Sealing Strips

Waterproof sealing strip

Our unique - 'easyseal' water sealing strip - takes minutes to install. All trays should be installed with a sealing mechanism - to prevent water seeping between the tray and the wall. This is especially true in bathrooms with wooden floors - where floor movement is far more likely. Supplied in a generous 4.1 metre length - the strip is cut to size when sealing the shower tray.

D: 100, W: 100, H: 30

FLEXIBLE INSTALLATION

There are a number of ways you can install your shower tray.

Option 1

Placed flat on the floor

Option 2

Sunk into the floor

Option 3

Raised above the floor

VORTEX TURBO WASTE

All our shower wastes are 90mm diameter high flow Vortex Turbo wastes designed to fit all our trays. They comply with EN274-3. This ensures that the water flows out at up to 30 litres per minute, making the Zamori shower waste one of the most efficient available - suitable for high volume showering applications.

The waste incorporates an easy clean removable filter and is supplied with a solvent weld adaptor for different waste pipe sizes.

ANTI-BACTERIAL

Zamori has added the silver-based anti bacterial additive Zeomic into the manufacturing process. The anti microbial qualities protect against harmful bacteria and suppresses mould growth,

ANTI-SLIP

Zamori anti-slip is simply the finest available with the highest anti-slip rating.

We are the only manufacturer to thermo bond the Swiss Grip Antislip onto the tray with a curing process - to ensure better performance for a cleaner & longer lasting surface.

DIN51097 class C anti-slip ramp test

PATENTED REINFORCEMENT

All our trays are acrylic framed with our patented steel frame, formed to be the exact shape of the tray, to ensure rigidity for a lifetime of use. The trays are flat on the under-surface; this makes installation and levelling very easy.

Our steel frame is the subject of Patent Number: GB2440719 (A)

- 1 Acrylic capped ABS layer
- 2 Bonding layer
- 3 Thickness control pad
- 4 Steel frame structure
- 5 PU Foam
- 6 Insulation layer - ABS sheet
