OF LUXURY  
|

## DESIGN TO DELIGHT YOU

We believe design should delight you. You should love it. It should make you smile. The St James Collection by Marflow is born out of a passion; blending classic design influences with exquisite materials and current technologies to create the highest quality, hand crafted, British traditional bathroom products.

The St James Collection's Victorian period style, evolved with contemporary elegance, allows your bathroom design to come to life with bespoke hand finished details and luxurious customisable options.

Our heritage and expertise in the field of bathrooms along with our innovation, ensures that our taps, showers and bathroom accessories offer you the ultimate choice to create something beautifully unique. We really hope you enjoy the experience.

## A DISTINCTLY BRITISH HERITAGE

Esteemed in British heritage, the St James Collection has been crafted in England with love and care since 1968.

We are immensely proud that British manufacturing is at the heart of our passionate in-house team in Birmingham. Our products incorporate only the finest materials and together they allow us to give you the highest possible levels of quality control.

All our plating is done in the UK by renowned British platers and our porcelain is sourced from British potteries.

*Marflow's brassware is both reliable and beautiful. Its superior quality and precision engineering gives me confidence and I admire the attention given to the all-important design details. The beauty of the St James Collection is that it embraces the elegance of the Victorian era but has contemporary design influences that work with most interior styles.*

*Kate Hill, Interior Designer and Stylist*

## CHOSEN BY THE BEST

Adorning the majestic bathrooms of luxurious private residences including Windsor and Belvoir Castle to internationally acclaimed 5-star hotel bathrooms, the unrivalled quality of the St James Collection has a magnificent presence and is the trusted choice of discerning customers all over the world.

King Street Townhouse hotel, UK

## — SHOWERING —

Showers are often overlooked in the style stakes with baths prioritised for the glam treatment, but beautiful showers are our speciality. The luxurious options from the St James Collection mean showering can be the truly indulgent experience it should be. With a wide selection of thermostatic valves, shower roses, and accessories you can create a bespoke shower just as you like it. The possibilities are endless as you explore shower valve style, shower rose sizes and handle finish options to create the perfect showering experience you desire.

Our concealed thermostatic valve with engraved concealing plate have been hand crafted exclusively for the St James Collection to provide timeless luxury.

With a unique Art Deco inspired angular shape providing a backdrop to our Crystal Edition handles, to the classic plate shape that elegantly showcases all our porcelain and metal handle options, there is a design that will delight you.

Concealed shower valve, clear crystal handle, bright nickel

The St James Collection was revered from its early days with the iconic design of our traditional thermostatic shower valve; a flagship product of beautiful proportions provides authentic elegance coupled with modern performance.

Exposed traditional shower valve, England lever & England handle, brushed copper

Exposed traditional shower valve, London lever & London handle, chrome.  
18mm overhead shower arm & diverter valve, with riser rail and cradle

Exposed classical shower valve with two function diverter, England handles in black with hand shower on cradle and riser rail. All bright nickel with black porcelain detailing

*The St James Collection thermostatic shower valves and their internal cartridges are best in class.*

## — TAPS —

Our range of basin & bath taps is at your fingertips and there really is a style for all design influences. Cross tops or mixers, cloakroom style or lever handles, wall mounted or deck mounted, the choice is yours. Their shape and finish can play a part in the overall look of your bathroom so enjoy the choice you have with the St James Collection.

Tall basin mixer, England handle, chrome

From cloakroom taps to mono mixers, two-hole to three hole basin taps all with a selection of handle styles and finishes, enjoy the choice you have with the St James Collection.

Three hole basin mixer with colonial spout,  
black crystal lever, brushed nickel

Three hole basin mixer, England lever in black, bright nickel

ST JAMES  
ENGLAND

Hand crafted standpipes are the perfect accompaniment to any traditional freestanding bath.

From wall mounted bath taps to traditional bath shower mixer taps, all with a choice of superb finishes, the St James Collection of tap styles make baths truly beautiful.

Three hole wall mounted bath filler with engraved concealing plate. England lever in black, antique gold

Our bath shower mixer taps are available with a choice of mounting options to make the end result truly exquisite.

Bath shower mixer taps with cranked legs, London handle in black, dark nickel

## — ACCESSORIES —

### THE EXTRA LITTLE TOUCHES

We know how important it is to complete the overall look so we're also here for you with the finer details. From heated towel rails to mirrors, toilet accessories to soap dishes, you won't want to lose focus when it comes to the little things.

Choose from our wide range of accessories to ensure they complement your bathroom choices, and seamlessly fit in to your overall design scheme. Match the finish to your taps and shower finishes, then select from metal or porcelain stems to create the 'effortlessly classy' impact and style that will never go out of fashion.

## — HANDLES — THE TOUCH OF LUXURY

You can feel the difference when you experience luxury; the detail of the ergonomic design, just the right level of resistance in the precision of turn. With the St James Collection our handles blend beautiful design and expert craftsmanship to create a feel like no other.

Choose from cross top or lever handles, each exquisite in their own way and designed to suit your style. London style handles include porcelain lever options, or explore a more contemporary look with our England style handles with metal lever handle options available in all finishes.

For those of you looking to raise the glamour stakes, our gorgeous Crystal Edition handles incorporate Swarovski® crystals at their very core.

All look stunning in Victorian inspired traditional homes, Art Deco styled homes and contemporary minimalist homes.

## — FINISHES —

### YOUR BESPOKE STYLE

The St James Collection enables you to personalise the finish of your chosen items to really satisfy individual design style with the most comprehensive selection of finishes you could hope for.

Antique Gold, Brushed Nickel, Bright Nickel and Chrome have been firm favourites for many years, and new to the collection are fresh colour options of Rose Gold, Brushed Copper, Brushed Brass and Dark Nickel. Combine this with bold black or cool white indices/levers to make a stunning style statement.

Our designs are classics and when blended with on trend brassware finishes and beautiful porcelain details you're guaranteed an end result that is truly stunning.

## ENGINEERING EXCELLENCE

We constantly refine and perfect every component, every procedure and every technique to ensure excellence in the design and assembly of our bathroom products.

Our components are cast from solid brass then hand polished, ensuring a superior quality. Using only the finest materials, attention to detail is what we live for in our hand finished showers, taps and accessories.

We revel in bringing traditional brassware to life. The shower roses in the St James Collection are all hand spun and available in three distinct styles, and sizes range from 100mm to 300mm. This is true luxury with all our products built to last.

## OUR TALENTED TEAM

We use the latest technology combined with age-old craftsmanship to create products that stand the test of time. All our castings, pipes and diverters are made by our expert craftsmen and women to secure the highest levels of quality control in-house.

We're passionate about our customers benefiting from generations of experience and in investing in UK manufacturing - there really is no substitute for these delicate, honed skills and taking time with the personal touch.

We constantly invest in research and development to help inform our in-house CAD product design team, to ensure we continue to innovate and delight our customers.
