DESIGN SOLUTIONS

Saneux bathroom furniture and accessory ranges are inspired by the natural combination of stone and water. Using the finest materials and contemporary designs we manage to create sanitaryware that can enhance even the most complex and unusual spaces.

We are delighted to present you with our latest product collections which promise to captivate and inspire you.

SOLUTIONS DE
CONCEPTION SOLUTIONS

Les gammes d'accessoires et de mobilier de salle de bains Saneux s'inspirent du mariage naturel de la pierre et de l'eau. L'utilisation de designs contemporains et des matériaux les plus raffinés qui soient nous permet de concevoir des appareils sanitaires capables de mettre en valeur les espaces les plus complexes et les plus inhabituels.

Nous avons le plaisir de vous présenter nos toutes dernières gammes de produits, qui promettent de vous envoûter et de vous inspirer.

Also featured, COS 2 plate wall-mounted basin mixers and COS round bottle traps, both in matte black.

QUALITY

Made from premium raw materials, our bathroom products promise quality and longevity.

As an eco-conscious company we ensure that our factories are dedicated to recycling a large percentage of our production waste. This way, we manage to reduce costs for you and the environment!

QUALITÉ

Fabriqués à partir de matières premières de haute qualité, nos produits allient qualité et longévité.

En tant qu'entreprise soucieuse de l'environnement, nous veillons à ce que nos usines recyclent une partie importante des déchets de production. Nous parvenons ainsi à réduire les coûts, à la fois pour vous et pour l'environnement!

ESSENTIAL STORAGE

Our products are designed for a practical use and to make your lifestyle more convenient. Whilst they provide space for organisation and functionality, when it comes to Saneux bathroom furniture, you will never have to compromise on style.

UN COMPAGNON DE RANGEMENT INDISPENSABLE...

Nos gammes sophistiquées vous offrent des solutions faciles à utiliser et à entretenir. Nos gammes de tiroirs et de meubles vous proposent un large éventail d'options qui vous permettent de personnaliser les produits en fonction de l'espace dont vous disposez et du style recherché.

Nos produits ont été conçus pour être pratiques et vous faciliter la vie. Le mobilier de salle de bains Saneux offre espace de rangement et fonctionnalité, sans aucun compromis sur le style.

SMOOTH SMOOTH CERAMIC

Vitreous china, better known as ceramic, is a beautiful, impervious, shiny, durable surface which maintains its special appearance for many years despite constant use. It dates back to ancient Egypt where their crudely-formed rough washbowls, pitchers and toilet bowls were cutting edge technology (strange, but true).

Over the centuries, the manufacturing of ceramic has been perfected to the point where a machine produces more than two hundred WCs per day - and with a minimum tolerance of 5%.

Being a market leader for the past 25 years, Saneux have produced ceramics and furniture for millions of happy customers' bathrooms across the globe.

OH ! LISSE ET DOUCE CÉRAMIQUE...

La porcelaine vitrifiée, plus connue sous le nom de céramique, est une surface élégante, imperméable, brillante et durable qui, malgré l'épreuve du temps, conserve toute sa beauté pendant de nombreuses années. Ce matériau date de l'Égypte antique. Aussi surprenant que cela puisse paraître, cette civilisation était un leader mondial dans la conception de vasques, pichets et cuvettes de toilettes ; des objets grossièrement façonnés et à la pointe de la technologie.

La fabrication de cuvettes WC en céramique a évolué et s'est améliorée au fil des siècles. Aujourd'hui, une machine est capable d'en produire plus de 200 par jour, et ce, avec une tolérance de 5 %. À ce niveau, il n'est pas exagéré de parler d'art !

Chez Saneux, nous fabriquons du mobilier et des cuvettes WC en céramique qui se nettoient merveilleusement bien et brillent sans effort. En outre, . . . nous avons su insuffler un doux vent de minimalisme dans les salles de bains de millions de personnes et ainsi nous positionner comme l'un des leaders du marché.

Pictured: ICON circle washbasin, TEMPUS 3 piece wall-mounted chrome basin mixer and MADRID knurled handle in stainless steel.

CONTRACTS SUPPORT

Saneux emphasizes on the importance of solid partnerships with Designers, Architects and Builders that are an essential part of our work. We have formed a specialist department that focuses entirely on the ever-growing building and commercial sector. Our DAB team is exclusively dedicated to building new collaborations and nurturing existing relationships with our valued contracts as well as ensuring our clients receive a consistently high level of service.

At Saneux, we create the right atmosphere required to work together with Designers and to help them in their task to create exceptional homes. Apart from helping out in the selection process, designers are welcome to give us their plans on any stage of construction and we are equipped to also help stylistically with new product ranges as well as providing them with high quality CG renders of their installations.

However, our job doesn't end there. Our team is keen to assist Architects with the intricate and lengthy undertaking of product specification. We act as trusted advisors providing organized instruction and use our expertise to enable them to achieve the desired results. We also built a dedicated support portal for troubleshooting and instructions and our Technical & Spares Department is always happy to provide long-term support for projects of any scale.

We always follow through our projects, from the design stages to the product selection process as well as the building stage. Working closely with Quantity Surveyors, we suggest alternatives to existing specifications, offering advice and recommendations on technical issues such as space saving and maintenance. It is our responsibility and interest to make certain that the projects are maintained at an exceptional standards and therefore perform inspection visits for the purposes of project evaluation and support, years after completion.

LONDON SHOWROOM

Committed to quality, innovation and design for over 20 years, Saneux brings high-quality bathroom experiences into the homes of consumers around the world, and our London showroom is a reflection of our commitment to excellence at every stage of your bathroom experience. From product development to the finished product installed in your home, our distinctive solutions elevate any bathroom into a complete and luxurious space that transcends the ordinary. Using durable materials like porcelain, brass, and vitreous china, our products are just as beautiful as they are functional, and our knowledgeable staff are available for in-depth consultations to solve any design challenge you might face.

Saneux souligne l'importance d'établir des collaborations fortes avec les designers, les architectes et les constructeurs, qui constituent des éléments essentiels de notre travail. Nous avons mis en place un département dédié entièrement tourné vers les secteurs commercial et du bâtiment, en croissance constante. Notre équipe de designers, architectes et constructeurs a pour mission d'établir de nouvelles relations, d'entretenir les relations existantes et de s'assurer que nos clients sont satisfaits à tous les niveaux.

Chez Saneux, nous créons un environnement propice à une collaboration avec les designers, afin de leur permettre de réaliser des espaces remarquables. Outre le fait de participer au processus de sélection des produits, les designers peuvent nous transmettre leurs plans à n'importe quelle étape de la construction. Nous sommes capables d'offrir une aide sur le plan stylistique grâce à des gammes innovantes et de leur fournir un rendu numérique haute qualité de leurs installations.

Toutefois, notre travail ne s'arrête pas là. Notre équipe est soucieuse d'aider les architectes dans la réalisation du cahier des charges, une tâche complexe et chronophage. Nous agissons à titre de conseillers de confiance en leur fournissant des instructions détaillées. En outre, nous nous appuyons sur notre expérience pour les aider à obtenir les résultats escomptés. Nous disposons également d'un portail de support dédié destiné à la résolution des problèmes et aux instructions. De plus, notre département technique et de pièces de rechange est toujours soucieux de fournir un soutien à long terme, et ce, dans le cadre de projets de toute taille.

