PAINTED colour PALETTE

OAK | WALNUT | TRAVERTINE | GRANITE | MARBLE | STAINLESS STEEL

KEEPING *it* NATURAL

Solid wood and natural stone - a divine combination of materials that appeal to the senses, yearn to be touched, and are a pleasure to have in the home. Together they have a tactile beauty and authentic elegance made ever present by the keen eye of Stonearth designers and artisans. Each piece of bathroom furniture is handcrafted to reveal its one-of-a-kind natural beauty, producing honest, powerful, strikingly beautiful, and above all unique items that will transform your home.

Bathing the way **nature intended**

Imagine a bathing space where you feel natural stone under your feet as you shower, can hear the sound of water running in a room rich with solid wood, and luxuriate in a smooth and sensuous travertine bath as you enjoy a little me-time.

Stonearth bathrooms are inspired by nature, designed by experts, and made for indulgence that can be enjoyed every day. This is your chance to bring the best of the outdoors inside and bathe the way nature intended.

NEW!  **PAINTED *colour* PALETTE**

The Painted Palette from Stonearth, four harmonious hues inspired by nature. These luxurious tones are guaranteed to bring the best of the outdoors into your home. Each colour evokes dreams of luxury retreats, far away adventures, and idyllic escapes – colours memories are made of.

STONEARTH *palette*

Four natural hues inspired by nature

The Perfect Palette is an indulgent and luxurious way to bring the essence of the outdoors into your home. The sensuous appeal of polished stone and the tactile warmth of solid wood is enhanced when combined with tones taken from the natural world. Each colour was chosen for its power to inspire dreams of luxury retreats and idyllic escapes to faraway places.

Forest Fern

A tropical paradise awaits you

FOREST FERN

SANDY BAY

Sandy Bay

Feel the bliss of a sun-kissed beach

Summer Cloud

Relax and unwind in the soft bright light of summer

SUMMER CLOUD

Rocky Retreat

Experience the essence of a mountain-top spa

ROCKY RETREAT

Products in the painted range combine a perfectly painted finish outside with the elegance of exposed oak inside. This contrast is a subtle reminder that we only ever use the highest quality solid wood for our bathroom furniture.

THE *Painted* PALETTE

by stonearth

Natural Tones
that bring a little luxury home

The crisp clean feel of the freshest linen.

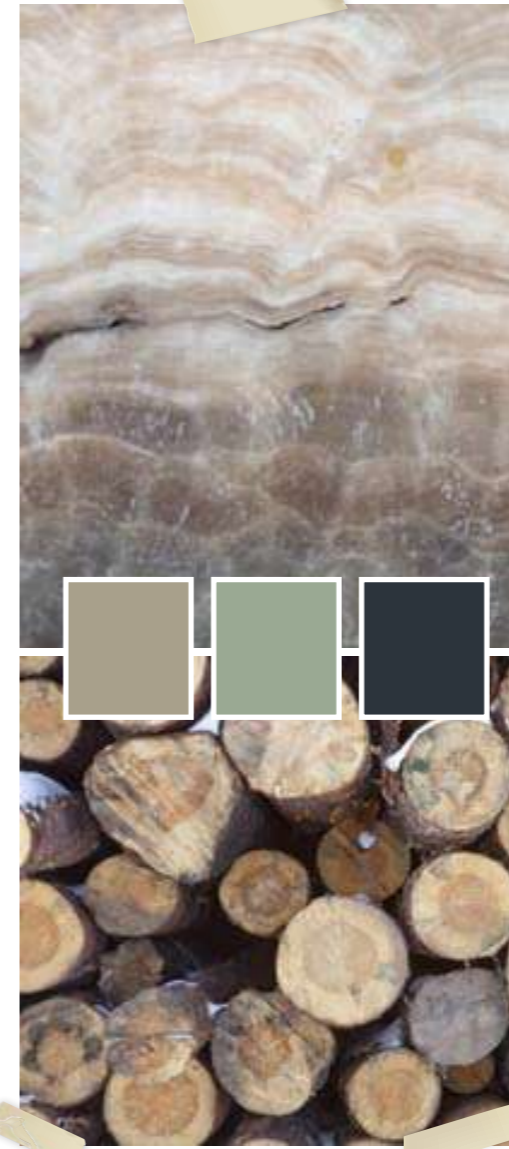

Looking for that spa-like feel in your bathroom?

Choose hues that are harmonious with nature, guaranteed to bring the best of the outdoors indoors during your very special me-time!

The Perfect Palette

elicits dreams of luxury retreats, far-flung adventures, and idyllic escapes.

Inspired by nature

Bring the feeling of a luxury break home with the Stonearth Palette, inspired by nature herself! The sensuous appeal of polished stone and the tactile warmth of solid wood is enhanced when combined with tones taken from the natural world. Choose from four hues that promise to indulge your senses the way nature intended, essential when you need a little pamper-time.

As soft as the sun-kissed sands of distant shores.

Unique colour match service

Now you can bathe in the colour of your choice when you choose fully customised luxury bathroom furniture from the Stonearth painted colour range. Our unique colour match service ensures that you can get the real bathroom of your dreams – simply send us a swatch and our artisans will colour match your handmade furniture, creating a beautifully hand painted product that is **TOTALLY UNIQUE** to you.

Bring your treasured memories home with colour. Tranquil azure seas, ancient ochre archways, sunlit emerald leaves... whatever colours your memories are made of, you can transform your space, and indulge your senses by bringing that special shade into your home.

Simply send us a swatch of any colour you desire and we will colour match so that your bathroom is **TOTALLY UNIQUE** to you

why choose stonearth?

