an ideal angle. Designed by Tesseraux + Partner, the glare-free lighting technology with a magnification factor of five has an elegant glass touch panel which offers two different light colours: One for daylight, as also used in professional beauty salons and a second light colour, warm white – a flattering light which, for example, is ideal for ensuring your evening make-up is just perfect. What is absolutely unique is that the two light colours are infinitely variable.

DESIGN PLUS
powered by: **ISH**

Whether with one light colour or an elegant glass control panel with touch sensors, the iLook_move is hightech for beauty care and at the same time is also a perfectly shaped gem that gives off a sensual aura of elegance. The LED lamps are durable and power consumption is minimal. If a concealed installation is not possible in your bathroom, then a version with a wall plug transformer is available.

LOVED AND EVEN MORE MINIMALIST

Round or angular – the iLook_move is no ordinary cosmetic mirror. The light can be controlled by fingertip via the glass control panel; the light can be adjusted continuously. With only one handle, the height, interval and angle can be optimally adjusted.

What's new: Thanks to the in-wall cabling, the mirror can now be incorporated into the bathroom design in an even more minimalist manner.

Mirror cabinet
 for recessed mounting
 2 hinged double-sided crystal mirror doors,
 optionally with 8.5 or 15 mm wide edging strip
 Lighting:
 – fluorescent lamps (4 x 24 W T5)
 Body: aluminium, silver anodized
 Features:
 – 1 pull switch
 – 2 shaver sockets
 – 8 variably adjustable glass shelves
 Dimensions (w x h x d):
 1498/1511 x 698/711 x 170 mm

26004/26014
Mirror cabinet
 for recessed mounting
 1 hinged double-sided crystal mirror door,
 optionally opening either to the left or right,
 optionally with 8.5 or 15 mm wide edging strip
 without illumination
 Body: aluminium, silver anodized
 Features:
 – 1 shaver socket
 – 4 or 6 variably adjustable glass shelves
 Dimensions (w x h x d):
 448/461 x 698/ 711 x 170 mm
 448/461 x 998/1011 x 170 mm

26006/26016
Mirror cabinet
 for recessed mounting
 1 hinged double-sided crystal mirror door,
 optionally opening either to the left or right,
 optionally with 8.5 or 15 mm wide edging strip
 without illumination
 Lighting:
 – fluorescent lamps 2 x 14 W T5 (26006)
 – fluorescent lamps 2 x 21 W T5 (26016)
 optionally also without illumination
 Body: aluminium, silver anodized
 Features:
 – 1 shaver socket
 – 4 or 6 variably adjustable glass shelves
 – optionally 1 pull switch
 Dimensions (w x h x d):
 598/611 x 698/ 711 x 170 mm
 598/611 x 998/1011 x 170 mm

26009/26012
Mirror cabinet
 for recessed mounting
 2 hinged double-sided crystal mirror doors,
 optionally with 8.5 or 15 mm wide edging strip
 Lighting:
 – fluorescent lamps (2 x 24 W T5)
 Body: aluminium, silver anodized
 Features:
 – 1 pull switch
 – 1 shaver socket
 – 6 variably adjustable glass shelves
 Dimensions (w x h x d):
 898/ 911 x 698/711 x 170 mm
 1198/1211 x 698/711 x 170 mm

14001
Mirror cabinet
 1 lift up double-sided crystal mirror door,
 interior rear wall mirrored
 Lighting:
 – fluorescent lamps (2 x 24 W T5)
 Body: aluminium, silver anodized
 Features:
 – 1 exterior pull switch
 – 1 interior shaver socket
 – 3 adjustable glass shelves
 – 1 adjustable interior mirror (180 x 550 mm)
 Dimensions (w x h x d): 800 x 610 x 155 mm

14002
Mirror cabinet
 1 lift up double-sided crystal mirror door,
 interior rear wall mirrored
 Lighting:
 – fluorescent lamps (2 x 24 W T5)
 Body: aluminium, silver anodized
 Features:
 – 1 exterior pull switch
 – 1 interior shaver socket
 – 3 adjustable glass shelves
 – 1 adjustable interior mirror (180 x 550 mm)
 Dimensions (w x h x d): 1000 x 610 x 155 mm

14003
Mirror cabinet
 1 lift up double-sided crystal mirror door,
 interior rear wall mirrored
 Lighting:
 – fluorescent lamps (2 x 24 W T5)
 Body: aluminium, silver anodized
 Features:
 – 1 exterior pull switch
 – 1 interior shaver socket
 – 3 adjustable glass shelves
 – 1 adjustable interior mirror (180 x 550 mm)
 Dimensions (w x h x d): 1300 x 610 x 155 mm

– Non-recessed mounting: 300 x 700/1000 x 170 mm
– Recessed mounting: 300 x 700/1000 x 160 mm

25053/25054

25053/25054
Basis module

1 hinged double-sided crystal mirror door, optionally opening on left or right, for recessed or non-recessed mounting
Body: aluminium, silver anodized
Features:
– 6 adjustable glass shelves

2 versions
Dimensions (w x h x d):

- 25053**
– Non-recessed mounting: 300 x 1600 x 170 mm
– Recessed mounting: 300 x 1600 x 160 mm
25054
– Non-recessed mounting: 400 x 1600 x 170 mm
– Recessed mounting: 400 x 1600 x 160 mm