Nous effectuons toujours un suivi complet de nos projets, et ce, de la conception au processus de sélection des produits, en passant par la phase de construction. En étroite collaboration avec des économistes en construction, nous proposons des alternatives aux cahiers des charges existants, fournissant ainsi des conseils et des recommandations quant aux problèmes techniques tels que l'économie d'espace et la maintenance. Il est de notre responsabilité de nous assurer que les résultats obtenus sont les meilleurs possible. C'est la raison pour laquelle nous réalisons des visites de contrôle dans le cadre de l'évaluation et de l'appui aux projets, et ce, plusieurs années après leur achèvement.

Engagé dans la qualité, l'innovation et le design depuis près de 20 ans, Saneux apporte une expérience de haute qualité de salle de bain dans vos maisons et auprès des consommateurs à travers le monde. Notre showroom de Londres est le reflet de notre engagement envers l'excellence à chaque étape de votre moment dans votre salle de bain. De la conception du développement du produit à la réalisation du produit fini installé chez vous, nos solutions distinctives font de n'importe quelle salle de bains un espace complet et luxueux qui transcende votre ordinaire. Nous utilisons des matériaux durables comme la porcelaine, l'aiton et porcelaine vitreuse. Nos produits sont autant beau qu'ils sont fonctionnels et notre personnel compétant sont disponible pour des consultations approfondies afin de résoudre tout problème de conception auquel vous pourriez être confronté.

CASE STUDIES

ST. JAMES'S PLACE

This is a central London apartment refurbished by W9design in 2014. Its magnificent views of Green Park and large living spaces make this apartment a unique property in the UK market.

However, the 25 years of no refurbishment had taken its toll on the property. A fresh and contemporary interior treatment breathed new life into its generous living spaces. Within the timeframe of only 6 months, W9design managed to refurbish the entire property, including installation of new electrics, plumbing, flooring, decorating and furnishings. By incorporating some 1970's vintage pieces to the otherwise restrained style of the refurbished flat, W9design added character and unique charm.

This two storey property boasts 4 bedrooms, a large living room and reception, a kitchen with dining area and a study. The renovation also included a new cloakroom and three new bathrooms. W9design used several items from our beloved MATTEO collection to create bathrooms that accommodate the needs of the occupier and that match the unparalleled design standards of the rest of the property.

Rénové par W9design en 2014, cet appartement se situe en plein cœur de Londres. Les vues incroyables sur Green Park et les grandes pièces à vivre font de cet appartement un bien immobilier unique sur le marché britannique.

Toutefois, l'absence de travaux de remise en état pendant 25 ans n'a pas été des plus bénéfiques pour cet appartement. Des travaux de rénovation contemporains ont ainsi permis de donner un nouveau souffle aux vastes espaces de vie. En seulement 6 mois, W9design est parvenu à rénover l'ensemble de l'appartement, y compris les installations électriques, la plomberie, les sols, la décoration et le mobilier. En associant le caractère vintage de certains objets des années 1970 au style sobre de l'appartement rénové, W9design a su lui conférer un charme unique et lui redonner du caractère.

Cet appartement sur deux étages comprend 4 chambres, un grand séjour, une cuisine avec coin repas et un bureau. Un cabinet de toilette et trois salles de bains ont également été aménagés. W9design a utilisé divers produits de notre gamme MATTEO pour concevoir des salles de bains qui répondent aux besoins de l'utilisateur et correspondent aux normes de conception uniques du reste de l'appartement.

HOVE PARK VILLA

The Hove Park Villa residential project was completed by CDMS Architects and has won the Sussex Heritage Trust Award 2010, Residential Award. The refurbishment of this period style home, first built in the early 1900's, was assigned and carried out in two stages.

The first phase of the renovation included works to the main bedrooms, bathrooms and living spaces while the second phase involved the redesigning of the kitchen and utility areas and full landscaping to the garden. The procedure included the demolition of the garage and the construction of an extension to the kitchen as well as modifications to the original layout. Using quality materials and finishes has created a better sense of connection and flow throughout the property while still maintaining the character and appeal of this Edwardian home.

CDMS Architects, once again chose to use Saneux sanitaryware to ensure that the high standard of the renovation was achieved throughout the bathroom areas as well. Selecting our QUADRO basins and JONES back-to-wall pan, they managed to create bathroom spaces that are both stylish and functional.

Réalisé par la société CDMS Architects, le projet résidentiel Hove Park Villa s'est vu décerner le prix « Residential Award 2010 » par l'association Sussex Heritage Trust. La rénovation de cette maison d'époque, construite au début du 20^e siècle, s'est déroulée en deux étapes.

Les travaux de la première phase concernaient les chambres principales, les salles de bains et les pièces à vivre, tandis que la seconde phase visait notamment à repenser la cuisine et à aménager le jardin. Ainsi, le garage a été détruit, tandis que la cuisine a été agrandie et repensée. L'utilisation de matériaux et de finitions de qualité a permis de garantir une meilleure continuité entre les pièces, tout en conservant le caractère et le charme de cette maison de style édouardien.

CDMS Architects a fait le choix des appareils sanitaires Saneux, et ce, dans l'objectif de respecter également un très haut niveau d'exigence au sein des salles de bains. Le fait d'opter pour nos vasques QUADRO et nos cuvettes classiques JONES a permis à cette société de concevoir des espaces à la fois élégants et fonctionnels.

FIELDING ROAD

The Fielding Road project is a residential property located in West London. This Victorian terrace house spreads into four floors and following initial architectural and extension works, interior design work remained to be done.

Diego Correa, interior designer, took over phase two which included works to the staircase area, living and reading areas as well as remodeling two bathrooms. The challenge was to maintain the Victorian details around the house whilst giving a new and sophisticated look to resonate within the house and provide the sense of continuation between the different rooms.

One of the bathrooms to be renovated was to be for the family's three children's use. The client requested for yellow to be incorporated into the design. Diego Correa managed to combine a hue of yellow with the rest of the room in a gray palette that would connect the bathroom with the other rooms and staircase space. The design is one that will last and work even when the children become teenagers.

The second bathroom was a guest bathroom. In this room, Diego opted for a soberer look yet with an informal elegance that would give it a welcoming appearance. He achieved that feel, using brown and walnut shades and matt tiles and finishes.

In both bathrooms, Diego used products from our Austen and Elluminate ranges. To view the entire Diego Correa portfolio visit their website here. Credit for the beautiful pictures goes to talented photographer Enzo Mercedes.

Le projet Fielding Road est un bien résidentiel situé à l'ouest de Londres. Cette maison mitoyenne de style victorien s'étend sur quatre étages. Une fois les travaux architecturaux et d'extension terminés, il restait encore à faire l'aménagement intérieur.

Diego Correa, architecte d'intérieur, fut chargé de la mise en œuvre de la phase deux du projet : phase qui comprenait les travaux au niveau des escaliers et des espaces de vie et de lecture, ainsi que la rénovation des deux salles de bains. Le défi fut non seulement d'assurer une certaine continuité entre les différentes pièces, mais également de conserver les détails de l'époque victorienne tout en donnant une nouvelle apparence, plus raffinée, à l'intérieur de la maison.

