ROMAN[®]
lifetime luxury

At the heart of Roman is the desire to be the best.

It is Roman's vision to lead and innovate in the Showering industry. To design and manufacture top quality inspirational showering solutions, which offers choice for all markets. To expertly manufacture our products in Britain, so they are designed and built to last and offer a lifetime of effortless showering for all. It is our aim to give all our customers exceptional value and service; this ethos runs throughout the culture of the business and cannot be imitated.

Who we are
Roman has been designing and manufacturing showering solutions for over 30 years, and is home to the UK's largest shower manufacturing plant. Roman's diverse and versatile collection of products encompasses something for every style and shape bathroom - no matter what the budget.

Products Designed for All
Our products are carefully designed for all. We consider different users' needs to give totally effortless entry to the entire family. Whether you would like door-less entry, level access, handles that can be used with a flat hand, or a wider aperture, we have something that will work with your space all finished with a stylish designer look.

Branding
Roman is a reputable and well established UK Brand, now supplying showering products all over the World. Our foundations are strongly rooted in; innovative design, manufacture, quality and customer service. Our products are used in some of the finest hotels Worldwide.

Highest Quality Materials
At Roman we carefully fabricate and anodise all our aluminium profiles. We use aluminium because it is; light, strong and requires minimal maintenance. The anodising process increases corrosion resistance, product durability and further enhances the material properties. Our specialist anodising offers a bright chrome like finish which is significantly in excess of standard aluminium finishing.

Glass
We carefully select our glass suppliers and all our enclosures feature toughened safety glass. This is a heat treatment to increase the glass strength to make it around 5 times stronger than normal glass. If the glass were to break due to impact, it would shatter into lots of small pieces which are much less dangerous and will help you avoid any cuts or injury. All glass is strictly tested in accordance with EN14428.

Customer Service
Roman has invested in a complete customer support network which is there to support each purchase at every stage; from initial enquiry through to after sales care advice. Roman employs over 20 full time members of staff in our Customer Support Centre, who all receive comprehensive training on the manufacture and installation of Roman's extensive collection of products.

UK Manufactured

Roman products are designed and created specifically for the UK showering market, offering the ultimate in quality, precision and craftsmanship. All Roman's manufacturing processes are carried out at our UK Manufacturing Plant and Headquarters and meet and exceed approved UK and European testing standards.

Award Winning Product for Design & Innovation

Innovation and exceptional product design differentiates Roman from the competition. Our products and ranges have won multiple awards for innovation and design. Roman employ a dedicated in-house Design Team who are based in our Design Centre. To add flexibility to our research and development and to ensure control of our tray supply, Roman opened a Tray Plant in 2005 to manufacture solid surface level access trays.

Lifetime Guarantee

For complete peace of mind, all Roman Shower Enclosures and Bath Screens are accompanied by a fully service backed lifetime guarantee.

Glass Protection

Winner of the House Beautiful 'Best Cleaning Product' Award 2009 Roman's award winning Ultra Care system gives the care and protection your shower enclosure deserves to keep its long lasting sparkle. Roman Ultra Care is pre-coated onto your enclosure or bath screen to protect the glass. It is also then available in a bottle so you can top up this protection as part of your cleaning routine. The more you apply the formula, the more you protect your shower enclosure. Roman Ultra Care cleverly and effortlessly repels the build-up of grime, lime scale and stains. It has been designed to maintain the sparkle of the glass for long term optical clarity.

A three step restoration and cleaning kit is now available from Roman. This kit is designed to restore your bathroom and shower to look like new!

Helping you to design your bathroom

Making your product selection easier. Roman products are available on EQ software. For more information contact Customer Relations on 01325 328033.

Roman products are available on the Virtual Worlds design service. For more information contact Roman Customer Relations - 01325 328033.

Roman products are available on the Fusion design service. For more information contact Roman Customer Relations - 01325 328033.

For project applications Roman products are available as a BIM file download from www.roman-showers/available-downloads.com

DECEM^X

The Decem^X range has been meticulously designed and engineered by our Roman Design experts. Components of the highest quality have been brought together. With 10mm thick toughened glass. Chromed Brass Hardware. Minimalist framing for a design perspective. Standing majestically at a height of 2000mm. Hardware and handle options available so you can create your desired effect. Ultra Care Glass Protection Pre-coating included as standard. All combined to create a stunningly visual range which is guaranteed for life

Why DECEM^X

Latin for 10, the Decem 10mm thick glass range is the ultimate in showering design. We have combined everything we have learnt about showering over the last 30 years to create this unparalleled range, which for the first time presents a series of design options for selected products.