10 GREAT REASONS

1 100% Solid oak & walnut
And we mean natural solid wood – outside, inside and everywhere in between. It's built to last because only the best will do.

2 Real natural stone
When it comes to our basins and baths, every piece is a one-off, expertly shaped and polished to perfection by our skilled stonemasons.

3 Six sizes 500mm – 1500mm
Family bathrooms. Cloakrooms. Double vanity basins. We've got them all covered. And because it's modular with many matching products, creating a natural-look is a cinch.

4 Traditional carpentry work
We frown upon flat-pack furniture. Proper mortise and tenon joints are a must. They're fiddly to make, but they're the strongest kind of joints and should go on and on.

5 Taps & basins where you want
Most bathroom suppliers dictate what you can have where. We believe you should have what you want, so tap and waste holes can be tailored to your scheme at no extra cost.

6 **NEW** Painted colour palette & Any colour colour match
Now our customers can add another level of customisation and choice to our already outstanding service – pick from our painted palette or send us a swatch for colour matching for all our solid oak products.

7 Flexible storage solutions
Clever storage solutions are a must in a well-designed bathroom. Built-in cabinet storage? Tight wall space? Like the wall-hung look? Whatever you want, we've got it.

8 Quality stainless steel taps
Get the details right, get a quality look. Unlike more conventional brass and chrome materials, stainless steel doesn't contain lead and as a solid cast the tap will be longer lasting too.

9 Blum soft close as standard
There are no noisy-closing drawers and banging doors on our watch. We insist on Blum Soft Close. They're the best on the market and don't make a sound.

10 Built for splashes
Splash away. We lacquer our wood and seal our stone giving them first-rate protection from humidity and staining.

Robust Construction that is built to last

Call us old fashioned, but we believe in building furniture using solid natural material the proper way. We don't use veneer. We use thick solid hardwood throughout the carcass, doors, shelves, and in all hidden places. The reason – because it's built to last and you can tell what quality is when you see it.

Create your own style

Mix and match to suit your style! Solid wood base units can be paired with any of our countertops and basins, available in three premium natural stone materials. Exclusive hand finished natural-edge travertine tops are also available, ideal for adding a unique accent of nature untamed to your design.

Perfectly painted exterior

Whether you choose a nature-inspired shade from the Stonearth Palette or a tone of your own in our Colour Match service, you can be assured of a luxurious look with the true grain of the oak exposed inside.

Durable finishes & easy maintenance

Our solid hardwood creations are coated in 3 layers of water resistant clear lacquer both inside and out. This gives the natural material good protection from high moisture levels in the bathroom. All natural stone surfaces are treated with the leading Lithofin® natural stone sealant for the best treatment against staining. This is what makes Stonearth bathrooms easy to maintain and long lasting.

handmade IN SOLID WOOD

Zero Veneer

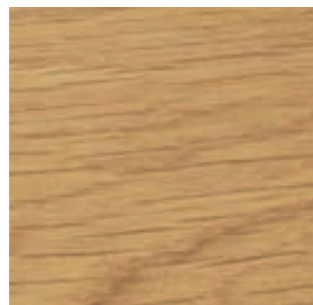

100% Solid wood

No veneer, no composite, just premium quality oak and walnut - inside and out. Every piece in our collection is made from 100% solid wood, handcrafted using traditional techniques to guarantee long lasting quality and a superior finish.

The wood we source is chosen for its distinctive tone and superior grain, natural variations that give each piece unique appeal. We believe that outstanding craftsmanship is what good quality materials need, which is why the oak and walnut bathroom furniture we produce has an exclusive and luxurious feel.

Stonearth products are meticulously hand-built using the very best traditional cabinet making techniques. Our highly skilled craftsmen are experts at making precision engineered in-frame doors and carcass frames using mortise and tenon, and dovetail joints. These solid wood creations are then finished with three layers of clear lacquer inside and out to enhance the aesthetics of the wood as well as protect it from bathroom moisture. Finally, we use the latest hinge and runner technology to give every door and drawer an ultra-modern feel.

You'll be surprised at the turnaround time (typically 2 - 3 weeks) for handmade Stonearth products. To find out how soon your dream bathroom could become a reality call us on **0115 714 8030**.

Wood Choice

In the hands of great designers, the warmth, elegance, and unique natural beauty of solid wood is revealed. Oak has a distinctive grain that comes alive with quality craftsmanship; and the more subtle beauty of walnut, traditionally reserved for the finest of cabinet work, can only be exposed by the finest of cabinetmakers.

Down to the finest detail...

Our attention to detail means you get the best of both worlds - traditional craftsmanship and modern finishes and fixtures. Our solid hardwood creations are triple-treated with lacquer to bring out the beauty of the natural grain, while at the same time providing outstanding protection from the high levels of moisture in a bathroom; and we never skimp on up-to-date technology. All of our hinge and drawer systems feature the Blum® soft close mechanism so you get a silent, effortless closing action.

Stonearth stonemasons can shape fabulous curves that other bathroom companies won't even attempt. If you are looking for a truly exclusive and luxuriously crafted premium stone piece for your bathroom, there really is no better choice.

REAL STONE

Delicately handcarved
from solid blocks of marble and granite

Natural stone is by its very nature made to last, it is solid, enduring, dependable, and it has a rugged beauty that can be refined in the right hands. Within each block of granite, marble and travertine we source lies a unique masterpiece waiting to happen - graceful veins and patterns that can only be revealed by our highly skilled stonemasons.

Every washbasin, bath, shower tray and countertop we produce is completely unique. Unlike a stone composite or resin mix - which is moulded into shape on a production line - natural stone is individually hand-shaped and polished to perfection, resulting in a one-of-a-kind natural product. Our designers will also make sure that the fixtures, fittings, and tap and waste holes are exactly where you want them, creating bathroom furniture totally exclusive to you.