L'une des salles de bains à rénover était destinée aux trois enfants de la famille. Le client souhaitait que la couleur jaune soit intégrée au design de cette salle de bains. Diego Correa est parvenu à associer une teinte de jaune avec le reste de la pièce grâce à une palette de gris, permettant ainsi de relier la salle de bains aux autres pièces et aux escaliers. Le design de cette pièce conservera son charme au fil des années, et ce, à mesure que les enfants grandissent et deviennent des adolescents.

L'autre salle de bains était destinée aux invités. Dans cette pièce d'une élégance informelle, l'architecte d'intérieur a opté pour une apparence plus sobre, mais non moins chaleureuse. Pour ce faire, il a eu recours à des nuances de marron et de noyer, ainsi qu'à des finitions et du carrelage de couleur mate.

Diego Correa s'est appuyé sur nos gammes Austen et Elluminate pour aménager ces deux salles de bains. Pour découvrir le portfolio de Diego Correa, rendez-vous sur son site Web en cliquant ici. Nous tenons à remercier le photographe Enzo Mercedes pour ces magnifiques photos.

PORTOBELLO TERRACE

The Barnes Villas are located near the river Thames providing the atmosphere and serenity of the countryside, whilst being situated only 30 minutes away from central London. Perfect for a family living but not lacking the comforts and entertainment of city life, it combines the best of both worlds.

The Portobello Terrace Project demanded sophisticated bathrooms that would correspond to the luxury standards and necessities of a stylish lifestyle. We were pleased to collaborate with Nicolas King Homes and offer consultation in the selection of Saneux sanitarywear that would implement the character of these homes.

In order to provide a different personality to each bathroom, Nicolas King Homes selected products from a variety of ranges including our MATTEO basins and units and ICE cabinets promising exceptional quality and bathroom indulgence for years to come.

Situées à proximité de la Tamise, les villas de Barnes offrent l'atmosphère et la sérénité de la campagne tout en se trouvant à 30 minutes seulement du centre de Londres. Idéales pour les familles tout en offrant le confort et les distractions de la vie en ville, ces villas combinent le meilleur des deux mondes.

Le projet Portobello Terrace exigeait des salles de bains sophistiquées qui correspondraient aux standards et besoins luxueux d'un mode de vie raffiné. Nous avons eu le plaisir de collaborer avec Nicholas King Homes et de proposer des conseils lors de la sélection d'appareils sanitaires intégrant le caractère de ces maisons.

Dans l'objectif d'offrir une personnalité différente à chaque salle de bains, le promoteur immobilier Nicholas King Homes a sélectionné des produits parmi un éventail de gammes, y compris nos lavabos et meubles MATTEO et armoires avec miroir : la promesse d'une qualité exceptionnelle et d'un plaisir pendant plusieurs années.

FRONTIER

The FRONTIER collection was created with choice and versatility being at the forefront of the R&D process. We know every bathroom is different, which is why we want to give you more choice than ever before.

Being our most modular range, FRONTIER is available in a choice of three colours all with a delicate hand painted finish, three popular sizes, and in floor-standing and wall-mounted variants. You can also choose between two worktop colours, four unit handles, and an optional tray to accompany the floor-standing unit to allow for extra storage. If that wasn't enough, LED mirrors are available to complete this new range.

La collection FRONTIERE a été créé avec choix et la versatilité de manière à se mettre au premier plan du processus de recherche & développement. Nous savons que chaque salle de bains est différente. c'est pourquoi nous voulons vous donner plus de choix qu'auparavant.

Notre gamme la plus modulaire, FRONTIERE est disponible avec un choix de trois couleurs. toutes avec un style délicat fini de peinture à la main. Vous avez le choix entre deux couleurs de plan de travail et quatre meubles de rangement. Un plateau optionnel est présent pour accompagner le maintien du meuble au sol. ce qui lui permet un extra stockage de vos produits. Si cela ne suffisait pas, il y a également des miroirs à lumière LED disponible afin de compléter notre nouvelle gamme.

MATTEO

MATTEO has amazing distinctive design with generous dimensions, coupled with the perfect handleless furniture... bathrooms don't get much better than this.

La gamme MATTEO se caractérise par son design distinctif et ses dimensions généreuses, mais également par son mobilier sans poignée. En termes de salles de bains, vous ne trouverez pas mieux.

Pictured: MATTEO 60cm washbasin with 1 drawer unit and matching side unit in gloss grey. Also featured, INSIDE IN001 mirror cabinet.

Pictured: MATTEO 60cm washbasin and gloss grey unit with TOOGA basin mixer.

Also featured, **NICHOLSON NI104** single lever tall basin mixer and **GLACIER 75cm** electric mirror cabinet.

PODIUM

The **PODIUM** range was introduced to provide beautifully made, hand finished ceramics with some of the most versatile furniture selection in the market. You have the choice between a floor-standing unit and a wall-hung unit, countertop basins and recessed basins, a small or large unit with one or two basins, etc. With **PODIUM**, you can design your own minimalist dream bathroom.

La gamme **PODIUM** a été introduite pour fournir des céramiques magnifiques, fabriquées à la main avec les meubles les plus polyvalents du marché. Vous avez le choix entre un modèle au sol ou suspendu, une vasque à poser ou encastrée, une petite ou grande unité avec une ou deux vasques, etc. Entièrement modulable, **PODIUM** vous permet concevoir la salle de bain de vos rêves.

AUSTEN

We designed AUSTEN to provide you with the best quality of bathroom product and a luxury style. The soft-close units are available in three different colours: alaska, white gloss and pacific walnut; and three different sizes. It leaves you plenty of choice to design the bathroom of your dream.

With a wide collection of products, AUSTEN will fulfil all your needs. Among those products you will find basins (countertops and recessed) and units, side units, toilets and mirror cabinets - all made to complete that timeless bathroom look.

Nous avons conçu AUSTEN pour vous fournir la meilleure qualité de produit de salle de bains et un style de luxe. Les unités soft-close sont disponibles en trois couleurs: alaska, blanc brillant et noyer pacifique ; Et trois différentes tailles. Cela vous laisse beaucoup de choix pour concevoir la salle de bain de vos rêves.

Avec une large collection de produits, AUSTEN répondra à tous vos besoins. Parmi ces produits, vous trouverez des vasques, (à poser et encastrées) et des meubles suspendus ou sur pieds, des toilettes, des bidets et des miroirs - tous fabriqués pour compléter ce look de salle de bains intemporel.

Pictured: AUSTEN 60cm basin and 1 drawer unit with matching side unit in Alaska. Also featured, INSIDE IN001 electric mirror cabinet and ZAHA free-standing bath.

PRAGUE

After years of research and development, the PRAGUE rimless flush WC range is here. The uniform flow of water around the rim offers maximum hygiene, zero splash and ultra low noise..

PRAGUE. Rimless like never before.

Après ans de recherche et de développement, la gamme WC de PRAGUE est là. Le flux uniforme d'eau autour du bord offre une hygiène maximale, sans éclaboussures et du bruit ultra-faible.

PRAGUE. Sans bride, comme jamais auparavant.

Pictured: PRACUE 60cm basin with matching 2 drawer unit in white gloss and GLACIER 60cm electric mirror cabinet.

INDIGO

We don't believe in variety for the sake of variety. The INDIGO range is specifically designed to provide you with the opportunity to choose the products that are just right for you. Boasting a stylish handleless design and five times lacquered finishes our units promise quality and durability. With three different styles of bathroom furniture that come in four different sizes and two colours to choose from, you are spoiled for choice!