Sliding Door Enclosures

The sublime Sliding Door Enclosure stands at an impressive height of 2000mm with luxury 10mm thick toughened glass. The Sliding Door features a soft close door system, to present a silent and ultra-smooth running door action. Its minimalist styling, chromed brass square handle and bright silver frame come together to create a truly opulent design. The minimalistic enclosure incorporates Roman's Water Safe System to direct the water back into the showering area. Install into an alcove fitting or into a corner situation with a Side Panel.

Hinged Door Enclosures

A statement design for every bathroom. Install alone or combine with Side Panels, or In-Line Panels. Choose from a variety of size options and configurations. Self-closing hinges for an effortless action. Install to tray or wetroom floor. Choose from curved or square hardware and feature handle. Integrated Water Safe System for unparalleled water integrity.

Neo-Angle Enclosures

The ingenious angled design of the enclosure will work around existing fixtures and fittings, to fit flawlessly into your bathroom space. Its stylish chromed brass self-closing hinges present an exceptionally smooth door action. The outward opening doors offer wide and comfortable access and feature a design statement square handle and hardware.

Wetroom Panels

Minimalist pieces create a boutique showering space. Frameless panels in a range of size options. Concealed Profile option for a 'floating' glass effect. Additional Return Panel option available. Install to tray or wetroom floor. Effortless access with sweeping door-less and level entry access.

Expressions

Introducing our exciting new digitally printed glass panels to the Decem Collection. This is an exclusive technology to Roman. There are three glass design options: Distressed Brick; Glass Block; and a Rainforest image. They present a whole new dimension to creating your own unique individual bathroom space

Hinged Bath Screen

Indulgent over bath design. Power Shower approved for uncompromised showering. Outward opening for easy access. Self-closing Hinges. Choose from curved or straight hinges. Water Safe System for maximum water integrity.

Bracing

An optional chromed brass bracing arm is supplied as standard with many of our products, to give additional support if required. The bracing arm has been intricately designed to sit discreetly on the product, offering a minimalist finish, whilst providing maximum support. Total height including bracing is 2030mm.

Water Safe System

Our unique Water Safe System has been engineered to offer the maximum water integrity available for a minimalist designed enclosure. The system will guide the water back into your showering area, to enhance performance. It creates a water barrier to eliminate this as a traditional weak spot.

DECEM^X

Hinges and Handle

Self-closing hinges offer a superior action and create a positive seal for the door. Made from chromed brass components to give a quality finish and long lasting performance. Choose between curved or square hardware to suit your taste. Our chromed brass handle is available in a curved or square finish to suit your taste. The feature handle looks stylish, whilst being suitable for all users. It can be operated with a flat hand for easy opening.

Printed Glass Technology

Introducing our digitally printed glass wetroom panels, featuring three design options: Distressed Brick; Glass Block; and a Rainforest image. This is a technology breakthrough, which has been achieved by collaboration of technologies with digital print specialists Dimax.

Detailing

To ensure the Decem range is sublime, our Design team focussed in on the detail. From the enhanced product adjustment, to our Water Safe System. From the chromed brass branding badge, to the 10mm thick toughened glass. From the pre-coated glass protection, to the increased glass height of 2000mm. We have selected the best materials to craft exceptional components, to offer a superior showering experience.

2 Sliding Door DXT12AL | Grey Shimmer Shower Tray IAG129G

Sliding Door

for Corner or Alcove fitting

Features and Benefits:

2000mm high (wall profile height) | 2020mm high (to top of door glass) | 10mm glass | Silent and ultra-smooth running roller bearing system | Luxury 'soft close' door system | Chromed brass machined components | Chromed brass feature handle | Low profile PVC seals | Bright silver frame | 15mm of adjustment in each profile | Roman Water Safe System to tray or floor | Alcove and corner options | Please indicate handing (RH or LH) when ordering | Available with square hardware.

Decem Expressions printed glass technology

Decem Expressions, a significant innovation in digital glass printing on wetroom panels – it is an exclusive technology to Roman.

This breakthrough has been achieved due to a collaboration of technologies with digital print specialists Dimax.

Unlike all current printed glass this new technology allows any images to be printed directly on to the glass, whilst all other areas of the glass remain transparent and crystal clear. The colours are directly printed on to the glass; this is done with a specific thermo-procedure.