Whether you choose sleek and modern Black Granite, warm and traditional Beige Travertine, or luxurious and elegant Galala Marble, you can be sure that your sensuous new stone products will be easy to keep pristine. Stonearth natural stone surfaces are pre-treated with Lithofin® Stain-Stop Impregnator, the leading premium stain protector that will help keep your purchase looking better for longer.

Be inspired by stone

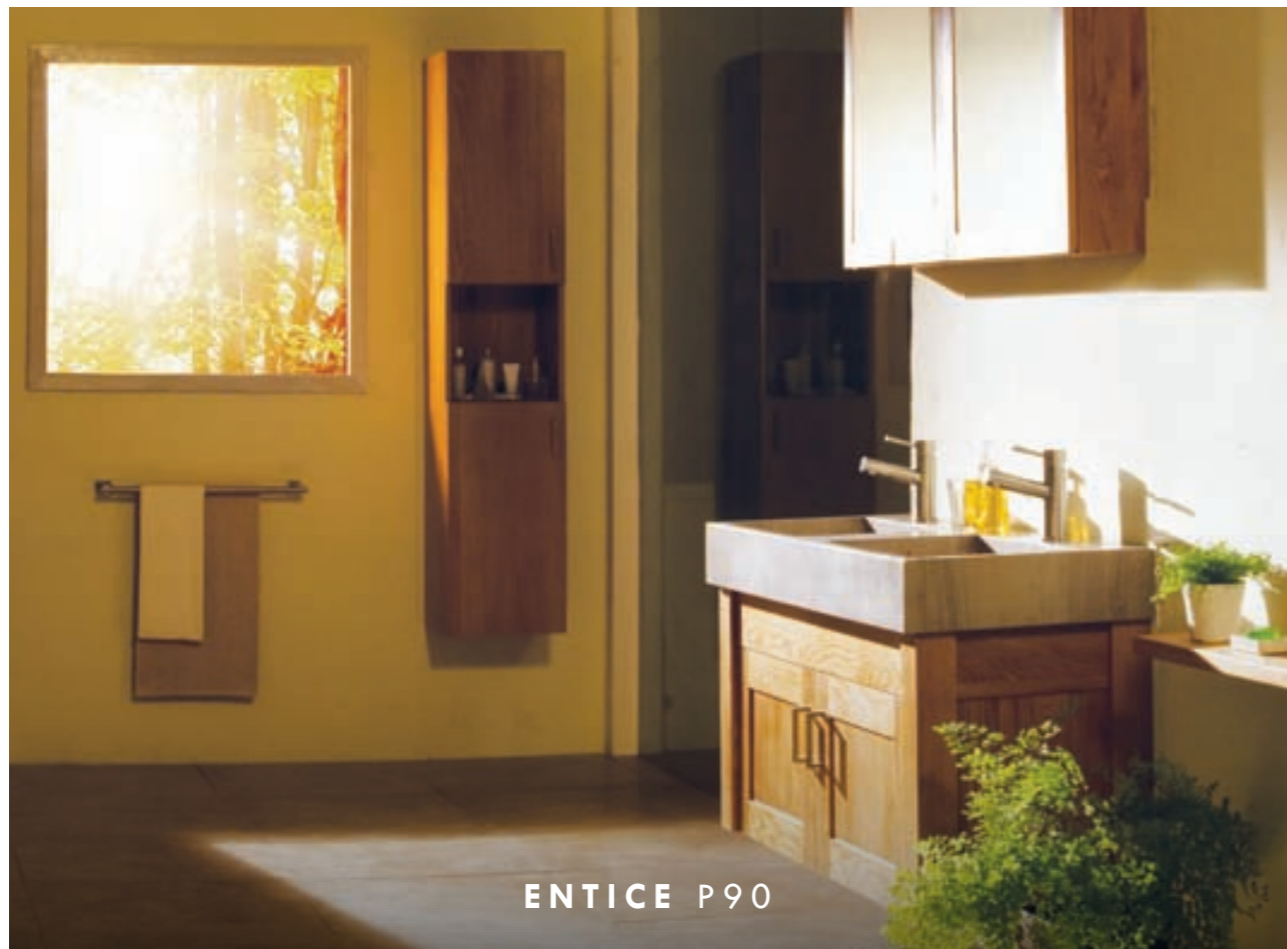

Three premium natural stones, a range of colour combinations, and an inspirational design team ready to make your dream bathroom a reality. Whether you want a statement countertop basin, exclusive natural-edged countertops, integrated inset basins, just let us know.

It's easy to design your own unique natural bathroom with Stonearth. We have extensive ranges of matching natural stone and solid wood bathroom furniture, and all the accessories you need to create everything from an open-plan family bathroom to a small-scale restroom downstairs. See our combination guide on **page 156 - 161.**

 Wall hung storage cabinet – oak x 2

Luxurious storage solutions

In the hands of great designers, there is no such thing as compromise. Our versatile range of storage units, shelving, and mirror cabinets is made to match the designs of our luxury washstands, completing the look of your designer bathroom without ever sacrificing storage space.

- A. Horizon inset basin – large double granite
- C. Venice washstand – large walnut
- D. Mirror cabinet – mini walnut x 2
- E. Shelf – large walnut
- Wall hung storage cabinet – walnut x 2

- A. Pebble basin – travertine
- B. Travertine top – small for wall hung
- C. Venice washstand – small walnut
- D. Mirror cabinet – small walnut
- E. Wall hung storage cabinet – walnut x 2
- Shelf – medium walnut x 2
- Wall cabinet – mini plus walnut x 2

Solutions for smaller spaces

Create a sense of space with wall hung furniture options for a sleek floating look. Use a mixture of slim projection cabinets and shelving to provide plenty of storage for that uncluttered look. We have sizes to suit most bathroom projects, from cloakroom to double basin options.