Quality and style go hand in hand as our WCs and basins are made to the highest standards and specifications. The INDIGO line was carefully designed with our customers needs and requirements in mind. The WC range includes a selection of close-coupled, wall-hung, back to wall and rimless options so you never have to compromise with second best.

Nous ne croyons pas en la variété pour l'amour de la variété. La INDIGO gamme est spécifiquement conçue pour vous donner l'opportunité de choisir les produits qui vous conviennent. Doté d'un design élégant et de finitions laquées, nos meubles offrent qualité et durabilité. Avec trois styles différents de meubles de salle de bain qui viennent en quatre tailles différentes et deux couleurs sophistiquées à choisir, Vous avez l'embarras du choix!

La qualité et le style vont de paire car nos WC et nos vasques sont conçus selon les normes et spécifications les plus élevées. La ligne INDIGO a été soigneusement conçue en tenant compte de vos besoins et de vos exigences. La gamme WC comprend une sélection monobloc, murale, suspendue et sans bord, de sorte que vous n'avez jamais à faire de compromis.

ICON

The ICON collection is like no other. Made from the finest ceramic, these sleek basins and rimless WCs deliver a unique style that can work in any bathroom no matter the size or design.

Not only does the ICON range come in a traditional gloss white, but it has now expanded to feature ten brand new colours which are available across the vast selection of basins and WCs. You can opt for a more neutral colour such as natural stone or light sand, or instead make a statement with a pine green or polished platinum basin... No matter the choice, the end result will be truly iconic.

La collection ICON n'est pas comme les autres. Fabriqué à partir de la meilleure céramique, ces soyeux basins et WC Rimless délivrent un style unique qui peut s'adapter dans n'importe quel taille ou style salle de bains.

La gamme ICON fournit non seulement des équipements de salle de basins de couleur traditionnellement blanc brillant, mais elle s'est maintenant agrandi afin de fournir 10 nouvelles couleurs qui sont disponible à travers une vaste sélection de lavabo et WC. Vous pouvez opter pour des couleurs tels que roche neutre ou sable claire ou à la place, faire une demande spécifique de couleur vert de pin ou une couleur platine poli. Peut importe le choix, le résultat final sera vraiment iconique.

Pictured above: ICON RIMLESS round wall-hung WC with soft-close seat and matching bidet. Also featured, ICON square washbasin with matching PODIUM 100cm countertop and 50cm 1 drawer unit in wenge.

Pictured left: ICON circle sit on washbasin with COS 2 plate wall-mounted basin mixer in matte black.

AIR

The AIR range is a collection of furniture and ceramics characterised by the fusion of materials and product design. AIR offers space saving solutions like never before: deep bowls & short projection. The range consists of a selection of basins and furniture in 60cm and 80cm configurations along with an elegant rimless close-coupled WC.

AIR. Simple & Pure.

La collection AIR vous offre des meubles et équipements sanitaires en céramique qui se distinguent par la combinaison de matériaux de qualité et d'un design soigné. La collection vous propose des vasques et meubles de 60cm et 80cm ainsi qu'un élégant modèle de WC Monobloc sans bride.

AIR. Simple et Pur.

X_ACT

Our mineral marble basins epitomise the contemporary bathroom ideal. Truly unique products both in concept and design, our X_ACT range of washbasins are way out in front. Beautifully crafted from the finest materials, the exceptionally smooth and glossy finish is both eye catching and practical.

The moulding process allows for shaping to precise dimensions - something not achievable with regular ceramic materials. The basins can be matched with attractive and functional units from our AUSTEN range in white gloss, alaska and pacific walnut colours.

Boasting a lighter and more durable material as well as easy installation and competitive prices, the X_ACT basins are a great choice for any bathroom.

UNI

YOUR PERFECT SPACE

The UNI range is best known for the wide variety of semi-recessed basins - a boon when space is at a premium. To complete the picture, choose from the minimalist collection of WC pans along with the matching selection of basins with complementary handleless furniture in matt white and matt anthracite.

Pictured: UNI 60cm washbasin with 2 drawer unit and tall side unit both in matte white.

Also featured, INSIDE IN001 electric mirror cabinet, ZAHA free-standing bath and UNI back-to-wall WC pan with soft-close seat.

Pictured: UNI 60cm washbasin with 2 drawer unit and tall side unit both in matte white. Also featured, INSIDE IN001 electric mirror cabinet.

PROJECT

Our PROJECT range includes a fully back to wall toilet with 6 basins in the range, you have impressive selection. In creating PROJECT, we combine the finer elements of design, with a wonderfully softened square edge.

La gamme PROJECT comprend une cuvette WC classique et 6 lavabos. En créant cette gamme, nous sommes parvenus à associer les éléments les plus fins du design aux bords droits merveilleusement lisses des produits.

Pictured: PROJECT close-coupled WC pan, cistern and soft-close seat. Also featured, PROJECT 60cm washbasin & pedestal and M1016 electric mirror.

SIMPLICITY THAT RULES WATER

This is your chance to personalise your bathroom with Saneux brassware, which combines the best in engineering and technology with real creativity.

Much of our brassware featured uses the revolutionary Ceramix system, which improves performance of traditional ceramic discs, offering smoothness of movement.

Most of our brassware is to be installed with high pressure water systems. This would mean operating pressures should be a minimum of 1 bar (33ft head). Look for description shown below if selecting your taps with a low pressure system. Ask your plumber to explain this further if you are unsure what water system you have.

LA SIMPLICITÉ RÈGNE SUR L'EAU

C'est l'occasion rêvée de personnaliser votre salle de bains grâce à la robinetterie Saneux, qui associe créativité et le meilleur de l'ingénierie et de la technologie.

Nombre de nos éléments de robinetterie utilisent le système révolutionnaire Ceramix, qui améliore les performances des disques en céramique traditionnels et assure ainsi un mouvement tout en douceur.

Pression de l'eau La plupart de nos éléments de robinetterie doivent être installés avec des systèmes à haute pression. En d'autres termes, la pression de fonctionnement doit être au minimum de 1 bar (charge hydraulique de 10 mètres). Lisez le descriptif ci-dessous si vous optez pour des robinets avec un système à basse pression. En cas de doute quant à votre système d'eau et pour plus de détails, veuillez contacter votre plombier.

Pictured: ICON circle sit on washbasins on a PODIUM 150cm countertop in white gloss.

Also featured, COS 2 plate wall-mounted basin mixers and COS round bottle traps.

WATER SYSTEMS

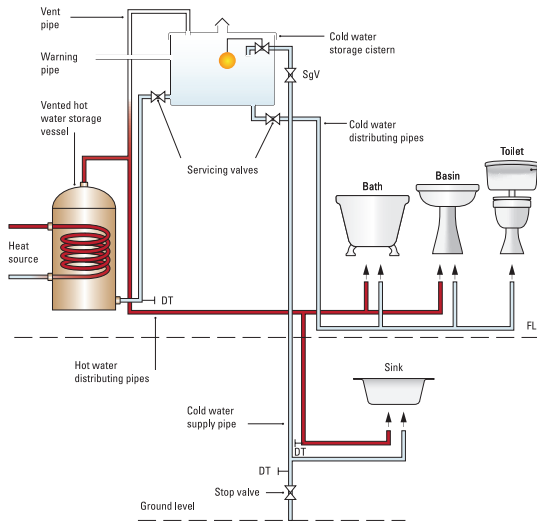

To help you select the optimum brassware for your project we have marked our products with the pressure requirement. This is represented as follows:

- LP - minimum 0.2 bar
- MP - minimum 0.5 bar
- HP - minimum 1.0 bar

Fig.1

Cold water is stored in a header tank which feeds the hot water tank, and usually the cold water to the bathroom. This means the water is delivered at low pressure and therefore only taps with LP or minimum 0.2Bar (2 metre Head) can be used. If the header tank is in the loft space and the taps are on the ground floor the pressure may be higher so taps marked MP 0.5 bar (5 meter head) may be able to be used. You will need to check your requirements with your plumber as, if a power shower is required a pump will need to be fitted.