This unique digital printing process also provides the option of a Satinato finish, which was not digitally possible before. Roman can control the colour and level of opaqueness desired on the glass design.

Importantly this exclusive digital glass printing is both water resistant and protected against abrasion, which makes it ideal to use in the bathroom.

Decem Expressions with three glass design options – Distressed Brick; Glass Block; and a Rainforest image which all carry a lifetime guarantee.

DECEM Expressions printed glass technology

Features and Benefits:

Glass Height - 2000mm | Decem surface mounted profile | Decem bracing bar for optional usage supplied as standard | Suitable for installation onto tray or wetroom floor | 15mm of adjustment in each minimal wall profile for easy installation | Optional 'L' shaped return panel

In order to assure quality, regular Cross Hatch tests (EN1502409, ASTM0870 and AS TM D2247) are conducted and documented to prove the durability of prints. They are warranted to CE Marking: EN12150 and EN14428.

For compatible trays and Roman Shield Wetroom System see pages 27 - 32.

Project Applications

Roman has initially launched Decem Expressions with three glass design options – Glass Block; Rainforest and Distressed Brick. Whilst these three are on 'trend' and designated for the higher end of the interior design led retail bathroom market, the process lends itself perfectly for the Project market. Designers can now easily link up other design themes through a Project directly onto a larger and visible position within the bathroom via the glass and there are no restrictions on colour or resolution.

Trays, Accessories and
Taking Care of your Product

Infinity Trays

Features and Benefits:

Ultra low 40mm profile | Gloss or matt finish available in white | Shimmer options in gloss only | Manufactured using Roman Stone Solid Surface Technology | One angle of slope to waste to maximise flow rating | Fast flow waste included, fully concealed with solid surface cover piece.

To create the ultimate modern minimalist look Roman introduce the Infinity Tray range which is available in the choice of a matt or gloss finish. Our Infinity Trays offer a breakthrough in technology as they can be installed straight to joists so that once the floor tiles are laid it creates level entry access into the shower area. Manufactured from Roman Stone, the Infinity Trays are strong and durable. They achieve their level access feature due to them being only 40mm nominal height. This product provides the added reassurance of a tray, with the minimalist design and level access of a wetroom. The flawless styling of the Infinity Trays has been designed with a single angle flow to the waste. The waste is suitable for power shower systems and carries away 25 litres of water per minute. This exclusive chic look is completed with a stylish load bearing solid surface waste cover which still allows access to the waste for cleaning.

Roman Anti Slip Coating Kit

Kit contains material for a maximum coverage of 1.2m²

Kit contents:

- Basic coating 'A'
- Hardener 'B'
- Promoter
- Felt Roller
- Mini Cloth
- Masking Tape
- Mixing Stick
- Two Safety Gloves
- Instruction Manual

This kit allows for an Anti Slip coating to be applied only on Acrylic Capped Stone Roman shower trays which will aid the prevention of slips and falls in wet & dry conditions.

This product conforms to BS7976-2:2002 achieving a low slip potential within wet conditions and conforms to DIN 51097 with a class C slip rating.

Independently UK tested and approved.

Possible Areas of Use:

- Shower trays
- Retirement homes and nursing homes
- Clinics and rehabilitation facilities
- Only for use with Roman Acrylic Capped Stone Trays

Anti Slip Advantages:

- Added reassurance in wet showers
- Easy to apply
- Hygienic and low maintenance
- Resilient and durable
- Solvent free
- Colourless

Constructing a Wetroom

Roman presents the all in one wetroom solution with Roman Shield. The Roman Shield Wetroom System includes everything you need to tank a room, including complete wetroom kits to make the process easy. We have a range of kits to choose from including those which contain our Pre-formed Shower Floor. The Solid Surface Shower Floor is designed to be installed onto your joist and then tanked and tiled over – it creates a natural fall towards the waste so you don't need to use a levelling compound, and it also gives the added reassurance of a tray beneath the tanking system, for total water integrity. To view our guide on how to install a wetroom visit: www.roman-showers.com and watch our step-by-step video installation guide or scan QR code

For more information and to view a short video podcast of the Nine Easy Step Installation guide, or to download our technical installation manual visit our website: www.roman-showers.com or call Roman Customer Relations on 01325 328033 for further details.

The Roman Shield Wetroom System - winner of the KBB Readers' Design Award 2009

Winner of the Homebuilding and Renovating Magazine Best Bathroom Product 2011

Decem Custom Made Design and Fitting Service

Our Decem range of enclosures has been created with bespoke design flexibility at the forefront. All products from the range can be created to suit your specification, whether you are looking for an increased over-height product up to 2.7 metres, through to reduced height products. We can design your enclosure with the glass cut at an angle, or created your product with frosted glass. Contact us with your product requirements.