Visibly Superior Cabinetmaking
 Traditional joinery has a quality that cannot be matched by modern manufacturing techniques. Take a look at these Dovetail and mortise and tenon joints made by our highly skilled craftsmen - experts at making precision-engineered furniture by hand. They are time consuming to make, but they're much stronger and have the finely crafted look we love, so we think it's worth the effort, don't you?

A. Horizon inset basin – small galala marble
 C. Venice washstand – small oak
 D. Mirror – small oak

E. Shelf – small oak
 Wall hung drawer – small oak
 Wall cabinet – mini oak
 Wall hung storage cabinet – oak
 G. Hali stainless steel tap

SUMMER CLOUD

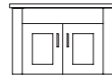

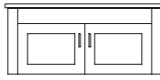

ENTICE

Solid wood wall hung cabinet washstands

Maximise space without compromising on style with the Entice range. The floating effect and sleek, simple cabinet design delivers an air of understated elegance. Perfect for creating bathrooms with a classic aesthetic, enhanced by a contemporary twist.

- Choose from 3 sizes
- Hand constructed in solid oak
- Available in the natural wood finish, or painted in one of the shades from the Stonearth palette
- Option to customise with our any colours Colour Match service
- Traditional cabinetmaking techniques with mortise & tenon joints
- To be teamed with our travertine, marble or granite counter-top and basins (see pg. 104 - 115). Or inset basin ranges. (see pg. 116 - 119)
- Matching mirrors and storage available (see pg. 142 - 149)

**Solid wood inside and out -
built to last, by hand**

Every piece in our collection is made from premium quality solid oak and walnut. No veneer, no composite, just 100% solid wood – even the bits you can't see. We believe everyone can recognise quality craftsmanship when they see it; by using solid hardwood throughout we can guarantee a long lasting quality and a superior finish for all our bathroom furniture.

FOREST FERN

PETITE

Washstand sets

Stand out from the usual “small-space” crowd with the Petite range. Whether you are kitting out a cloakroom, ensuite or smaller bathroom, this striking and space-saving geometric design will achieve the luxury look you are after. For an extra streamline look, the washstand can be paired with matching back to wall WC units.

- Slim projection to suit smaller bathrooms
- Available as a floor standing cabinet to hide unsightly pipes or wall-hung for a sleek floating look
- Hand constructed in solid oak or solid walnut
- Available in the natural wood finish, or painted in one of the shades from the Stonearth palette
- Option to customise with our any colours Colour Match service
- To be teamed with our travertine counter-top and Mini Nova basin (see pg. 106 - 111)
- Matching mirrors and storage available (see pg. 142 - 149)

COUNTER TOP & BASINS

Handcarved natural stone is an exquisite way to bring the formidable beauty of the natural world into your home. A sensuously smooth stone basin, carved from a single block of stone can only be achieved by the most experienced of stonemasons. It takes extreme precision and skill to produce such a stunning focal piece that is as much a work of art as it is a functional piece of bathroom furniture.

Natural stone

We offer one of the widest ranges of natural stone statement basins on the market

Available in three natural stone materials – beige travertine, Galala marble and black granite

BEIGE TRAVERTINE

Organic shapes

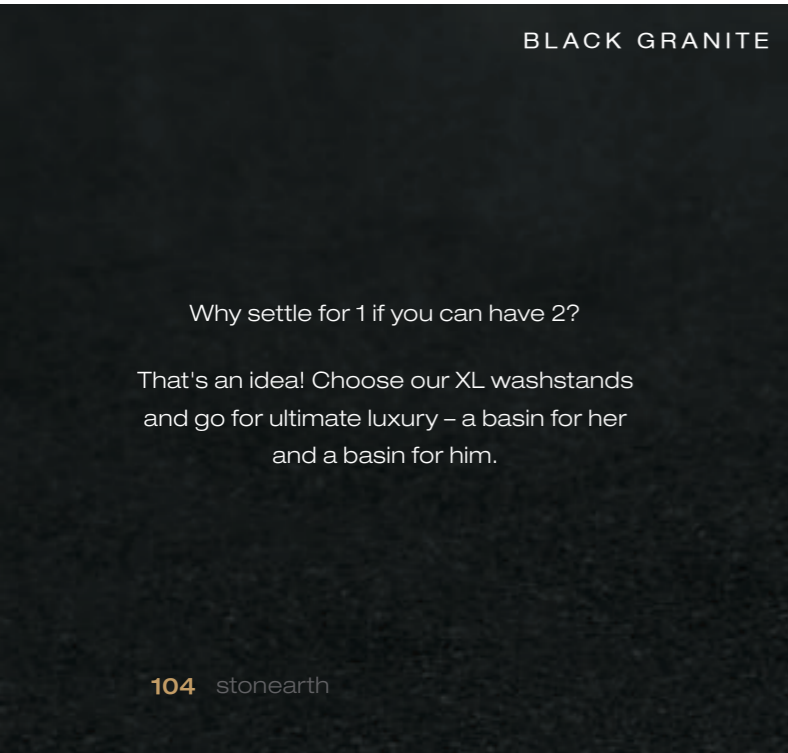

Using a time-honoured hand-carving process, our stonemasons reveal the undeniable beauty of stone the most natural way.