**Figure 1
Standard Low Pressure System**

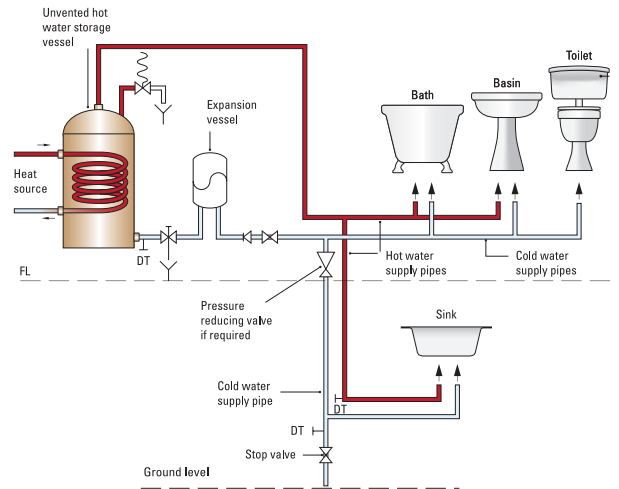

These are given as a guide only and to ensure optimum compatibility please refer to a qualified plumber and full product specifications.

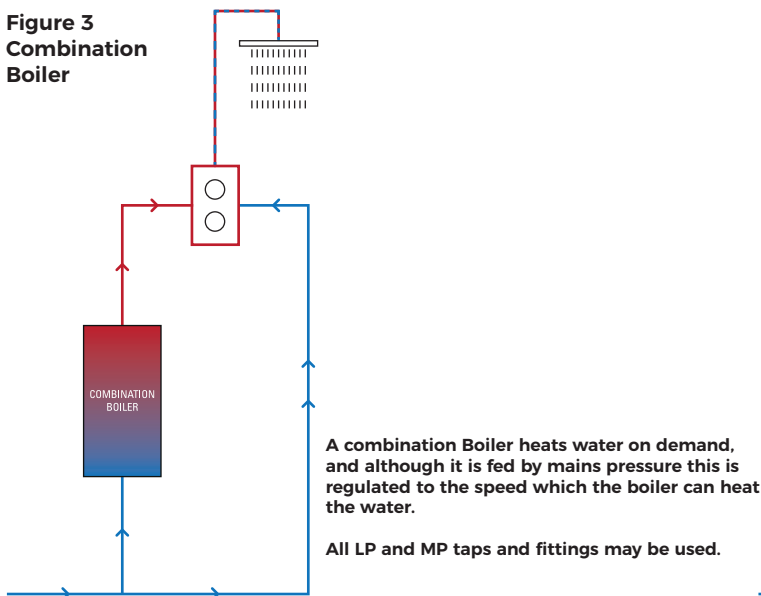

Fig.2

The unvented cylinder stores hot water at mains pressure, usually between 2 and 3 bar. This means hot and cold water is delivered at the same pressure. This means a power shower can be achieved without the need for a pump. All LP, MP and HP taps and fittings may be used.

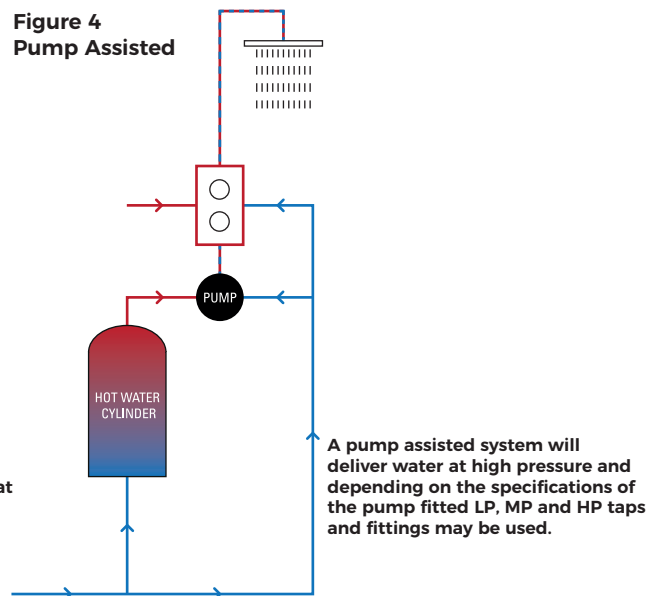

**Figure 2
Unvented Pressure System**

**Figure 3
Combination Boiler**

**Figure 4
Pump Assisted**

SHOWER VALVE COMBINATIONS

To make your life easier we have four simple reference diagrams which make choosing a shower/bath/hand spray combination nice and easy

Concealed Thermo Valve 2 Way

Pictured: TOOGA TO002 basin mixer.

TOOGA

The TOOGA brassware range, originally only in chrome, now also comes in a smooth matte black finish. An imaginative focal point for any bathroom, this cute purist form will wow even the squarest of them all.

La gamme de robinetterie TOOGA à l'origine seulement disponible en fini chromé, est maintenant disponible également en couleur fini « noir mat ». Un point de vue imaginaire pour n'importe quelle salle de bains, cette forme mignonne puriste va épater même les plus carré d'entre vous.

COS

ELEGANCE TO ENJOY...

The COS collection is the perfect balance of the ultra-modern and classic in brassware design. The collection features taps, mixers and valves that now come in a chrome and matte black finish. All are designed with style and ease of use in mind.

L'ELEGANCE À PROFITER ...

La collection COS est le balancement parfait entre l'ultra moderne et la conception classique de robinetterie. Les collections des fonctionnalités des robinetterie, mélangeur, vanne, sont maintenant disponible en finition « noir mat ». Ils ont tous été dessinés dans un but d'une utilisation facilité.

ICE MIRROR CABINETS

Stunning, sleek bathroom cabinets constructed from aluminium giving any bathroom the real cutting edge. The doors are mirrored both sides and the glass shelves inside can be adjusted to suit yourself.

Des armoires aux lignes épurées, fabriquées à partir d'aluminium et qui placent la salle de bains à la pointe de l'innovation. Les portes sont dotées d'un miroir de chaque côté et les étagères intérieures en verre peuvent être réglées en fonction de vos besoins.

ICE MIRROR CABINETS

LED lights give a clean glow and are operated with a 'non touch' sensor

CLEARSEAL

THE PROTECTIVE COATING THAT
EFFECTIVELY CLEANS YOUR
SHOWER FOR YOU ...

ENDUIT TRANSPARENT L'ENDUIT DE
PROTECTION QUI NETTOIE EFFICACEMENT
VOTRE DOUCHE POUR VOUS ...