Features and Benefits

- Over-height available up to 2.7 metres
- Angled glass available
- Frosted glass available
- Hardware options of curved or straight available
- Made to measure items which fit almost anywhere
- All products made in accordance with your own measurements
- We endeavour to provide fast and efficient answers to all your questions
- Measure and fit service available

Simply choose which product you would like, then follow the six easy steps:

1. Take your drawings to your nearest retailer who will fax them to Roman. For your nearest retailer contact Roman Customer Relations on 01325 328033 or visit www.roman-showers.com
2. Roman will then send a quotation to your retailer for them to discuss with you.
3. If you are happy with this quotation Roman will produce a drawing to illustrate what your final product will look like.
Note: Roman will make all drawings in accordance to your measurements and unless otherwise requested, an adjustment allowance will be included. Please specify your adjustment allowance prior to ordering.
4. Roman will then fax the drawing to your retailer who will pass this on to you. This drawing will be in the form of a fax back agreement for you to sign*.
5. Once Roman receives the agreement, work will begin on your product.
6. You will receive your product within 5-6 weeks.

* Once this agreement is signed you will be liable for any charges should you cancel your order.

Note: If you have special requirements which cannot be shown on these drawings please supply a detailed plan drawing when submitting the application form.

www.roman-showers.com

Direct Delivery and Installation Service

To give total peace of mind, Roman also offer a comprehensive and exclusive direct delivery and installation service across the Decem range. The service ensures that the site is correctly measured and the Decem products are installed correctly the first time. Added reassurance is also presented with the two year installation guarantee and the Truelife Lifetime guarantee on the Roman product. Please ask your retailer for further details or contact Roman Customer Relations on 01325 328033.

Taking care of your product

Winner of the
House Beautiful
Best Cleaning Product Award

Glass Protection

The Ultimate Bathroom Protector on glass

Roman Ultra Care is an award winning bathroom protector and has a 10 year track record for successfully protecting Roman's extensive product range. When applied to the glass of an enclosure or bath screen it creates a chemical barrier which provides protection against the build-up of grime, limescale and stains. The protective barrier means water glides off the glass with ease. This results in the protected surface remaining easy to clean by simply applying a mild detergent and wiping with a damp cloth or using a Roman Shower Blade. By topping up the glass protection system with Roman Ultra Care in a bottle every time you clean, you can significantly reduce the amount of time required to clean your enclosure and bathroom surfaces. Most importantly, you can considerably prolong the life of your Roman product and at the same time do your bit for the environment by eliminating the use of harsh and damaging cleaning products.

All glass surfaces have a non smooth finish which can attract the build-up of particles. Roman Ultra Care provides an invisible protective film which seamlessly seals the surface to ensure this build-up does not bond to the glass and the glass retains its optical clarity for lasting sparkle.

Simulation of glass
surface magnified

Ongoing After Care

To maintain the long lasting sparkle of your Roman enclosure or bath screen and aid the Ultra Care pre-coated glass protection; Roman Ultra Care can be purchased in a user friendly 750ml sized bottle. This can be purchased for only £14.95 from your local Roman Bathroom Retailer, or alternatively from www.romanathome.com

Roman Ultra Care is not limited to the cleaning and protection of your shower enclosure or bath screen, it can also be used to protect other bathroom surfaces, which are not pre-coated, including glass, tiles, aluminium frames, taps, trays, sinks and baths.

Simply wipe down your bathroom surfaces after use and apply Roman Ultra Care with a soft cloth.

Roman Ultra Care can be used weekly as part of your bathroom cleaning routine.

The more you apply Roman Ultra Care the more protection you create for your enclosure, therefore your enclosure will maintain its high quality finish for longer. Without using Roman Ultra Care, your pre-coated glass protection will diminish over time.

Important information to help you maintain your Roman product:

Ensure you clean your product using a mild detergent diluted in water and then polish off using a soft damp cloth. Apply a coat of Roman Ultra Care after each clean to build-up the protective film on the surface.

If you live in a hard water area, periodically clean your product using a 50/50 solution of white vinegar and water. The solution should be left on the enclosure for approximately 5 minutes then rinsed off using warm water.