Spoilt for choice

10 countertop basin designs

2 ranges of under-mounted or seamless inset

BLACK GRANITE

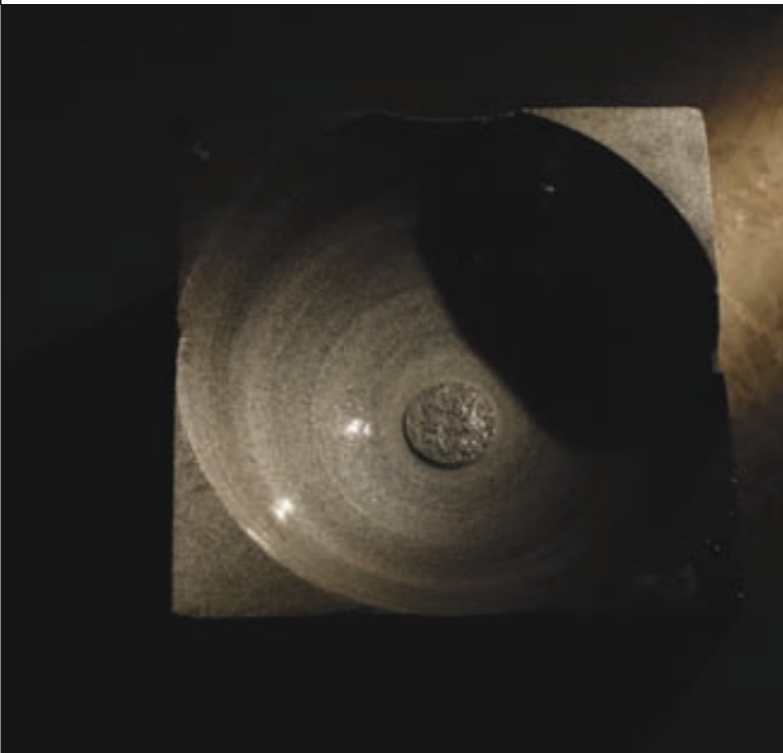

Carved NOT moulded

Handcrafted from single blocks of marble & granite in 3 different materials

Why settle for 1 if you can have 2?

That's an idea! Choose our XL washstands and go for ultimate luxury – a basin for her and a basin for him.

GALALA MARBLE

Mix and match Counter Top & Basins with the entire Stonearth range – see our combination guide on **page 156 - 161**.

GALALA MARBLE

STONE COUNTERTOPS

Available in black granite, beige travertine and galala marble
 Stone counter-tops generally overhang the washstand by 20mm at the front and the 2 sides.
 Complimentary Hole Drill Service: Standard size tap holes and waste holes can be drilled according to the positions of the taps and basins upon request.

WHY DO WE CHOOSE *stainless steel?*

Compatibility

Whilst the majority of Stonearth taps and shower products are compatible, care should be taken on product selection in terms of sizes and suitable water pressure prior to ordering to avoid installation issues. Suitable minimum water pressure for all taps and shower products have been indicated in the product information.

Safety and Water Quality

Stainless steel is free from heavy metals like lead, nickel and tin – making it toxic free and safer for the whole family.

Many taps on the market contain toxic elements that leach into the household water supply, and pose a serious health hazard. This is why stainless steel is so widely used in the food industry.

It simply looks better than chrome!

The Stonearth range of toxic-free stainless steel taps, showers and bathroom accessories have been picked by our designer as the matt finish and the tactile feel of the stainless taps really complement our designs. They're the perfect finishing touch!

Durability

Stainless steel is resistant to acid, alkali and corrosion, and because it is solid throughout the natural stain resistance and corrosion resistant properties will last and last.

Taps that have plating rely on a coating which will deteriorate or chip over time – these taps and accessories don't even come close to stainless steel's usage life of over 50 years!

No Peeling Coating

Unlike other taps on the market which are coated with a thin layer of chrome and nickel, our stainless steel taps are solid stainless steel throughout, so there is no coating to damage and their quality sheen will not be compromised.

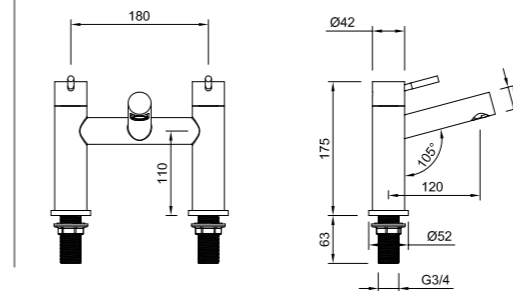

Our Stainless steel taps are naturally stain resistant, and there are no pores or cracks to harbor dirt, grime or bacteria neither.

FEATURES & BENEFITS

100% solid wood

Natural material has that certain charm that we all crave, and that's why at Stonearth, we only use 100% oak and walnut to make your furniture. It might be a simple idea, but when we say we only use solid wood we mean solid wood - not oak 'finishes' or real wood veneer, or mostly solid wood. Let the inherent beauty, the unmistakable warmth, and the authentic knots and grain of wood speak for themselves. Solid wood brings with it an understated elegance, a confident presence that works well in almost any setting.

Real natural stone

Real granite and marble brings elegance and sophistication into any space. The human eye can recognise the graceful asymmetric veins and patterns of a genuine stone that no replica or resin moulded alternative can match. Our luxurious selection of washbasins and countertops are finished from single solid blocks of granite, marble and travertine. Natural stone cannot be moulded or be put through a production line, hence each and every piece is hand carved and polished to perfection. Our long established stonemasons devote hours of delicate carving to bring you a stunning yet functional piece of art to be enjoyed and admired.