CLEARSEAL COMES AS STANDARD ON EVERY SHOWER ENCLOSURE IN OUR COLLECTION

To help keep your shower enclosure looking like new, every design we offer features Clearseal technology at no extra cost.

UN ENDUIT TRANSPARENT EST APPLIQUÉ DE SÉRIE SUR TOUTES NOS PAROIS DE DOUCHE

Dans l'objectif de permettre aux parois de votre douche de conserver l'aspect du neuf, un enduit transparent est appliqué sur chacune de ces parois, et ce, sans aucun coût supplémentaire.

HOW DOES IT WORK?

Clearseal is a micro-thin invisible coating that we apply as standard to the glass in all our shower enclosures. This innovative technology creates a surface that water and grime are unable to stick to, creating a lasting mark-free finish.

COMMENT CELA FONCTIONNE-T-IL ?

Il s'agit d'un enduit invisible ultra-fin que nous appliquons de série sur le verre de toutes nos parois de douche. Cette technologie innovante entraîne la formation d'une surface à laquelle l'eau et la crasse ne peuvent adhérer. Les parois de douche sont ainsi exemptes de traces.

KEEPS CLEANER FOR LONGER

Over time, the glass panels in shower enclosures can become tarnished by a build up of limescale and soap residue from shower gels and shampoos. By preventing the adherence of these products, Clearseal's protective coating keeps glass looking cleaner for longer.

MAINTIENT LES PAROIS PLUS PROPRES, PLUS LONGTEMPS

Au fil du temps, le verre des parois de douche peut se ternir en raison d'une accumulation de calcaire et de résidus de savon. En empêchant ces produits d'adhérer au verre, l'enduit transparent maintient les parois plus propres, plus longtemps.

WARRANTY

Clearseal has been developed to be effective and durable, offering long lasting protection on every enclosure we supply. To give you added peace of mind, every Clearseal coated design is fully guaranteed for 2 years.

GARANTIE

L'enduit transparent a été développé dans l'objectif d'être efficace et durable, offrant ainsi une protection longue durée à chaque paroi que nous fabriquons. Chaque produit sur lequel est appliqué cet enduit transparent est garanti 2 ans. Ainsi, vous aurez l'esprit tranquille.

ENVIRONMENTALLY FRIENDLY

Because Clearseal makes your shower enclosure effectively self-cleaning, you don't have to use chemical-based sprays and other products, making it a more environmentally friendly choice.

ÉCOLOGIQUE

Vous n'avez pas à utiliser de produits chimiques ou autres, puisque l'enduit transparent nettoie efficacement les parois de votre douche pour vous. Une caractéristique qui fait de cette solution un choix écologique.

CLEARSEAL REPELS WATER AND GRIME. . . L'ENDUIT TRANSPARENT ÉLOIGNE L'EAU ET LA CRASSE. . .

It won't cost you a penny extra

Water and grime particles cling to untreated glass

Les particules d'eau et de crasse adhèrent aux surfaces non traitées

Clearseal coating means your shower stays cleaner for longer

L'enduit transparent maintient les parois de votre douche plus propres, plus longtemps

SHOWER PACKAGES: GUIDE

This section is where you choose the shower components that are essential to create your perfect shower kit. Start by selecting either a one-way, two-way or three-way concealed shower valve. From there, browse through our vast selection of shower kit components which includes shower heads and arms, slide rails, handsets and bath fillers. Also, most of our shower products are available in both a classic chrome finish and a modern matte black finish.

STEP 1: Select your shower valve

TEMPUS HEATED TOWEL RAILS

SÈCHE-SERVIETTES TEMPUS

Very classic, very practical. The clean lines of the attractive Tempus heated towel rail look equally at home in bathrooms, kitchens, cloakrooms, and gyms. An essential addition to your requirements, your towels will be softer and drier than ever . . . The highly polished stainless steel will give long life and yield a far superior BTU (British Thermal Unit) output in comparison to chromed rails

Très classique et très pratique. Les lignes épurées du séduisant sèche-serviettes Tempus sont très agréables à regarder, que ce soit dans les salles de bains, les cuisines, les toilettes ou les salles de sport. Vos serviettes n'auront jamais été aussi douces et aussi sèches. . . Sa finition en acier inoxydable poli lui confère une longue durée de vie et permet d'obtenir une valeur BTU (British Thermal Unit) bien supérieure à celle des sèche-serviettes en chrome.

Pictured: TEMPUS TE-7086 heated towel rail & JONES mini wall-hung WC pan and soft-close seat.

All installations must comply with guidelines based on the zonal requirements.

Toutes les installations doivent être conformes aux directives définies en fonction des différentes zones de la salle de bains.

These regulations apply to domestic installations only.

Les présentes réglementations s'appliquent uniquement aux installations domestiques.

We recommend that all electrical work carried out is done by a suitably qualified electrician with the current IEE wiring regulations (17th Edition).

Il est recommandé que les travaux électriques soient réalisés par un électricien dûment qualifié et conformément aux réglementations en matière de câblage de l'IEE (17e édition).

Bathroom lights are classified using an IP (Ingress Protection) rating. The IP characters are followed by 2 numbers which refer to the level of protection against the ingress of foreign bodies (1st number) and protection against the ingress of liquids (2nd number).

Les éclairages de salle de bains sont classés selon leur indice de protection (IP). Les lettres IP sont suivies de deux chiffres qui font référence au niveau de protection contre les intrusions de corps solides (1er chiffre) et de corps liquides (2nd chiffre).

ZONE 0 - is inside the bath or shower. Any fitting used in this zone must be low voltage (max 12v) and be rated at least voltage (max 12v) and be rated at least IP67 (immersion proof)

ZONE 0 - intérieur de la baignoire ou de la douche. Tout appareil utilisé dans cette zone doit être à basse tension (12 V maximum) et classé IP67 minimum (protection contre l'immersion).

ZONE 1 - is an area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IPX4 is required.

ZONE 1 - correspond à la zone allant jusqu'à 2.25 mètres au-dessus du fond de la baignoire ou de la douche. Dans cette zone, une classification IPX4 minimum est requise.

ZONE 2 - is an area stretching 0.6m outside the perimeter of the bath to a height of 2.25m from the floor. In this zone a minimum of IPX4 is required. Around a wash basin, a radius within 60cm is considered as zone 2.

ZONE 2 - zone qui s'étend jusqu'à 60 cm autour de la baignoire ou de la douche, jusqu'à 2.25 mètres au-dessus du fond. Dans cette zone, une classification IPX4 minimum est requise. Elle correspond également à la zone autour du lavabo, dans un rayon de 60 cm.

OUTSIDE ZONES - has no specific requirements unless water jets are likely to be used for cleaning purposes.

ZONES EXTÉRIEURES - aucune exigence spécifique, sauf s'il est prévu d'utiliser des jets d'eau dans le cadre d'un nettoyage.

ALL ZONES - any electrical circuits in a bathroom must be protected by a 30mA Residual Current Device (RCD). Electrical equipment exposed to water jets such as a shower must be at least IPX5.

ENSEMBLE DES ZONES - tout circuit électrique présent dans la salle de bains doit être protégé à l'aide d'un dispositif différentiel résiduel (DDR) de 30 mA. Les équipements électriques exposés aux jets d'eau (douche, par ex.) requièrent une classification IPX5 minimum.

