# RESPECT ENVIRONMENT AND SAFETY

Each of our products has been planned and made to meet the latest European standards regarding quality, safety and respect for environment. The use of production processes with low environmental impact, decreased emission of toxic substances and a considerable reduction in energy consumption are immediate answers to problems of a world in constant evolution.

The range is vast, extremely high quality and probably the most versatile in the market - anything is possible in terms of scale and design. Throughout the world Novellini creates inspiring bathrooms that appeal to individuals at home, via our merchant partners. And, working alongside architects and designers, we create bathroom environments that complement the home, creating a tranquil space promoting Well-being within the living environment.

# CUSTOM

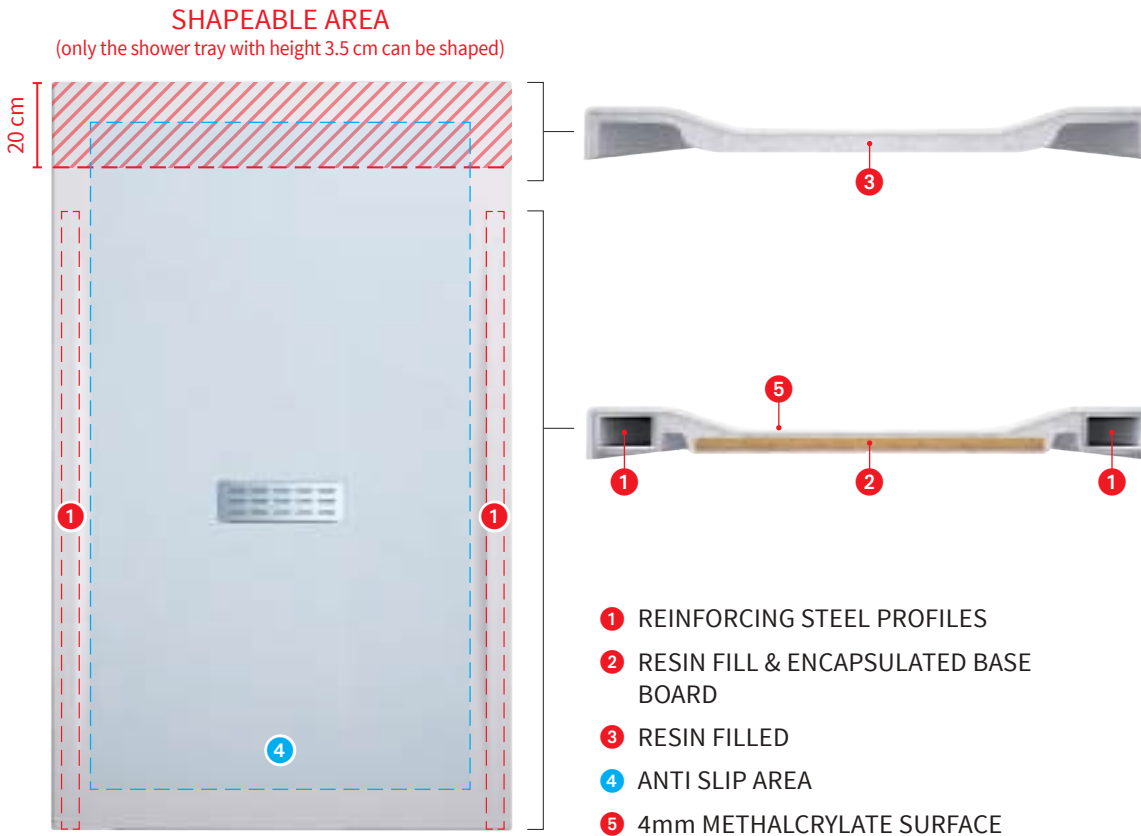

A low profile design tray allowing for level access with a unique fast flow trap allowing drainage up to 50l/min available in a large range of trimmable sizes, five colours and several textures including a EU Certified anti-slip.