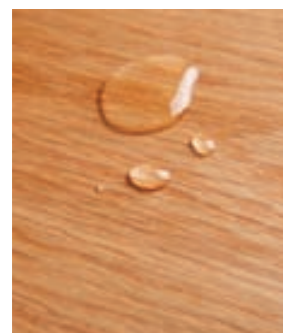

Design & craftsmanship

Excellent craftsmen make excellent designs. Our talented group of experienced carpenters and stonemasons are able to hand-craft fabulous shapes from stone and achieve beautiful joinery details in wood, which many others would not even attempt. Stonearth designs reflect an appreciation for the dignity of natural materials, so product designs should not overpower the characters of the authentic material. Design at Stonearth is about a harmony of proportions and detailing that complement the natural charm of the material. Because good craftsmanship is all the good material needs!

Handmade to last

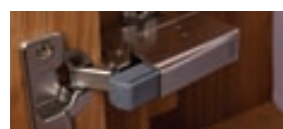

Call us old fashioned, but we believe in building furniture using solid natural material the proper way. We're committed to not taking shortcuts in the engineering or the material and this means not using veneer. We use thick solid hardwood throughout the carcass, doors, shelves, and in all hidden places. We bring to you the best of traditional carpentry techniques by making up frames using mortise & tenon or dovetail joints. The reason - because they're the strongest kind of joints around and should last the lifetime of the product. And because you can tell what quality is when you see it!

Durable finishes & easy maintenance

Our products are built for the splashes of a busy bathroom. We lacquer the wood and seal the stone to give them outstanding protection from humidity and staining. This is what makes Stonearth bathrooms easy to maintain and long-lasting.

Our solid hardwood creations are coated in layers of water resistant clear lacquer both inside and out. The lacquer brings out the beauty of the natural grain, and gives the natural material outstanding protection from the high moisture level in your bathroom. All natural stone surfaces are treated with the leading Lithofin® natural stone impregnator for the best treatment.

Soft-close mechanism as standard

Have the best of both worlds with traditional craftsmanship and modern day fixings. All hinges and drawer mechanisms feature the Blum® soft close systems for silent and effortless closing action. It's the details that count!

FEATURES & BENEFITS

The simple Modular System

We want you to feel at home in your bathroom. With a simple modular system, Stonearth empowers you to create a space that is entirely your own whilst retaining a natural vitality. Featuring an interchangeable modular collection that incorporates 8 washstand ranges, 13 basin designs, across 6 types of material and 7 popular sizes - the choice really is yours. The endless design combinations mean you can create a personal space that is as individual as you are. It really is as simple as ABC.

Our order form will guide you through the ordering process along with a few consideration pointers. To ensure that the products you select would work together as a set, our technical consultant will check them through for compatibility, so that you can let your creativity run free.

Flexible basin and tap layout

There is no restriction to tap choices and layout as tap and drain holes are drilled to your specification. We produce a complimentary layout drawing with every order to ensure your choice of components work seamlessly together. Our design consultants are on hand to help you with any design or technical queries.

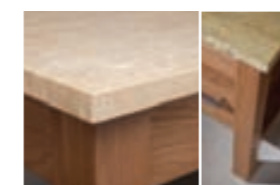

Plenty of storage

In your dream bathroom you should not have to compromise on aesthetics or functionality, and with our versatile range of mirror cabinets and storage solutions, you won't have to! The matching material and designs help you get the designer look effortlessly.

Solutions for smaller spaces

We have sizes to suit most bathroom projects, from cloakrooms to double basin options. Our Petite range on pages 98 - 103 are perfect for the en-suite and cloakrooms. Create a sense of space with wall hung furniture options for a sleek floating look. Use a mixture of slim projection cabinets and shelving to provide plenty of storage for that uncluttered look.

Ready to install

With your furniture arriving fully assembled and constructed using heavy duty traditional mortise & tenon joinery, it's no fuss and ready to install. All units are supplied with handles. They are not pre-drilled so that you can decide how and where to have them. Thanks to our free tap & waste holes drill service, everything is taken care of before delivery.

Guarantees- a peace of mind

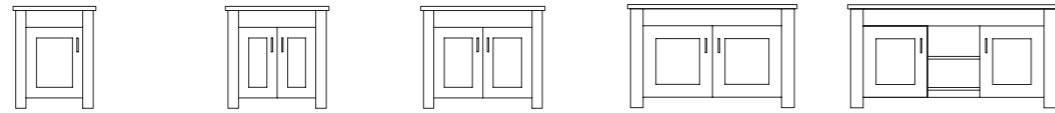

Stonearth products are built to last. By combining the best of natural materials and craftsmanship, a Stonearth bathroom should serve you well for many years to come. We're confident you won't need it but all Stonearth furniture and basins come with a 3-year guarantee against manufacturing defects for peace of mind.

All Stonearth taps and shower products, unless otherwise stated carry a 10-year guarantee against manufacturing defects on all products when used in normal domestic applications (excluding damage during fitting, misuse and inappropriate cleaning). Serviceable parts such as cartridges, shower hoses are guaranteed for 12 months. Stonearth bathroom accessories are guaranteed for 12 months. Care should be taken in hard water areas to ensure the cartridge is regularly cleaned.

Please refer to our website for full details. As wood and stone are natural materials and inconsistencies in colour or changes over time are part of its natural beauty.

TECHNICAL INFORMATION

the *natural* material WOOD

Real wood

The unique natural beauty of wood has the power to transform even the smallest of rooms into an indulgent sanctuary with a spa-like feel. Made of premium quality wood with a distinctive tone and superior grain, every one of our exceptional products promises to bring the very best of the outdoors indoors for you to enjoy.