REFERENCE IP RATINGS FIRST NUMBER - PROTECTION AGAINST SOLIDS							
Example	0	1	2	3	4	5	6
Protection against solid foreign objects	No protection	Full Penetration of 50mm diameter sphere allowed. Contact with hazardous parts not permitted	Full Penetration of 12.5mm diameter sphere not allowed. The test finger will have ample clearance from hazardous parts	A 2.5mm diameter probe shall not penetrate	A 2.5mm diameter probe shall not penetrate	Limited ingress of dust permitted (no harmful deposit)	Totally protected against dust
Effective protection from:	Non protection	Back of hand	Finger	Tool	Cable	Cable	Cable

REFERENCE IP RATINGS SECOND NUMBER - PROTECTION AGAINST LIQUIDS									
Example	0	1	2	3	4	5	6	7	8
Protection against	No protection	Vertically falling droplets of water	Vertically falling droplets of water with the enclosure tilted 15° from the vertical	Protected against spray to 60° from the vertical. Limited ingress acceptable	Protected against water splashed from all directions. Limited ingress acceptable	Protected against low pressure water jets from all directions. Limited ingress acceptable	Protected against strong jets of water (for use on shipdecks). Limited ingress acceptable	Protected against immersion between 15cm and 1m	Protected against long periods of immersion under pressure
Effective protection from:	Non protection	Vertical dripping	Driving rain	Limited spraying	Splashing from all directions	Hosing jets from all directions	Strong jets from all directions	Temporary immersion	Cable

TEMPUS HEATED TOWEL RAILS DUAL FUEL

SÈCHE-SERVIETTES MIXTES

Designed for maximum efficiency, our TEMPUS towel rails are beautifully constructed from high grade stainless steel. 10 year guarantee on all models against corrosion or leakage.

Built to last a life time.

Conçus pour une efficacité maximale, les sèche-serviettes Tempus sont fabriqués en acier inoxydable de haute qualité. L'ensemble des modèles sont garantis 10 ans contre la corrosion et les fuites.

Nos sèche-serviettes sont conçus pour durer toute une vie.

All TEMPUS heated towel rails are made from stainless steel.

TERMS & CONDITIONS

CONDITIONS OF SALE

1. General

These conditions set out the legal basis upon which we will supply goods. No variation or representation will be valid unless confirmed in writing by a partner.

2. Application of Terms

2.1.1 By placing an order or accepting a quotation the Buyer shall be deemed to be making an offer to buy the goods subject to these conditions.

2.1.2 No order shall be accepted by the Company until written confirmation is issued or (if earlier) the Company delivers the goods.

2.1.3 Any quotation is given on the basis that there is no contract until the Company has accepted an order.

2.2 Quotations unless agreed in writing will be valid for 30 days provided that the Company has not previously withdrawn it.

3. Description

3.1 The quantity and description of goods shall be set out in the Company's quotation or acknowledgment of order.

3.2 All brochures, advertisements and samples are for illustrative purposes only. Dimensions are given as a guide only. Dimensions should not be used for surrounding furniture, fixtures and fittings until the product is on site.

4. Delivery

4.1.1 Delivery shall take place at the Buyer's place of business unless agreed otherwise in writing by the Company.

4.1.2 Dates for delivery are an estimate and time for delivery shall not be made of the essence unless expressly agreed in writing by the Company. If no dates are specified delivery shall be within a reasonable time.

4.2 The Company will not accept liability for any losses caused by delay in delivery.

4.3 If the Buyer fails to take delivery or the Company is unable to deliver the goods because of the fault or failure of the Buyer then:-

- (a) Any risk in the goods shall pass to the Buyer
- (b) The goods shall be deemed to have been delivered; and
- (c) The Company may store the goods at the Buyer's expense.

4.4 The Company reserves the right to deliver the goods by separate instalments.

5. Risk and Ownership

5.1 Ownership in the goods shall not pass to the Buyer until payment in full has been made. The Buyer grants to the Company an irrevocable licence to enter any premises where the goods are or may be stored in order to impact them or to recover them in the event of failure to make payment in full.

5.2 The risk in the goods for nuisance purposes shall pass to the Buyer on delivery.

6. Price

6.1 Unless agreed in writing by the Company the price shall be the price excluding V.A.T set out in the Company's price list on the date of delivery or deemed delivery.

7. Payment

7.1 Payment in cleared funds or cash shall be made on or before delivery (unless credit terms have been agreed in writing by the Company). On occasions the Company will require a Director's guarantee.

7.2 The Company reserves the right to claim interest under the late payment of commercial debts (Interest Act 1998).

7.3 In the event of a customer with a credit account going into arrears, if legal action is taken to recover the debt, all amounts owing to the Company shall be deemed as payable, including any current amount.

8. Quality

8.1 The Company will not accept claims for stoppages or damaged goods unless notified within forty-eight hours of delivery. All goods should be physically checked and defects reported to the Company.

8.2 The Company shall not be liable for the cost of installing faulty goods.

8.3 The Company reserves the right to alter the specifications and product range without prior notice.

8.4 The Company will in the event that it supplies faulty goods at its own option repair, replace the goods or refund the price of the goods. If the Company elects to refund the price of the goods the goods shall be returned to the Company at the Company's request and at the Company's expense.

8.5 The Company accepts no liability in relation to goods damaged as a result of failure to follow published instructions or damage caused to the goods after delivery.

8.6 The Company's total liability in contract or tort shall be limited to the contract price. This limitation shall not apply to liability for personal injury or death, fraud or any other matter which it will be illegal for the Company to exclude or attempt to exclude.

9. Returns

Returns will be accepted within three months of delivery provided the goods (exclusions apply - see below) are returned undamaged and with full packaging. It will be subject to a handling charge dependant on condition of goods and packaging and will in any event be a minimum of 20%.

9.1 Returns for the following products will not be accepted under any circumstances:

- All shower enclosures
- All shower trays
- All baths (free-standing & non)
- Washbasins with extra tap holes
- Coloured ICON ceramics

9.2 Returns may submitted directly to returns@saneux.com providing the following is mentioned:

- Saneux Delivery Reference
- Date of Purchase
- No. of products to return
- Product codes
- Reason for Return
- Image of box in perfect condition

10. Assignment

10.1 The Company shall be entitled to assign the benefit of the contract.

10.2 The Buyer shall not be entitled to assign the benefit of contract.

PRODUCT GUARANTEE

Please refer to each product section for guarantees.

The terms of our guarantee are as follows:-

1. The guarantee only applies to products which:
 - 1.1 are installed in accordance with the fitting instructions supplied, with the products for use in a bathroom with suitable ventilation or a suitable extractor fan; and
 - 1.2 Where the product is a cistern or a tap, it is fitted in accordance with current local and national water regulations; and
 - 1.3 Where the product is a **Saneux** solid surface, it has been stored flat at normal room temperature prior to installation.
2. In the unlikely event that a product supplied by **Saneux** - to which this guarantee applies - fails within the guarantee period from the date of purchase, **Saneux** will supply the customer with a free replacement for the part of the product that has failed, if such failure arises in **Saneux's** reasonable opinion from defects in manufacture or quality of materials and notice in writing giving details of the defects about which there is a complaint given to **Saneux**. The replacement part supplied will be the nearest equivalent to the failed part available in **Saneux's** range at the date the replacement is supplied. Liability is limited to individual products and does not cover consequential loss or damage. The customer will be required to pay the cost of installation of the replacement part. Your statutory rights remain unaffected.
3. The provisions of this guarantee do not affect the customer's statutory rights.
4. The **Saneux** guarantee is limited to the original purchaser and cannot be transferred; this includes the purchasing of ex-display items.
5. To obtain replacement parts in accordance with the provisions of this guarantee please contact the retailer who originally supplied the products.
6. The guarantee only applies to products which are cared for and cleaned in accordance with **Saneux** care and maintenance instructions.