1. Do not use acidic based products which are unsuitable for cleaning enamel surfaces.
2. Do not use abrasive cleaners or cleaners containing bleach or solvents, these products will adversely affect the finish of the aluminium profiles.
3. Do not use scouring pads, powder or any sharp instruments when cleaning your Roman enclosure.

For details of your nearest stockist please contact Roman Customer Relations on 01325 328033 or buy online at www.romanathome.com

Roman Shower Blade

Price £27.30 ex VAT £32.76 inc VAT

Shower, Tile & Bath Restoration and Maintenance Kit

CLEAN & PROTECT YOUR SHOWER IN MINUTES
ELIMINATES HARD WATER & SOAP SCUM BUILDUP

3 Step System includes:

Ultra Scrub *Surface Stain Cleanser*

Designed to effectively and easily clean your bathroom surfaces, including Glass, Porcelain, Ceramics and other hard surfaces. Developed to remove the build-up of minerals, rust, soaps, oils and limescale but without damaging the surface.

Ultra Shield *Glass and Surface Treatment*

Formulated to clean and protect. Ultra Shield can be used on your bathroom surfaces to create a water, soil and stain repellent barrier coating which prevents water, soil and grime from sticking for easier cleaning. This barrier is renewed with each use.

Ultra Care *Glass & Surface Protector*

For a long lasting sparkle on bathroom and shower surfaces. Ultra Care is the ultimate surface protector that repels the build-up. Also available in large bottle for ongoing aftercare.

IMPORTANT PRODUCT DETAILS

- Enclosures and screens carry a Lifetime manufacturer's guarantee if products are installed according to the installation instructions - see guarantee criteria to the right.
- Simple and clear installation instructions are included with all Roman Products.
- Selected Roman products are available for Virtual Worlds design service. For more information contact Roman Customer Relations on 01325 328033.
- Any guarantee variations are indicated separately.
- All guarantee forms supplied with installation instructions must be completed and returned to Roman within 60 days to validate the lifetime guarantee otherwise only a statutory 12 month guarantee will apply.
- All Roman Bath Screens and Enclosures are manufactured using toughened safety glass which complies to BSEN12150.
- All Roman Bath Screens and Enclosures are tested in accordance with BSEN14428 - shower enclosures, functional requirements and test methods.
- Roman's toughened glass is completely safe for use in our shower enclosures and bath screens; providing our products are installed according to our guidelines.
- It is important to note, that the glass must not be mounted or 'pinched' in such a way that would cause a stress point to develop in the glass. In addition, it must not be subjected to any sharp impact or severe temperature fluctuation which may also cause a stress point to develop in the glass.
- Roman's toughened glass is physically and thermally significantly stronger than standard glass. However a significant impact (or stress as outlined above) can cause toughened glass to break. In the event of breakage, toughened glass will break safely into small fragments in line with all relevant standards.
- All heights quoted for enclosures and bath screens are from the top of the shower tray or bath.
- All fixings are hidden on Roman products.
- The term "Silver" describes the colour of the aluminium finish. No silver metal is included in any Roman products.
- All fixings and pivot pins are manufactured from stainless steel - this adds great strength and durability to Roman products.
- All seals and gaskets on Roman products are manufactured from colourless PVC.
- Roman over-bath products are not designed for baths with shaped or stepped fronts or integral soap dishes.
- The design rights of these products are owned by Roman Limited. All rights reserved.
- For compatibility of Roman enclosures with steam generators please contact Roman Customer Relations for advice on 01325 328033.
- Where indicated that products are suitable for use with steam generators, this refers to the performance of the product components. We do not however suggest that the product will have complete steam integrity.
- Due to the nature of wetroom panel products, water integrity cannot be guaranteed. Please consult your installer.
- For installation without a tray please refer to the Instruction Manual prior to commencing installation.

Roman have an ongoing policy of design, development and improvement and thus reserve the right to modify specification, ranges and prices without prior notice. Images are for illustration purposes only - please refer to your retailer as site conditions will vary or contact Roman Customer Relations on 01325 328033 for installation specifications.

Roman shower enclosures have been tested and fully conform to the scope and relevant characteristics of BS EN14428:2008+A1 (Shower Enclosures - Functional requirements and test methods), to meet the requirements of the mandate given under the EU Construction Product Directive (89/106/EEC).

As a result of full compliance to the directive and harmonized standard; Roman shower enclosures carry the 'CE' mark and are accompanied by a declaration of performance. (Available to view on www.roman-showers.com)

The CE marking indicates Roman shower enclosures conform to all essential requirements of European health and safety and environmental protection legislation. The conformity is mandatory, and allows Roman products to be legally placed on the market anywhere in the European Economic Area.