1 slim 35mm profile

2 Bespoke Waste with a flow rate of 50l/min and integral Polished Stainless steel slotted cover.

# TECHNICAL DRAWINGS - LOW PROFILE ACRYLIC CAPPED

LOW PROFILE ACRYLIC CAPPED SHOWER TRAYS

- 1 Same material for grill and shower tray
  - 2 Natural texture stone effect
  - 3 Gelcoat coating
  - 4 Moulded ribs for superior dimensional stability.
- Adjustable feet automatically supplied with tray for optional raised tray installation

produced using an environmentally friendly process and all materials are 100% recyclable.

materials used have good sound absorption qualities

the tray's thermal qualities and textured surface give a comforting tactile feel

the surface is durable and easy to clean

maximum versatility as can be mounted flush, on-floor or higher on adjustable legs with detachable panels

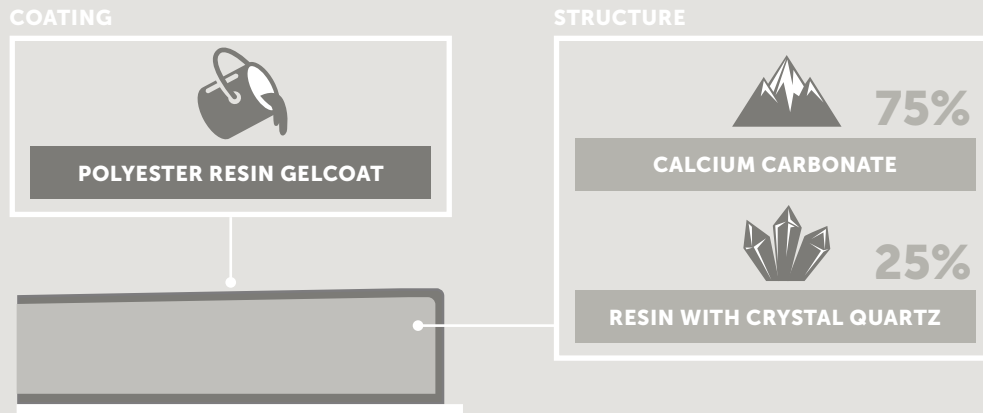

the natural materials and textures blend aesthetically

Novosolid trays undergo rigorous testing for strength and durability

# NOVOSOLID

**THE MATERIALS**

NOVOSOLID is composed of 75% natural Dolomite Marble, which has a good chemical and physical purity, fine grain and an intense white colour.

Natural high quality resin is mixed with the marble to create a thermally efficient and sound absorbing strong base material.

The surface is formed using a durable thick ISO/NPG polyester resin Gelcoat surface with UV colour safe properties.

The integral base ribs help to make the tray lighter and add dynamic stability and strength.

**THE COATING**

A pleasant feel underfoot thanks to the stone texture - is naturally anti-slip and gives a sensation of warmth and softness.

NOVOSOLID products are durable, resistant to damage and easy to clean. For daily cleaning it is suggested to use neutral, not acidic anti lime-scale or abrasive cleaning products as they could make the surface become dull.

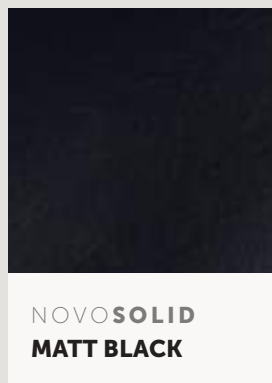

NOVOSOLID has a characteristic natural look, yet with a high brilliance and softness. Despite the tray's gentle sloping surface few water drops remain as the surface texture tends to repel droplets, this is especially true for hard water.

The material, NOVOSOLID is composed of, is practical in daily use, as accidental scratches or blemishes can be easily removed with a specially developed repair kit.

The same kit is used to finish the raw parts after the cut for custom installation.

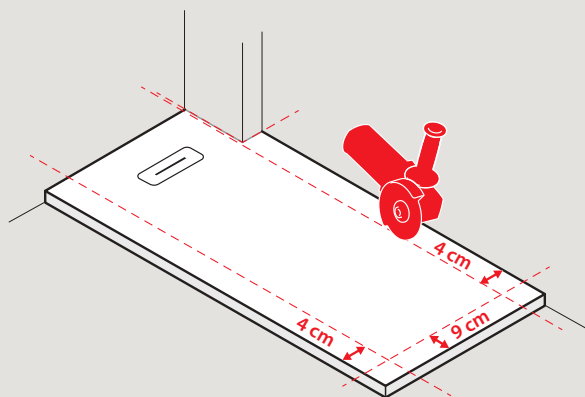

NOVO SOLID  
MATT WHITE

NOVO SOLID  
MATT BLACK

#### FINISHES

A contemporary design shower tray, with a characteristic stone texture surface. Available in matt white and in matt black. The pigments used in the production process are non-polluting, uniform and safe in their daily use as they don't contain lead or cadmium.

#### TAILORED CUT

NOVO SOLID is much more than a product range, it's a new philosophy to consider the space around you. It allows one to adapt the tray to any situation, giving the possibility to create exact sizes and shapes. The tray can be cut up to 10 cm on the long side and 5 cm on the short one.