SANITARYWARE

It is the responsibility of the individual installer to ensure the products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee. When installing **Saneux** wall-hung sanitaryware, please ensure the appropriate fixings are used or alternatively a suitable framework.

Sanitaryware dimensions stated should be given a 5% tolerance.

There is a lifetime Guarantee on all sanitaryware products supplied by **Saneux** against manufacturing defects.

BATHROOM FURNITURE

Although designed for bathroom use, bathroom furniture will deteriorate through excessive water spillage, splashing or condensation. Claims cannot be accepted if we regard the furniture to have had improper use. It is advised that all bathrooms are well ventilated using a suitable extraction fan. Furniture must be wiped dry after contact with water.

There is a five year Guarantee on bathroom furniture subject to our furniture care and maintenance guidelines.

CABINET FINISHES AND VENEERED FURNITURE

We cannot guarantee an exact colour match for cabinet finishes due to colour variations incurred as a result from print process. All cabinet finishes reproduced in this brochure should be used as a guide only.

When installing **Saneux** bathroom furniture into a new property or extension we strongly advise the building is dry, well ventilated and adequately heated.

In the production of **Saneux** bathroom furniture, great care is taken in the selection of material. However, due to the manufacturing process, it is not possible, nor do we feel desirable, to strive for total uniformity of shading and grain pattern. Our aim is at all times to operate with controlled parameters which recognize that some variation is both acceptable and aesthetically pleasing. There is a 5 year guarantee on all **Saneux** bathroom furniture against manufacturing defects.

ELECTRICAL PRODUCTS

Please refer to our bathroom regulations for electrical products.

If in any doubt, please consult a qualified electrician for more details.

BATHS

All baths are supplied undrilled.

All baths are manufactured from high quality 5mm cell cast acrylic and are fully reinforced.

There is a five year guarantee on all baths supplied by **Saneux** against manufacturing defects. Any defects must be reported prior to installation commencing.

SHOWER SCREENS

There is a five year guarantee on shower screens supplied by **Saneux** against manufacturing defects.

CONCEALED CISTERNS

There is a two year guarantee on concealed cisterns supplied by **Saneux** against manufacturing defects. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

BRASSWARE AND ACCESSORIES

All **Saneux** products, unless otherwise stated carry a 15 year guarantee, which covers all manufacturing defaults.

This guarantee does not cover damage during fitting, misuse or inappropriate cleaning, shower hoses, or cartridges as these are guaranteed for 1 year. Care should be taken in hard water areas to ensure the cartridge is regularly cleaned.

*All products carry a 15 year guarantee (with exception of shower hoses and cartridges which carry a 12 month guarantee).

WORKING PARTS AND COMPONENTS

There is a two year guarantee on all working parts and components supplied with any **Saneux** product, as long as installation has been carried out correctly.

Working parts of all toilet seats are limited to a 12 month warranty period.

TERMS & CONDITIONS

SAFETY INSTRUCTIONS FOR CERAMIC SANITARYWARE

To ensure a safe and correct installation, please read the instructions carefully:

- Installation and fixing of the ceramic sanitary ware and accessories to be done by a skilled and trained professional.
- Before installation kindly check the sanitary ware for any damages.

If found damaged the product can:

- Cause injury to the user
- Result in water leakage
- Affect the product feature
- Ceramic sanitary ware is fragile. Handling and installation should be done very carefully.
- Avoid jerks and bumps during installation.
- Check the location of mounting and fitting holes before installation. Kindly refer to the instructions specified in the installation manual.
- Installation of sanitary ware should be in horizontal position. Kindly verify with spirit level before use.
- During installation and before connecting to the water supply kindly flush and clean all the outlet and inlet pipes for sand, rubble and trash particles.
- After installation we strongly recommend that the sanitary ware should be securely covered to prevent contamination or damage by any form of building materials such as paint, plaster, tile adhesive, grout or sealants until all building and finishing work is completed.
- After installation kindly check for the grip of the ceramic sanitary ware on the mounted surface to prevent injuries. If the fittings are found lose the product can:
 - Fall down and cause injury to user.
 - Result in water leakage.
- Maximum weight resistance and stability for:
 - Wash Basins – NOT MORE THAN 150 KILOGRAMS
 - Water Closets – NOT MORE THAN 400 KILOGRAMS
 - Bidets – NOT MORE THAN 400 KILOGRAMS

GUIDELINES FOR USE OF CERAMIC SANITARYWARE

To ensure the longevity of the product, kindly follow the instructions carefully:

- Flush the piping with plenty of water prior to installation. It is recommended to use filter taps
- We recommend the use of soft water for all products. If necessary install a water softener
- Do not clean the products with concentrated acids (HCL, HFA, H₂SO₄).
- Do not use sharp edges/iron brush for cleaning.
- After use all products should be maintained by wiping with a soft, damp clean cloth
- Do not expose the ceramic to fire
- Avoid physical and thermal shock during use

We have a policy of continuous improvement and reserve the right to change the specification without notice.

CARE INSTRUCTIONS

Limescale cleaner can be used if necessary, however it should not be used for everyday cleaning and it should not come into contact with metal parts.

Sanitaryware

All ceramic surfaces – washbasin (not unit), WC Pan and seat should be washed with a mild household detergent and warm water. Limescale and other deposits should not be treated with an abrasive remover.

Brassware / Chrome surfaces

Tap, bath waste, shower rail, shower valve and flush plate. Again, these should be washed with a mild household detergent. These can be polished using a non-abrasive buffing cloth. Do not leave the detergent on the products for any period of time.

In order to preserve the original look of your mixers, it is necessary to observe the following instructions for care:

To remove dirt and lime scale stains clean the mixers with water and soap or specific products for chrome-plated surfaces and rinse with clean water and dry with a soft cloth.

Avoid using detergents or acids, rough sponges or steel wool on chrome-plated, coloured, gold-plated or burnished surfaces.

For the plastic or rubber parts do not clean with alcoholic, disinfectant detergents or any solvents, but follow the same procedure as for the mixer body.

Under basin furniture

This should be wiped clean with a soft clean cloth. After use and contact with water, please remove water deposits.

Usage:

Please note; our furniture cannot be used in wet rooms or rooms with minimal ventilation. Our furniture should only be used in clean dry environments at room temperature. It should also be situated away from sources of heat and sunlight. Exposure to these sources will cause the vinyl to crack and peel. Therefore this is no covered in our product guarantee.

Cleaning:

Do not use abrasive cleaners, solvents, polishes, waxes or steam cleaning tools. As a precaution to test the suitability of a cleaning product, apply to an inconspicuous area, minimising the time of exposure and the amount of cleaning agent (diluting as recommended by the supplier) in order to prevent any damage to the surface.

Baths

These should be washed with a mild household detergent and warm water. Limescale and other deposits should not be treated with an abrasive remover.