Walnut

American black walnut

Reminiscent of rich dark chocolate with varied tones and a beautiful pronounced grain, walnut works exceptionally well in bathrooms. It is a medium density hardwood that has distinctive characteristics such as occasional growth rings and knots. American black walnut is one of the most valuable and desirable sustainable timbers in North America, a stable and durable natural material chosen to add a touch of luxury to a home.

Oak

American white oak

Oak is an elegant timber, warm and golden brown, with a naturally flowing grain. Its colour and grain consistency give it a timeless character well suited to quality cabinet making. American white oak is a hardwood and can be distinguished from other oak varieties by an attractive and occasionally silvery straight grain. This wood is often chosen for the understated elegance it can add to a room.

Protection

All our wood surfaces are protected from the splashes and moisture expected in busy bathrooms. We use three layers of water-resistant and maintenance-free clear lacquer which not only protects your solid wood furniture, but enhances the natural beauty of the grain too.

the *natural* material STONE

Natural stone

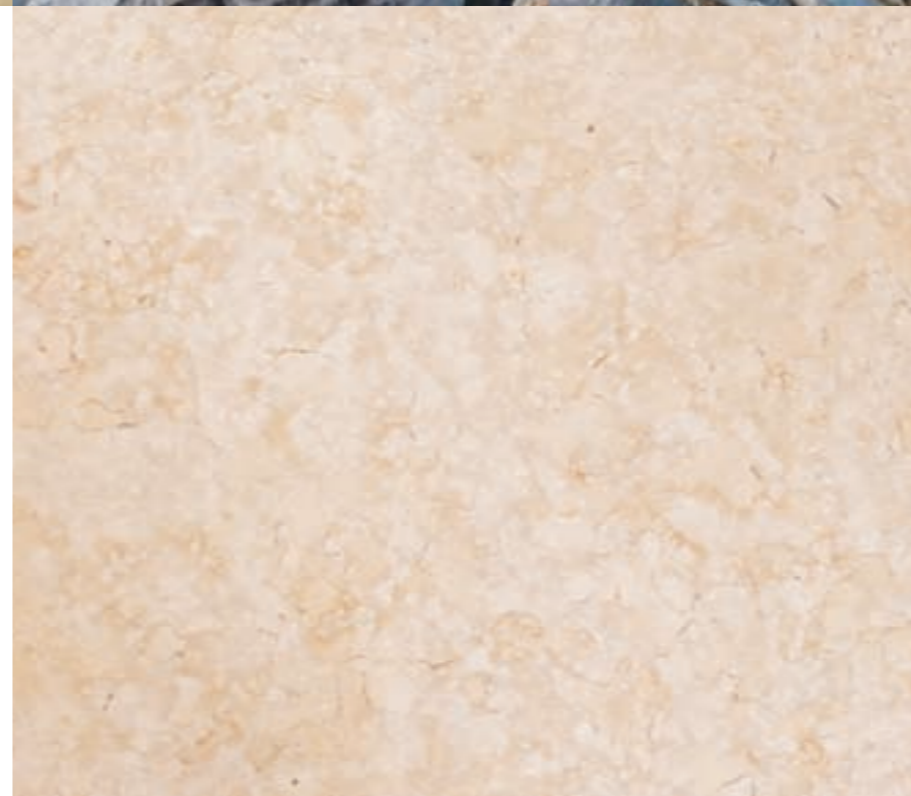

Each and every piece of natural stone we source comes from first-class quarries that can demonstrate consistent high quality. This quality allows our stonemasons to shape fabulous curves, and reveal the unique beauty of the natural minerals in the stone, creating a stunning focal piece that you can admire for years to come.

Beige travertine ↗ in vein cut and a honed and filled finish

A classic choice of natural stone that is warm, inviting, and luxurious. Premium vein cut travertine has a distinctive light to deep brown linear vein pattern with occasional non-structural fracture lines. This gives every item carved from a block unique character and style. The small voids on the surface, characteristic of this stone are filled and colour matched with a mix of stone powder and resin – then the whole piece is honed to give a satiny smooth finish.

The neutral beige to light brown base colour will work well alongside any colour scheme you choose, and the natural variations within its own patterns will complement the grain of our solid oak and walnut bathroom furniture. If you like the rustic look, you can opt to have a natural rough edge to your travertine.

Black granite in a honed finish

Bold, sleek and modern - an opulent choice that makes a sophisticated statement. Each block of black granite, a consistently black to dark grey stone is given unique character from the small round or irregular shaped silver or copper mineral deposits that appear within it. As with any natural stone no two pieces are ever the same, the natural beauty within each block has to be revealed by our skilled stonemasons during the delicate carving process. Once complete, the surface is honed into a totally smooth matt finish.

Galala marble in a polished finish

An attractive and elegantly complex marble, perfect for creating an exclusive ambience in both classic and contemporary spaces. Galala marble is cream with a hint of golden amber, a glamorous stone with a unique character from the distinguishing features that appear within. It is infused with beautifully delicate threadlike asymmetric patterns from the occasional rose or mocha veins and the small crystallised clutters or pits that appear on the surface. The natural beauty of Galala marble is given extra depth when polished to a smooth and glossy finish.

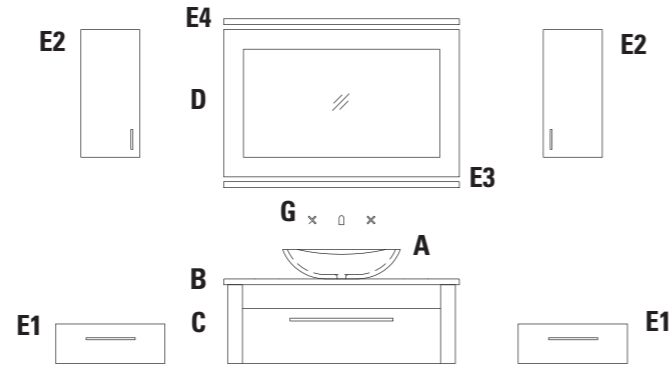

Protection

All our stone surfaces are pre-sealed with Lithofin® Stain-Stop impregnator the leading premium stain protector for on-going protection.