25000/25010

25000/25010
Lighting module T5

optionally for recessed or non-recessed mounting, for mounting on a centre or basis module
300 mm wide or more (minimum 1 centre module with pull switch is necessary)
Lighting:
– fluorescent lamp 1 x 14 W T5 (25000)
– fluorescent lamp 1 x 21 W T5 (25010)

2 versions
Dimensions (w x h x d):

- 25000/25010**
– Non-recessed mounting: 50 x 700/1000 x 175 mm
– Recessed mounting: 50 x 700/1000 x 105 mm

25000
Lighting module halogen

for mounting on a centre or basis module
Lighting:
– halogen illumination (2 x 20 W)
Dimensions (w x h x d): 250 x 50 x 106 mm

25000

All modules are available for recessed or non-recessed wall mounting. For recessed mounting, a depth of 150 mm is necessary. The door closes to the left but can be changed on location.

Attention: For recessed mounting, please enquire with your installation technician regarding the correct measurements for the opening in the wall or plan this at www.royal-modular.de

17612**Cosmetic mirror round**

illuminated, 5-stage adjustable light colour from 2700 kelvin (warm white) to 6500 kelvin (daylight) spiral cord (block length 400 mm)
on pivoted rail adjustable in three dimensions
one-sided mirror, magnification factor x 5
Operation:
Glass control panel with capacitive touch sensor and LED display
Power supply:
Mains connection via wall socket,
12 V in-wall adapter, input 220-240 V,
standby consumption: < 0.5 watt
Illumination: LED 4.5 watt
Ø 212 mm

17612**Cosmetic mirror round**

illuminated, 5-stage adjustable light colour from 2700 kelvin (warm white) to 6500 kelvin (daylight), in-wall cable layout,
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Operation:
Glass control panel with capacitive touch sensor and LED display
Power supply:
Mains connection via wall socket,
12 V in-wall adapter, input 220-240 V,
standby consumption: < 0.5 watt
Illumination: LED 4.5 watt
suitable for rough part no. 17699
Ø 212 mm

17612**Cosmetic mirror round**

illuminated, 1 light colour 6500 kelvin (day light), spiral cord (block length 400 mm),
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Operation: Cable switch
Power supply:
Mains connection via plug-in power supply unit,
12 V Plug-in power supply unit, input 100-240 V,
Standby consumption: < 0.3 watt
Illumination: LED 4.5 watt
Ø 212 mm

17612**Cosmetic mirror round**

illuminated, 1 light colour 6500 kelvin (day light), in-wall cable layout,
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Operation:
Light switch (not included in delivery)
Power supply:
Mains connection via wall socket
12 V in-wall adapter, input 220-240 V,
standby consumption: 0 watt
Illumination: LED 4.5 watt
suitable for rough part no. 17699
Ø 212 mm

17612**Cosmetic mirror round**

non illuminated,
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Ø 212 mm

17613**Cosmetic mirror squared**

illuminated, 5-stage adjustable light colour from 2700 kelvin (warm white) to 6500 kelvin (daylight) spiral cord (block length 400 mm)
on pivoted rail adjustable in three dimensions
one-sided mirror, magnification factor x 5
Operation:
Glass control panel with capacitive touch sensor and LED display
Power supply:
Mains connection via wall socket,
12 V in-wall adapter, input 220-240 V,
standby consumption: < 0.5 watt
Illumination: LED 4.5 watt
Exterior measurement: 200 x 200 mm

17613**Cosmetic mirror squared**

illuminated, 5-stage adjustable light colour from 2700 kelvin (warm white) to 6500 kelvin (daylight), in-wall cable layout,
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Operation:
Glass control panel with capacitive touch sensor and LED display
Power supply:
Mains connection via wall socket,
12 V in-wall adapter, input 220-240 V,
standby consumption: < 0.5 watt
Illumination: LED 4.5 watt
suitable for rough part no. 17699
Exterior measurement: 200 x 200 mm

17613**Cosmetic mirror squared**

illuminated, 1 light colour 6500 kelvin (day light), spiral cord (block length 400 mm),
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Operation: Cable switch
Power supply:
Mains connection via plug-in power supply unit,
12 V Plug-in power supply unit, input 100-240 V,
Standby consumption: < 0.3 watt
Illumination: LED 4.5 watt
Exterior measurement: 200 x 200 mm

17613**Cosmetic mirror squared**

illuminated, 1 light colour 6500 kelvin (day light), in-wall cable layout,
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Operation:
Light switch (not included in delivery)
Power supply:
Mains connection via wall socket
12 V in-wall adapter, input 220-240 V,
standby consumption: 0 watt
Illumination: LED 4.5 watt
suitable for rough part no. 17699
Exterior measurement: 200 x 200 mm

17613**Cosmetic mirror squared**

non illuminated,
on pivoted rail adjustable in three dimensions,
one-sided mirror, magnification factor x 5
Exterior measurement: 200 x 200 mm

The extraordinary surface characteristics and extremely fine colour nuances of our products can only be reproduced to a certain degree in print. Only the original KEUCO products, which can be viewed in sanitary trade dealers' showrooms, can provide you with an optimum impression.

Reproduction and copying, even if only excerpts, are only permitted by explicit permission of the manufacturer, and with the inclusion of source information.