Additionally all Roman trays fully conform to EN14527:2006+A1 2010.

Protecting the Environment - Roman's Ecodentials

Roman is committed to caring for the environment and as a reflection of this commitment we became fully accredited with ISO 14001 certification in 2009. We see looking after the environment as an important part of being a UK business and UK manufacturer. As a business we care for the environment in two ways - by improving our systems to reduce our carbon footprint and impact on the environment. We strive for continual improvement in this area. For more information on how we are taking care of the environment visit our website: www.roman-showers.com and view our full list of ecodentials.

All Roman Shower Enclosures and Bath Screens and Trays are manufactured in the UK.

Roman brochures are printed on stock sourced from sustainable forests.

As well as considering the environment during the manufacture of our products, we are also mindful of how our products can impact on the environment after they leave us. The addition of our Ultra Care Pre-coated Glass Protection means that dirt, grime and soap scum are washed away during the shower use. This means the use of harsh chemicals during the cleaning process can be eliminated and less water is required during the cleaning process.

All waste is segregated into recyclables and non-recyclables. 93% of all waste is recycled - landfill reduced to 7% of total waste generated.

EMS 523823

All Roman Shower Enclosures, Bath Screens and Trays are manufactured in the UK. All vehicles with Euro 5 compliance engine vehicles saving 22% on emissions. Company car policy has been updated so only vehicles with less than 125 grams of CO₂s per Kilometre can be used in the fleet. Overall company CO₂ reduction since 2009 is 20%.

Consumer Information and Product Guarantee

Product Guarantee

Roman Ltd. guarantees all shower enclosures and bath screens against faulty materials or manufacture for LIFE, provided they have been installed, used and maintained in accordance with our instructions.

All Roman product guarantees must be completed and returned within 60 days of purchase to validate the relevant guarantee. Failure to meet this deadline will result in a statutory 1 year guarantee on all products.

Should a claim arise, Roman Ltd. Customer Relations will investigate the issue. As part of this investigation we request that the following conditions be satisfied:

1. Proof of purchase at the time of the claim.
2. The guarantee applies to the original purchaser only and is non transferable.
3. The product has been fitted / installed in accordance with Roman Ltd. fixing instructions, local bylaws and general good plumbing practice
4. The product has been maintained and cared for in accordance with our instructions (including regular and appropriate cleaning).

If in our opinion the product has been modified, misused, neglected, wilfully or accidentally damaged, we can accept no responsibility for failure.

Roman Ltd. or its representatives must be given the opportunity to inspect the product in the installed condition.

Should any products included in the lifetime guarantee be used for commercial use i.e. leisure clubs, schools, hospitals, student accommodation, hotels or residential homes, only a 5 year guarantee will be applicable.

If in our opinion the product fails due to faulty materials or manufacture and that the conditions above have been met, Roman Ltd. will arrange for a specialist Roman Technical Representative to repair or replace that item at our option.

Roman Ltd. believes in continuous improvement. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Roman Ltd. will replace it

with our nearest equivalent product. For countries outside of the UK and Republic of Ireland, where a product has failed due to faulty materials or manufacture, a replacement product or product part will be offered only.

Should Roman Ltd. carry out work as a result of a claim but subsequently it is revealed that the product has been abused or improperly installed, we reserve the right to charge the customer for the expense incurred.

The liability of Roman Ltd. is limited to the product supplied by Roman Ltd. and does not extend to consequential loss or damage arising from the defective product.

This guarantee, which is effective for products purchased after February 1st 2006, states our entire liability and is offered to customers acquiring our products as consumers, not in the course of trade or business. Ex displays or products reinstalled from their original position are not covered under this guarantee.

Non glass or metallic parts (e.g. seals) are subject to normal wear and tear through usage and are therefore covered on all products for 1 year from installation.

Roman Ultra Care pre-coat is not covered by this guarantee and it must be maintained by applying Ultra Care from a bottle on an ongoing basis.

Roman products not included in the lifetime guarantee include all Roman Accessories and Roman Shield® tanking products which are covered for 10 years and Roman Shower Trays which are covered for 1 year. All guarantees registered for shower enclosures or bath screens between March 1st 1998 and February 1st 2006 are subject to a 10 year guarantee.

This guarantee does not affect your statutory rights.

This guarantee is wholly applicable in the U.K. and Republic of Ireland – export conditions as indicated.