HOW TO ORDER GUIDE

Stonearth modular bathroom furniture - ordering system

Washstand with Counter-top Basin Sets

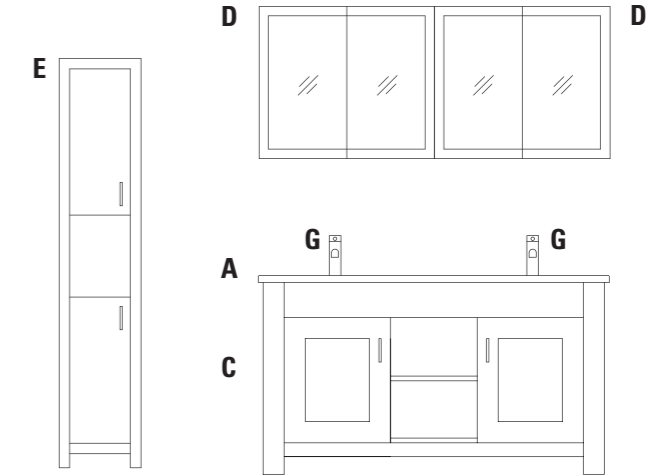

Mix and match using the modular system to create your dream bathroom.
Please see Product combination Guide on pg. 156 - 161 and the pricelist for the choices available.

A		Choose a Stone counter-top basin (see pg. 110-115 and 156-157)	Miren basin - galala marble (SB413GM)
B		Choose a Stone counter-top * (see pg. 106-107 and 156-157)	Galala marble top - large (VT612GM)
C		Choose a Washstand Choose a Finish / Colour (see pg. 136-139 and 156-157)	Venice - large oak (WS752OAK)
D		Choose a Mirror or mirror cabinet (see pg. 142-143 and 160)	Mirror - large oak (FM902OAK)
E		Maximise your storage space E1 – Storage drawer E2 – Wall cabinet E3 – Shelf E4 – Shelf as lighting pelmet (see pg. 144-149 and 160-161)	Wall hung drawer - Small oak x2 (D714OAK) Wall cabinet - mini oak x2 (CB911OAK) Shelf – large oak (SH922OAK) Shelf – large oak (SH922OAK)
F, G, H		Choose matching bathroom items, taps & accessories (see pg. 120-133 and 140-141 and 161)	Hali stainless steel x2

Place the Order - order forms are available at the back of the pricelist or on our website.
Please contact us on 0115 714 8030 if you require assistance.
A technical consultant will check the items for compatibility upon receipt of your order.

* Complimentary tap & waste hole(s) drilling service - upon your approval of a tailor-made layout drawing

Washstand with Inset Basin Sets

Mix and match using the modular system to create your dream bathroom.
Please see Product combination Guide on pg. 156 - 161 and the pricelist for the choices available.

Care and Maintenance

We build real pieces of furniture the proper way. We lacquer the wood and seal the stone, so it doesn't need much looking after. With simple care and maintenance it will be a source of pride for many years to come. Basic precautions will help keep your furniture looking good. When installing wall mounted products Stonearth strongly recommends making provisions for an inwall access point, particularly when tiling, for maintenance purposes. For full details visit our website- www.stonearth.co.uk.

As with all bathroom products it is important that your bathroom is well ventilated and any excessive water spillage is wiped away. For everyday cleaning use a damp soft cloth and mild soaps. Never use abrasive, acidic, bleach or solvent based cleaners.

The Small Print

This brochure supersedes all previous editions of the Stonearth bathroom collection with effect from the issue date of March 2018 until replaced by a new edition. Throughout this brochure all measurements are given in millimetres. All sizes quoted are nominal and must be checked against actual product. Every effort has been made to ensure the accuracy of all information in this publication. We reserve the right to amend details, descriptions and specifications given in this publication in the light of technical developments and availability of materials without prior notice. Whilst we endeavoured to maintain accuracy throughout this brochure all images are for illustration purposes and are subject to change. Colour reproduction is as accurate as the variables in photographic and printing process will allow, this includes all images of the Stonearth Colour Palette. Painted product images and colour swatches within the brochure are as accurate as possible and intended for illustration only. The Colour Match service requires a paper colour swatch from the client that is flat and suitable for scanning. Digital swatches cannot be used. The accuracy of colour matching is limited by the small degree of natural variance that occurs during the process of painting on natural wood, and also by the limitations of the technology used for scanning a colour sample and subsequent paint mixing. All terms and conditions are governed by the laws of England and Wales and each party submits to the jurisdiction of the English Courts.

Great care is taken to ensure that products are supplied to you in good condition. Your purchases should, however, be checked for manufacturing defects or damage once received and in any case before installation. We are unable to accept responsibility for any damages thereafter or have occurred as a result of installation. Guarantee information can be found on our website: www.stonearth.co.uk

Natural Material

As wood and stone are natural material any inconsistencies in the colour or changes from batch to batch and over time are considered part of the appeal of using a natural material. You should expect a small amount of blemishes and markings which gives each piece its own individual character and uniqueness and is not a reflection of poor quality. Wood components will display natural grain and colour characteristics, travertine and other naturally occurring stone components will also display colour and vein variations. They may also vary from what is featured in showroom displays, samples and photographs. Stonearth products are hand-made and you should expect small variance in dimensions.
